perceived issues such as the supposed overrepresentation of Jews in liberal professions He charts how in partnership with other European powers and international institutions such as the League of Nations Polish leaders made attempts to channel emigration to South America to establish direct trade with Africa to expedite national minorities to far away places and to tap into colonial resources around the globe Puchalski demonstrates the intersection between such national policies and larger processes taking place at the time including the internationalist turn of colonialism and the global fascination with technocratic solutions Carefully researched the volume is key reading for scholars and advanced students of twentieth century European history

Jahrhunderts bei und unterstreicht die Suche nach den im Zeitraum zwischen den Weltkriegen liegenden Ursachen von Konflikten die bis heute auftreten This book both narrates and examines the story of the nationalization of a local population in an interwar Central European border area using a wide and comparative context that relies on the international political and diplomatic background of the time It concentrates on a time period of thirteen years from 1921 the year of the plebiscite in Upper Silesia to 1934 when Poland and Germany signed the non aggression pact After the plebiscite the area of Upper Silesia was divided between Germany and Poland and the part which was shifted to Poland experienced an intensive process of nationalization or what will be called Polonization The study focuses on the city Kattowitz Katowice a politicized area of international importance and which after the shifting of the border became the capital of the

new Polish Silesian Voivodeship The book analyzes the dynamics of belonging and affiliation as experienced during this process by two non national groups in the population the Silesian and the Jewish in the Eastern Upper Silesian region with the process placing these two micro histories within the macro history of interwar Central Europe This work contributes to an understanding of the relationships between the minorities and the ruling majorities in the national discourse of the twentieth century and assists in tracing the interwar sources of the conflicts that appear yet today **The American**
