Witness Protection and Criminal Justice in Africa Suzzie Oyakhire, 2023-06-30 This book examines the concept of witness protection which is still at an early developmental stage in several African countries including Nigeria from a legal and institutional perspective Recent developments in Nigeria highlight the need to clarify legal and conceptual issues within the existing legal framework for protecting witnesses Using the Nigerian case study the book illustrates some obscurities inherent in the concept of witness protection These are highlighted around five critical areas the definition of witness protection the scope of beneficiaries requiring protection the nature of crimes necessitating protection the nature of protective measures and the administrative control of witness protection Specifically this book draws from the existing literature and practices of witness protection and adopts two distinct perspectives the criminal justice perspectives and human rights perspectives as heuristic tools for analysing the concept and to separate the disparate influences that shape how it is construed These distinctions are utilised throughout the book as an integrated way of conceptualising the concept of witness protection By discussing the practice of witness protection within the Nigerian context the book contributes to

African conversations on the topic of witness protection The clarifications made in this book are utilised in making normative proposals for developing a legal framework for witness protection in Nigeria They are also useful for other African countries interested in developing a witness protection framework as part of criminal justice reform This book will serve as a reference point for legal scholars researchers academics postgraduate students and policy makers interested in the concept of witness protection It would also be useful for courses concerned with comparative criminology where there is an interest in developments in the Global South

Project Reports of the National Institute of Law Enforcement and Criminal Justice, 1972 *The Politics of Safety* Shannon King, 2023-11-28 For much of the twentieth and twenty first centuries public officials in cities like New York Chicago and Baltimore have criminalized uprisings as portending Black thugs throwing rocks at police and plundering private property to undermine complaints of police violence Liberal mayors like Fiorello H La Guardia have often been the deftest practitioners of this strategy As the Depression and wartime conditions spurred youth crime white New Yorkers anxieties about crime the movement of Black people into white neighborhoods and headlines featuring Black hoodlums emblazoned all over the white media drove their support for the expansion of police patrols in the city especially in Harlem and Bedford Stuyvesant Though Blacks also called for police protection and for La Guardia to provide equitable municipal resources they primarily received more punishment This set the stage for the Harlem uprising of 1943 Shannon King uncovers how Black activism for safety was a struggle against police brutality and crime highlighting how the police withholding protection operated as a form of police violence and an abridgement of their civil rights By decentering familiar narratives of riots King places Black activism against harm at the center of the Black freedom struggle revealing how Black neighborhoods became occupied territories in La Guardia s New York
