Poland's Last King And English Culture Stanislaw August Poniatowski 1732 1798:

Poland's Last King and English Culture Richard Butterwick, 2008 **Poland's Last King and English Culture**

Richard Butterwick, 1998 The attempt by Stanislaw August Poniatowski 1764-95 to create anew the Polish world was one of the most audacious enterprises of reform undertaken in the 18th century With new perspectives on the successes and limitations of the Polish Enlightenment this book presents a dynamic interpretation of European culture in the eighteenth century *Poland's Last King and English Culture* Richard Butterwick, 1998 In Poland's Last King Richard Butterwick

reassesses the achievement of Poland's most controversial king He shows how Stanislaw August's radical plans for constitutional reform and the renewal of Polish culture were profoundly influenced by his admiration of England and examines the successes and limitations of the Polish Enlightenment **Remarks on Architecture** Ignacy

Potocki, 2015-06-18 At the end of the eighteenth century the authors of Poland's 3 May 1791 Constitution became the heirs to a defunct state whose territory had been partitioned by Russia Prussia and Austria At this moment of intensive national postmortem Ignacy Potocki an eminent statesman and co author of the Constitution wrote the treatise Remarks on Architecture One of the best preserved examples of early modern Polish architectural thought Potocki's work announces itself as a project of national introspection with architecture playing a direct role in the betterment of the nation Addressed to the contemporary Polish nobility the book argues that architecture is a vessel for cultural values and that it plays an important part in the formation and critique of broader national traditions Throughout Potocki conveys the lessons of a Vitruvian canon that shaped Continental classical architectural theory and practice throughout the early modern period Expertly translated by Carolyn Guile and featuring an introduction that explores Polish Enlightenment architectural writing as an example of cultural exchange inheritance and transformation this edition of Potocki's treatise broadens our understanding of European architectural history during the early modern period **Revolutions without Borders** Janet

Polasky, 2015-03-01 Nation based histories cannot do justice to the rowdy radical interchange of ideas around the Atlantic world during the tumultuous years from 1776 to 1804 National borders were powerless to restrict the flow of enticing new visions of human rights and universal freedom This expansive history explores how the revolutionary ideas that spurred the American and French revolutions reverberated far and wide connecting European North American African and Caribbean peoples more closely than ever before Historian Janet Polasky focuses on the eighteenth century travelers who spread new notions of liberty and equality It was an age of itinerant revolutionaries she shows who ignored borders and found allies with whom to imagine a borderless world As paths crossed ideas entangled The author investigates these ideas and how they were disseminated long before the days of instant communications and social media or even an international postal system Polasky analyzes the paper records books broadsides journals newspapers novels letters and more to follow the far reaching trails of revolutionary zeal What emerges clearly from rich historic records is that the dream of liberty among America's founders was

part of a much larger picture It was a dream embraced throughout the far flung regions of the Atlantic world
