Policing And Democracy In The Netherlands:

Policing and Democracy in the Netherlands Trevor Jones, 1995 Three specific areas of policing policy are considered the major restructuring of the Dutch police system which began in the early 1990s the growth in attention given to crime prevention in the Netherlands and new policing responses to crimes against women and children **Handbook of Policing** Tim Newburn, 2012-08-21 This new edition of the Handbook of Policing updates and expands the highly successful first edition and now includes a completely new chapter on policing and forensics It provides a comprehensive but highly readable overview of policing in the UK and is an essential reference point combining the expertise of leading academic experts on policing and policing practitioners themselves Challenges of Policing Democracies Dilip Das, Marenin Otwin, 2012-10-12 In this text the editors analyze the diverse situations that police forces operate under and the challenges that they face in different kinds of democracies This cross cultural comparison of various systems highlights the universal observation that police are a anomaly in a democracy and explores how various influences for example large scale social violence a zeal for crime fighting and vulnerability to temptation often find police incapable of behaving in a democratic manner Challenges of Policing Democracies goes beyond just showing the similarities and differences of the policing challenges democratic societies face it also examines the responses and remedies adopted by police in various countries at different levels of democratic achievement and how every society struggles with the challenges of preserving democratic values without sacrificing the effectiveness of policing **Encyclopedia of Law Enforcement** Larry E Sullivan, 2005 Vols 1 and 2 cover U S law enforcement Vol 3 contains articles on individual foreign nations together with topical articles on international law enforcement Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy Municipal Policing in the European Union D.

Donnelly,2013-01-21 The book applies a model of municipal policing to compare a number of police systems in the European Union suggesting that in the future local communities will have some form of police enforcement mechanism that will not always include the sworn police officer

Policing Democracy Mark Ungar,2020-03-03 2011 Winner of the Charles H Levine Memorial Book Prize of the International Political Science Association Latin America's crime rates are astonishing by any standard the region's homicide rate is the world's highest This crisis continually traps governments between the need for comprehensive reform and the public demand for immediate action usually meaning iron fisted police tactics harking back to the repressive pre 1980s dictatorships In Policing Democracy Mark Ungar situates Latin America at a crossroads between its longstanding form of reactive policing and a problem oriented approach based on prevention and citizen participation Drawing on extensive case studies from Argentina Bolivia and Honduras he reviews the full spectrum of areas needing reform criminal law policing investigation trial practices and incarceration Finally Policing Democracy probes democratic politics power relations and regional disparities of security and reform to establish a framework for understanding the crisis and moving beyond it

Governance and the Democratic Deficit Victor Bekkers,Geske Dijkstra,Menno Fenger,2016-04-22 It is widely acknowledged that we are witnessing a major transformation of public policy making a transformation which has been labelled as a change from government to governance Governance is used to describe policy making and implementation without a central authority in a non hierarchical network like structure through negotiation and cooperation between public and private actors at one or across different political levels This comprehensive volume combines empirical analysis and normative assessment of governance practices providing a systematic approach based on a framework for assessing democratic legitimacy It addresses different modes of governance at the local regional national European and international levels The volume assesses the alleged democratic deficit of these new governance practices and as such is ideally suited to courses on public administration

Comparative Policing from a Legal Perspective Monica den Boer, Public police forces are a regular phenomenon in most jurisdictions around the world yet their highly divergent legal context draws surprisingly little attention Bringing together a wide range of police experts from all around the world this book provides an overview of traditional and emerging fields of public policing New material and findings are presented with an international comparative perspective it is a must read for students of policing security and law and professionals in related fields

Policing in Europe Antoinette Verhage,2010 The Journal of Police Studies is a quarterly which is oriented towards high standard quality contributions on policing issues and phenomena that are of interest to the police Topics are approached from a specialist and if required multidisciplinary point of view The volume looks to answer questions regarding the developments of police and police cooperation in Europe at the supranational level as well as explore the reactions of police organizations in individual European countries to the process of transnationalisation in terms of the design of and philosophy within police organizations
