Police And Citizen Perceptions Of Police Power:

Police and Citizen Perceptions of Police Power Gina Robertiello, 2004 This book explores the perceptions of police power by citizens and by the police officers themselves Using a multi variant survey on police citizen interactions in the urban environment of New Jersey the author brings into focus the difficulties involved in police citizen encounters where the application of police discretion and power is often cognitively and behaviorally misunderstood within larger community understandings

Police Powers and Citizens' Rights Layla Skinns, 2019-01-31 Police detention is the place where suspects are taken whilst their case is investigated and a case disposal decision is reached It is also a largely hidden but vital part of police work and an under explored aspect of police studies This book provides a much needed comparative perspective on police detention It examines variations in the relationship between police powers and citizens rights inside police detention in cities in four jurisdictions in Australia England Ireland and the US exploring in particular the relative influence of discretion the law and other rule structures on police practices as well as seeking to explain why these variations arise and what they reveal about state citizen relations in neoliberal democracies This book draws on data collected in a multi method study in five cities in Australia England Ireland and the US This entailed 480 hours of observation as well as 71 semi structured interviews with police officers and detainees Aside from filling in the gaps in the existing research this book makes a significant contribution to debates about the links between police practices and neoliberalism In particular it examines the police not just the prison as a site of neoliberal governance By combining the empirical with the theoretical the main themes of the book are likely to be of utmost importance to contemporary discussions about police work in increasingly unequal societies As a result it will also have a wide appeal to scholars and students particularly in criminology and criminal justice

Police-Citizen Relations Across the World Dietrich Oberwittler, Sebastian Roché, 2017-10-02 Police citizen relations are in the public spotlight following outbursts of anger and violence Such clashes often happen as a response to fatal police shootings racial or ethnic discrimination or the mishandling of mass protests But even in such cases citizens assessment of the police differs considerably across social groups This raises the question of the sources and impediments of citizens trust and support for police Why are police citizen relations much better in some countries than in others Are police minority relations doomed to be strained And which police practices and policing policies generate trust and legitimacy Research on police legitimacy has been centred on US experiences and relied on procedural justice as the main theoretical approach This book questions whether this approach is suitable and sufficient to understand public attitudes towards the police across different countries and regions of the world This volume shows that the impact of macro level conditions of societal cleavages and of state and political institutions on police citizen relations has too often been neglected in contemporary research Building on empirical studies from around the world as well as cross national comparisons this volume considerably expands current perspectives

on the sources of police legitimacy and citizens trust in the police Combining the analysis of micro level interactions with a perspective on the contextual framework and varying national conditions the contributions to this book illustrate the strength of a broadened perspective and lead us to ask how specific national frameworks shape the experiences of policing

Stop and Search Leanne Weber, Ben Bowling, 2014-06-11 Police powers to stop question and search people in public places and the way these powers are exercised is a contentious aspect of police community relations and a key issue for criminological and policing scholarship and for public debate about liberty and security more generally Whilst monitoring and controlling minority populations has always been a feature of police work new fears new suspect populations and new powers intended to control them have arisen in the face of instability associated with rapid global change This book synthesises and extends knowledge about stop and search practices across a range of jurisdictions and contexts It explores the use of stop and search powers in relation to street crime terrorism and unauthorised migration in Britain North America Europe Australia Africa and Asia The book covers little researched practices such as road blocks and ID checking and discusses issues such as fairness effectiveness equity and racial profiling It provides a substantive and theoretical foundation for transnational and comparative research on police powers in a global context This book was originally published as a special issue of Policing and Society
