Police Relics:

Police Relics George E. Virgines, 1982 **Relics of the Christ** Joe Nickell, 2007-03-16 Religious relics defined as either portions of or objects connected with the body of a saint or other holy person are among the most revered items in the world Christian relics such as the Holy Grail the True Cross and the Lance of Longinus are also the source of limitless controversy Such items have incited people to bloodshed and some say have been a source of miracles Relics inspire fear and hope among the faithful and yet are a perennial target for skeptics both secular and Christian To research the authenticity of numerous Christian relics Joe Nickell takes a scientific approach to a field of study all too often tainted by premature conclusions In this volume Nickell investigates such renowned relics as the Shroud of Turin the multiple heads of John the Baptist and the supposedly incorruptible corpses of saints first examining the available evidence and documented history of each item From accounts of true believers to the testimony of the relics alleged fabricators Nickell then presents all sides of each story allowing the evidence to speak for itself For each relic Nickell evaluates both the corroborating and contradictory bodies of evidence and explores whether the relic and attributed miracles can be reconstructed In addition to his own experiments Nickell presents findings from the world's top scientists and historians regarding these controversial objects of reverence and ire explaining the circumstances under which each case was examined Radiocarbon dating and tests to determine the validity of substances such as blood or patina indicate a variety of possible origins Nickell even reveals some of the techniques used to create archaeological forgeries and explains how investigators have exposed them Each relic is a mystery to be solved guided by the maxim extraordinary claims require extraordinary proof Nickell seeks only the truth

FBI Law Enforcement Bulletin, 1979 Relics of War Jennifer Raab, 2024-09-10 How a single haunting image tells a story about violence mourning and memory In 1865 Clara Barton traveled to the site of the notorious Confederate prison camp in Andersonville Georgia where she endeavored to name the missing and the dead The future founder of the American Red Cross also collected their relics whittled spoons woven reed plates a piece from the prison's dead line a tattered Bible and brought them back to her Missing Soldiers Office in Washington DC presenting them to politicians journalists and veterans families before having them photographed together in an altar-like arrangement Relics of War reveals how this powerful image produced by Mathew Brady opens a window into the volatile relationship between suffering martyrdom and justice in the wake of the Civil War Jennifer Raab shows how this photograph was a crucial part of Barton's efforts to address the staggering losses of a war in which nearly half of the dead were unnamed and from which bodies were rarely returned home for burial The Andersonville relics gave form to these absent bodies offered a sacred site for grief and devotion mounted an appeal on behalf of the women and children left behind and testified to the crimes of war The story of the photograph illuminates how military sacrifice was racialized as political reconciliation began and how the stories of Black soldiers and communities were silenced Richly illustrated Relics of War vividly demonstrates how one photograph can

capture a precarious moment in history serving as witness advocate evidence and memory Mauritius Great Britain. Commonwealth Office,1950 **The Inner Circle** Mari Jungstedt,2008-11-25 The Inner Circle opens with an international group of young archeology students sweating on a dig on the island of Gotland uncovering a Viking fortification dating back over a millennium They are a fun loving lot partying together every night but the good vibe turns to horror when one of them twenty one year old Martina Flochten disappears Her body is found a short while later naked bled out and hanging from a tree Her injuries indicate that she is the victim of a ritual killing Inspector Anders Knutas investigates Martina s acquaintances Who was the mysterious lover she was supposed to have been meeting in secret and whom none of her fellow archaeologists have actually seen What do the marks on Martina s body signify Is there possibly a connection between Martina s death and the recent and unsolved brutal beheading of a Gotland pony The pony was also bled out and its head was missing until it appears mounted on a stick outside the next victim s house Inspector Knutas and his team work feverishly to catch the killer but before long there are more victims all of whom have been killed and mutilated the same way Mari Jungstedt integrates a healthy dose of Scandinavian mythology in this installment of her critically acclaimed series and also addresses current issues on Gotland while keeping up a fast paced and intricate plot as Knutas closes in on the killer and the secret that connects the victims This is Swedish crime fiction at its best dark atmospheric and character driven Annual Report on Mauritius Great Britain. Foreign and Commonwealth Office,1949 *The Routledge Handbook of Archaeological Human Remains and Legislation* Nicholas Marquez-Grant,Linda Fibiger,2011-03-21 Methodologies and legislative frameworks regarding the archaeological excavation retrieval analysis curation and potential reburial of human skeletal remains differ throughout the world As work forces have become increasingly mobile and international research collaborations are steadily increasing the need for a more comprehensive understanding of different national research traditions methodologies and legislative structures within the academic and commercial sector of physical anthropology has arisen The Routledge Handbook of Archaeological Human Remains and Legislation provides comprehensive information on the excavation of archaeological human remains and the law through 62 individual country contributions from Europe Asia Africa North America South America and Australasia More specifically the volume discusses the following What is the current situation including a brief history of physical anthropology in the country What happens on discovering human remains who is notified etc What is the current legislation regarding the excavation of archaeological human skeletal remains Is a license needed to excavate human remains Is there any specific legislation regarding excavation in churchyards Any specific legislation regarding war graves Are physical anthropologists involved in the excavation process Where is the cut off point between forensic and archaeological human remains e g 100 years 50 years 25 years Can human remains be transported abroad for research purposes What methods of anthropological analysis are mostly used in the country Are there any methods created in that country which are population specific Are there particular ethical issues that need to be

considered when excavating human remains such as religious groups or tribal groups In addition an overview of landmark anthropological studies and important collections are provided where appropriate The entries are contained by an introductory chapter by the editors which establish the objectives and structure of the book setting it within a wider archaeological framework and a conclusion which explores the current European and world wide trends and perspectives in the study of archaeological human remains The Routledge Handbook of Archaeological Human Remains and Legislation makes a timely much needed contribution to the field of physical anthropology and is unique as it combines information on the excavation of human remains and the legislation that guides it alongside information on the current state of physical anthropology across several continents It is an indispensable tool for archaeologists involved in the excavation of human remains around the world
