Policing And The Condition Of England Memory Politics And Culture:

Policing and the Condition of England Ian Loader, Aogán Mulcahy, 2003 Citizens it is said have lost faith in the English police Opinion polls repeatedly show that trust in and respect for the police have declined precipitously from the historically high levels achieved during the golden age of the 1950s Successive decades of rising crime political violence and urban disorder miscarriages of justice and declining effectiveness have left the police in what seems like a permanent crisis of legitimation A once revered national institution has become thoroughly profane In this major new work on the relationship between English policing and culture Ian Loader and Aogan Mulcahy reassess and revise this received sociological and popular wisdom on the fate that has befallen the English police Paying close attention to the symbolic and cultural significance of the police Loader and Mulcahy document the mix of profane and sacred sensibilities that struggle with one another to determine the contours of what they call English policing culture They draw on documentary analysis of official representations of policing and oral historical research with citizens police officers former government ministers and civil servants to show that far from being demystified policing is a cultural institution that remains deeply entangled with questions of subjectivity recognition belonging and collective identity This cultural sociology of English policing sheds new light on the social changes and conflicts that have called police authority into question in the decades since 1945 and offers an important appraisal of what is at stake in the contemporary cultural politics of policing

theory *The Security Field* Matt Bowden, 2024-06-03 How crime and security are governed has become a critical issue in criminology over the first quarter of the twenty first century Today we see a broader landscape of regulatory players who are involved in the control and management of crime whether in crime prevention safety in the community or in providing private security services The Security Field Crime Control Power and Symbolic Capital gets to grips with these changes and argues that this forms an emerging field in which different players appear to compete and co operate but are ultimately vying to shape and order the field This book draws on new thinking in the social sciences on questions of crime fear and security and contributes to the expanding interest on the sociology and criminology of security by offering a Bourdieusian approach to plural policing and the everyday political economy of security Drawing from Bourdieu s concept of field this book builds a theory of the security field based upon a series of in depth interviews with security actors such as senior police officers NGOs private security professionals government officials and community safety workers in Ireland It demonstrates how security producers compete for cultural capital in its many forms as data information and relationships and ultimately as a way of cementing their positions in this emerging field It shows the dominant power of the formal police and central government in shaping and ordering this relational space In doing so The Security Field Crime Control Power and Symbolic Capital builds an empirical case from three distinct areas of security production urban security community safety and the connections between regulated private security and public crime prevention It explores the challenges of securitisation in respect of public safety security and rights and the way in which social problems such as drug use homelessness and urban marginality are recast as security concerns An accessible and compelling read this book will appeal to students and scholars of criminology sociology urban studies and security studies *The SAGE Handbook of Global Policing* Ben Bradford, Beatrice Jauregui, Ian Loader, Jonny Steinberg, 2016-07-14 The SAGE Handbook of Global Policing examines and critically retraces the field of policing studies by posing and exploring a series of fundamental questions to do with the concept and institutions of policing and their relation to social and political life in today s globalized world The volume is structured in the following four parts Part One Lenses Part Two Social and Political Order Part Three Legacies Part Four Problems and Problematics By bringing new lines of vision and new voices to the social analysis of policing and by clearly demonstrating why policing matters the Handbook will be an essential tool for anyone in the field **Democratic Policing in a Changing World** Peter K. Manning, 2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing Democratic Policing in a Changing World documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased social

inequalities He offers a new and better approach for scholars policy makers police governments and societies
