Why Kids Kill Parents Kathleen M. Heide,1995 A tragic portrait of adolescents who kill their parents is revealed in this volume these young people almost always kill out of desperation as they are almost always victims of severe child abuse neglect and dysfunctional parenting Drawing upon her experience as a clinician expert witness and scholar the author asserts that a combination of interconnected problems creates the conditions for parricide including severe sexual physical and or verbal abuse of the child escalating violence in the family and increasing vulnerability of the child to stressors in the home This sensitive volume includes an examination of interventions that are effective in treating such children Heide concludes that ado **When Caregivers Kill** Betty L. Alt,Sandra K. Wells,2010-04-16 From mothers who kill their children in postpartum fugues to fathers who murder their kids for revenge against an estranged wife the stories in this book are chilling yet real and bring home the message that children are vulnerable to violence even in the care of those who should love and protect them the most Sadly child murder by parents and caregivers happens more frequently than one might guess and while each case is different there are often warning signs that something might be amiss Signs of physical abuse may precede the ultimate act of murder A mother s mental state after the birth of a child may signal true distress and the potential for extreme actions No one can predict with certainty when a parent or other caregiver may snap but here Alt and Wells examine many cases of child murder to find out what they have in common how we might prevent such violence and
