National Criminal Justice Thesaurus, 1992 Behavior Science Perspectives on Culture and Community Traci M. Cihon, Mark A. Mattaini, 2020-12-04 All science proceeds by progressively building on the work of others while remaining open to new discoveries and challenging existing conceptual frameworks The same is true of cultural behavior science This

textbook presents the scientifically rigorous work of the last several decades that has taken a behavior analytic view of social and cultural processes with an eye for contributions that address social and cultural issues. The chapters herein explore and elaborate on the history, theories, and methodologies of cultural behavior science and those of its researchers and practitioners. Throughout this volume, the authors intentionally prompt students to both learn from and question the current theory and methods while shaping their own research and practice. This book presents multiple intersecting perspectives intended for graduate-level students of behavior analysis. Contributors to this volume include many of the major scholars and practitioners conducting research and/or practicing in communities and larger cultural systems. Their work is scientifically guided, systemic, and ecologically valid; it includes basic research as well as efforts having applications in community health, sustainability, environmental issues, and social justice among other matters. There is material here to support specialists preparing to do research or practice within community and cultural-level systems. As well, students who intend to do direct and clinical work will find the background they need to make contributions to the field as engaged, informed citizens.

The report is based on 100 interviews with mental health practitioners, police administrators, union and association officials, and line officers and their family members. Provides pragmatic suggestions that can help every police or sheriff's department reduce the debilitating stress that so many officers experience and thereby help these officers do the job they entered law enforcement to perform: protect the public.
