Pointed Object Lessons Willard S. Smith, 1971 Modern Object Lessons John Henry Sargent, 1974 **Object Lessons** Caren Holtzman, Lynn Susholtz, 2024-11-15 When Caren Holtzman and Lynn Susholtz look around a classroom they see a veritable goldmine of mathematical investigations involving number measurement size shape symmetry ratio and proportion They also think of the ways great artists have employed these concepts in their depictions of objects and space for example Picasso's use of geometric shapes in his Cubist still lifes or contemporary artist Tara Donovan's room sized sculptures of everyday items In their new book *Object Lessons* Caren a math educator and Lynn an artist and art educator use a highly visual approach to show students and teachers the art in math and the math in art Integrating visual arts into math experiences makes the lessons accessible engaging and meaningful for a wide range of students In each chapter the authors use everyday objects to create rigorous hands on activities that address key mathematics standards and concepts Each lesson provides an introduction to the featured object that explains how it connects to key mathematical concepts a discussion of the artist's art styles and techniques featured activities organized by grade level and math content area the basic materials required to prepare and teach each lesson a clear picture of what the lesson will look like in a classroom and a list of resources The book and its accompanying CD feature a wonderful gallery of images including art photos and student work and a collection of links to art education organizations museums and Web sites that focus on the work of forty major artists

Aeolian Quarterly, 1898 **Good Roads**, 1917 Strange Duets Kim Marra, 2009-05 Autocratic male impresarios increasingly dominated the American stage between 1865 and 1914 Many rose from poor immigrant roots and built their own careers by making huge stars out of undiscovered Anglo identified actresses Reflecting the antics of self made industrial empire builders and independent challenging New Women these theatrical potentates and their protegés gained a level of wealth and celebrity comparable to that of Hollywood stars today In her engaging and provocative *Strange Duets* Kim Marra spotlights three passionate impresario actress relationships of exceptional duration that encapsulated the social tensions of the day and strongly influenced the theatre of the twentieth century Augustin Daly and Ada Rehan Charles Frohman and Maude Adams and David Belasco and Mrs Leslie Carter reigned over legitimate Broadway theatre the venue of greatest social cachet for the monied classes Unlike impresarios and actresses in vaudeville and burlesque they produced full length spoken drama that involved special rigors of training and rehearsal to sustain a character's emotional truth as well as a high level of physical athleticism and endurance Their efforts compelled fascination at a time when most people believed women's emotions were seated primarily in the reproductive organs and thus were fundamentally embodied and sexual in nature While the impresario ostensibly exercised full control over his leading lady showing fashionable audiences that the exciting but unruly New Woman could be both tamed and enjoyed she acquired a power of her own that could bring him to his knees Kim Marra combines methods of cultural gender and sexuality studies with theatre history to explore the vexed mutual

dependency between these status seeking Svengalis and their alternately willing and resistant leading ladies She illuminates how their on and off stage performances highly charged in this Darwinian era with racial as well as gender sexual and class dynamics tapped into the contradictory fantasies and aspirations of their audiences Played out against a backdrop of enormous cultural and institutional transformation the volatile romance of Daly and Rehan closeted homosexuality of Frohman and Adams and carnal expiations of Belasco and Carter produced strange duets indeed *Driven (Reflections Volume 9)* Dean Murray, Eldon Murphy, 2014-05-29 Jasmin is a 17 year old shape shifter whose whole world has been turned upside down over the last six months Her pack has been scattered she s nearly died more times than she can count and the boy she cares about more than anyone else in the entire world is in a vampire caused coma that has every sign of being terminal Geoffrey has spent untold decades or possibly even centuries as a slave to others of his kind vampires who were stronger and more ruthless than him Escaping New York cost Geoffrey everything and the holes inside of his memory mean that he doesn t even really understand what it is he lost in his efforts to get away from his former master Imastious Vampires and shape shifters are natural enemies but these two are going to have to find a way to work together There s more at stake than just their own lives and forces neither of them fully understand are gathering to make sure that neither of them survive the week Publisher s Note For the first time characters from Dean Murray s Reflections novels will be meeting up with characters from Eldon Murphy s Reflections novels Before reading *Driven* it is strongly suggested that the reader have finished the Eldon Murphy Reflections books up to this point *The Greater Darkness* and *A Darkness Mirrored* as well as all of the Dean Murray Reflections titles *Broken Torn Splintered Intrusion Numb Trapped Forsaken and Riven* **Old Testament Introduction** Milton Jones, 2012-08-09 Too frequently believers give up on the possibility of understanding the Old Testament Distance from the culture ignorance of the literary forms and failure to see the structure of each book combine to create a daunting task in sorting out the content Without the ability to compass the content application becomes difficult Further too many people labor under the mistaken notion that the Old Testament is no longer relevant In reality it is impossible to truly understand and apply the New Testament correctly without a working knowledge of the Old Testament Every believer can be an active student of the Old Testament *Military Review* ,1977 **Whose Lives Are They Anyway?** Dennis Bingham, 2010-03-04 The biopic presents a profound paradox its own conventions and historical stages of development disintegration investigation parody and revival have not gained respect in the world of film studies That is until now *Whose Lives Are They Anyway* boldly proves a critical point The biopic is a genuine dynamic genre and an important one it narrates exhibits and celebrates a subject s life and demonstrates investigates or questions his or her importance in the world it illuminates the finer points of a personality and ultimately it provides a medium for both artist and spectator to discover what it would be like to be that person or a certain type of person Through detailed analyses and critiques of nearly twenty biopics Dennis Bingham explores what is at their core the urge to dramatize real life and find a version of the truth

within it The genre's charge which dates back to the salad days of the Hollywood studio era is to introduce the biographical subject into the pantheon of cultural mythology and above all to show that he or she belongs there It means to discover what we learn about our culture from the heroes who rise and the leaders who emerge from cinematic representations Bingham also zooms in on distinctions between cinematic portrayals of men and women Films about men have evolved from celebratory warts and all to investigatory to postmodern and parodic At the same time women in biopics have been burdened by myths of suffering victimization and failure from which they are only now being liberated To explore the evolution and lifecycle changes of the biopic and develop an appreciation for subgenres contained within it there is no better source than *Whose Lives Are They Anyway*
