Policing the Line Norman S. J. Baxter, 2001 1 Conflict and the police **POLICING THE LINE** NORMAN S. J. BAXTER, 2017 **Statebuilding, Security-Sector Reform and the Liberal Peace** Barry J. Ryan, 2011-03-31 This book explores how and why police reform became an international phenomenon in the era of statebuilding that followed the end of the Cold War Police reform has become an indispensable element in the spread of liberal democracy Policing is distinguished by its ability to combine reasonable and forcible methods to preserve and spread liberal values The book examines the reason police reform was introduced as a method of building consensus in Latin America and the Balkans and documents the development of its use in Africa the Middle East and the Caucasus region It illustrates how police power binds the liberal value of freedom to the security needs of post conflict regions and discusses its force as a strategy to bring law and order to a global security domain Drawing on a multi disciplinary approach to the subject the book delves deeply into policing as a method to bring coherence to global security It traces the presence of coherent police strategies in contemporary international relations through studies of the United Nations the European Union and the Organization for Security and Cooperation in Europe By contrasting police reform with security sector reform the book explores how liberal peace is imagined by the international NGO sector state aid agencies and international organizations This book will be of much interest to students of statebuilding post conflict reconstruction critical security studies development studies and IR in general **Policing Northern Ireland** Aogan Mulcahy, 2013-06-17 This book provides an account and analysis of policing in Northern Ireland following the RUC Royal Ulster Constabulary from the start of the troubles in the 1960s up to 1999 It focuses on three key aspects of the police legitimization process reform measures which are implemented to redress a legitimacy crisis representational strategies which are invoked to offer positive images of policing and public responses to these various strategies The book also makes a powerful contribution to wider current debates about police legitimacy police community relations community resistance and conflict resolution **Police Administration** Gary W. Intelligent Control Willem de Lint, Alan

Hall, 2009-06-02 Massive public protests have had a prominent presence at the turn of the millennium with many thousands of protestors controlled by small yet increasingly specialized police forces Investigating the ways in which police practices have evolved in relation to labour strikes and protests *Intelligent Control* examines the means by which police forces have developed more coercive and consent based approaches to regulating social unrest Willem de Lint and Alan Hall argue that police forces have been gradually adapting public order operations to match or reflect wider trends in politics and society The main such development is the enfolding of neoliberalism Police and labour and protester adaptations have followed a fine line between legitimacy and illegitimacy consent and coercion The authors explore the development of consent policing from its roots in labour strike countering and the emergence of what they call intelligent control from expanded covert intelligence gathering operations A concise study of how police practices changed from the 1960s to the present day *Intelligent Control* is an informative account of a revolution in modern policing

World Encyclopedia of Police Forces and Correctional Systems George Thomas Kurian, 2006 This fully updated version of the original 1989 edition of the *World Encyclopedia of Police Forces and Correctional Systems* describes the national law enforcement and correctional systems of more than 195 countries across the globe

The Oxford Handbook of Police and Policing Michael Dean Reisig, Robert J. Kane, 2014 The police are perhaps the most visible representation of government They are charged with what has been characterized as an impossible mandate control and prevent crime keep the peace provide public services and do so within the constraints of democratic principles The police are trusted to use deadly force when it is called for and are allowed access to our homes in cases of emergency In fact police departments are one of the few government agencies that can be mobilized by a simple phone call 24 hours a day 7 days a week They are ubiquitous within our society but their actions are often not well understood
