Policing Freedom:

Policing Freedom Martine Jean, 2023-08-17 *Policing Freedom* uses the case study of Brazil's first penitentiary the Casa de Correio to explore how the Brazilian government used incarceration and enforced labor to control the prison population during the foundational period of Brazilian state formation and postcolonial nation building. Placing this penitentiary within the global debates about the disciplinary benefits of confinement and the evolution of free labor ideology, Martine Jean illustrates how Brazil's political elites envisioned the penitentiary as a way to discipline the free working class. While participating in the debates about the inhumanity of the slave trade, philanthropists and lawmakers both conservative and liberal articulated a nation building discourse that focused on reforming Brazil's vagrants into workers in anticipation of slavery's eventual demise, laying the racialized foundations for policing and incarceration in the post-emancipation period.

Democratic Policing in Transitional and Developing Countries Michael D. Wiatrowski, 2016-05-13 Is it possible to create democratic forms of policing in transitional and developing societies? This volume argues that policing models and practices promoted by the west are often inadequate for adoption by countries making democratic transitions because they do not adequately address issues such as human rights, equity, co-production, accountability, openness, and organizational change. Therefore, police reform is often limited to a one-size-fits-all approach. The book expands the dialogue so that discussions of democratic policing around the world are more realistic, comprehensive, and sensitive to the local context. Detailed case studies on Iraq, South Africa, Northern Ireland, and Kazakhstan provide a realistic assessment of the current state of policing. The editors use the studies to suggest how to promote democratic policing and other important goals of democratic reform around the world. The volume will assist academics, policy makers, NGOs, and others in tailoring a local democratic policing strategy within a broader framework to enhance socioeconomic development and citizen capacity, build social capital, reduce various forms of conflict, and support human rights. *The Bonds of Freedom* Jake Subryan

Richards, 2025-09-02 The story of the long fight for freedom of African captives rescued from the illegal slave trade only to be forced back into bondage. *The Bonds of Freedom* tells the forgotten story of people seized from slave ships by maritime patrols, liberated, then forced into bonded labor between 1807 and 1880. Using extensive archival research from Sierra Leone, South Africa, Brazil, Cuba, the United Kingdom, and the United States, historian Jake Subryan Richards uncovers the contrasting ideas and practices of authoritarianism and freedom that empires and liberated Africans developed during the protracted end of the illegal slave trade. Following the Africans' journeys from enslavement to liberation, Richards recounts their capture and embarkation on ships that participated in the vast slave trade to Brazil and Cuba, the maritime seizure of those ships, and the adjudication that assigned freed captives to bonded labor. The captives fought against their bondage as state agents limited their freedom of choice and movement. The liberated Africans' story shows that far from following a straightforward path to freedom, these men and women navigated anti-slave trade laws that both subjected them to

authoritarian control and provided a domain for them to create their own visions of freedom Through meticulous research and engaging narrative Richards sheds light on their legal battles community building efforts and ongoing quest for justice and autonomy in the face of enduring challenges

Freedom from the Press Cherian George,2012-04-01 For several decades the city state of Singapore has been an international anomaly combining an advanced open economy with restrictions on civil liberties and press freedom Freedom from the Press analyses the republic s media system showing how it has been structured like the rest of the political framework to provide maximum freedom of manoeuvre for the People s Action Party PAP government Cherian George assessed why the PAP s freedom from the press model has lasted longer than many other authoritarian systems He suggests that one key factor has been the PAP s recognition that market forces could be harnessed as a way to tame journalism Another counter intuitive strategy is its self restraint in the use of force progressively turning to subtler means of control that are less prone to backfire The PAP has also remained open to internal reform even as it tries to insulate itself from political competition Thus although increasingly challenged by dissenting views disseminated through the internet the PAP has so far managed to consolidate its soft authoritarian hegemonic form of electoral democracy Given Singapore s unique place on the world map of press freedom and democracy this book not only provides a constructive engagement with ongoing debates about the city state but also makes a significant contribution to the comparative study of journalism and politics
