Policing Cinema Lee Grieveson, 2004-05-24 Publisher Description Monitoring the Movies Jennifer Fronc, 2017-11-15

As movies took the country by storm in the early twentieth century Americans argued fiercely about whether municipal or state authorities should step in to control what people could watch when they went to movie theaters which seemed to be springing up on every corner Many who opposed the governmental regulation of film conceded that some entity boards populated by trusted civic leaders for example needed to safeguard the public good The National Board of Review of Motion Pictures NB a civic group founded in New York City in 1909 emerged as a national cultural chaperon well suited to protect this emerging form of expression from state incursions Using the National Board's extensive files Monitoring the Movies offers the first full length study of the NB and its campaign against motion picture censorship Jennifer Fronc traces the NB's Progressive era founding in New York its evolving set of standards for directors producers municipal officers and citizens its city plan which called on citizens to report screenings of condemned movies to local officials and the spread of the NB's influence into the urban South Ultimately Monitoring the Movies shows how Americans grappled with the issues that arose alongside the powerful new medium of film the extent of the right to produce and consume images and the proper scope of government control over what citizens can see and show *Spanish National Cinema* Nuria Triana-Toribio, 2012-11-12 This study examines the discourses of nationalism as they intersected or clashed with Spanish film production from its inception to the present While the book addresses the discourses around filmmakers such as Almodóvar and Medem whose work has achieved international recognition *Spanish National Cinema* is particularly novel in its treatment of a whole range of popular cinema rarely touched on in studies of Spanish cinema Using accounts of films popular film magazines and documents not readily available to an English speaking audience as well as case studies focusing on the key issues of each epoch this volume illuminates the complex and changing relationship between cinema and Spanish national identity Controversial Cinema Kendall R. Phillips, 2008-06-30 At the heart of any history of controversial films is a strange paradox while films especially popular and mainstream films are often portrayed as meaningless products of popular culture those popular films involved in public controversies become the focal point of enormous cultural energy political attention and profoundly conflicting sets of principles The ongoing culture wars continue to shape the American political landscape and controversial films continue to be a major point of conflict Controversial Cinema The Films that Outraged America traces the history of controversial films and offers insights into why it is that certain films spark controversies and how Americans typically react to controversial moviemaking Since the widespread banning of DW Griffith's *The Birth of a Nation* the American film industry has found itself embroiled in one political controversy after another These controversies have centered on everything from the portrayal of the past as in Griffith's film to depictions of sex and sexuality to the use of graphic violence and issues of race religion and politics In turn segments of the American public have been driven to boycott picket and even censor those films they felt

challenged their sense of decency At the heart of this history of controversial films is a strange paradox while films especially popular and mainstream films are often portrayed as meaningless products of popular culture popular films involved in public controversies become the focal point of enormous cultural energy and political attention The ongoing culture wars thus continue to shape the American political landscape and controversial films continue to be a major point of conflict In the course of this wide ranging work Kendall Phillips offers insights into the kinds of films that spark controversies and the ways that Americans typically react to them Organized around broad controversial themes and with particular attention to mainstream films since the dissolution of the Motion Picture Production Code in the mid 1960s *Controversial Cinema* explores why films spark broad cultural controversies how these controversies play out and the long term results The four broad areas of controversy examined in the work are Sex and Sexuality Violence Race and Religion Each chapter offers a broad overview of the history of these topics in controversial American films as well as more in depth examinations of recent examples including *The Silence of the Lambs* *Natural Born Killers* *Do the Right Thing* and *The Passion of the Christ* A final section of the book considers the broader issues of cultural politics in light of the long history of controversial cinema

Fear City Cinema Roger A. Salerno, 2022-04-20 This book studies a grouping of films set in New York City between 1965 and 1995 reflecting a town besieged by rampant criminality social distress and physical decay *Fear City* is a term the NYPD used to label New York as a frightening environment incapable of securing the safety of its residents This book not only deals with the social problems evident in New York during this period but also provides a study of how independent filmmakers were able to capture unsettling urban imagery capitalizing on feelings of paranoia and dread The author explores how the tone of these films reflects upon the anti urbanism that led to the War on Crime the mass exodus of working class people from the city and mass incarceration of young Black men

The Indecent Screen Cynthia Chris, 2019-01-07 *The Indecent Screen* explores clashes over indecency in broadcast television among U S based media advocates television professionals the Federal Communications Commission and TV audiences Cynthia Chris focuses on the decency debates during an approximately twenty year period since the Telecommunications Act of 1996 which in many ways restructured the media environment Simultaneously ever increasing channel capacity new forms of distribution and time shifting in the form of streaming and on demand viewing options radically changed how when and what we watch But instead of these innovations quelling concerns that TV networks were too often transmitting indecent material that was accessible to children complaints about indecency skyrocketed soon after the turn of the century Chris demonstrates that these clashes are significant battles over the role of family the role of government and the value of free speech in our lives arguing that an uncensored media is so imperative to the public good that we can and must endure the occasional indecent screen

Cinema and Community Moya Luckett, 2013-07-12 Investigates how progressivism structured many aspects of understudied era of cinema Caught between the older model of short film and the emerging classic era the transitional period of American cinema 1907-1917 has typically posed a problem for studies of early American film Yet in *Cinema and Community: Progressivism, Exhibition, and Film Culture in Chicago, 1907-1917* author Moya Luckett uses the era's dominant political ideology as a lens to better understand its cinematic practice Luckett argues that movies were a typically Progressive institution reflecting the period's investment in leisure its more public lifestyle and its fascination with celebrity She uses Chicago often considered the nation's most Progressive city and home to the nation's largest film audience by 1907 to explore how Progressivism shaped and influenced the address, reception, exhibition, representational strategies, regulation, and cultural status of early cinema After a survey of Progressivism's general influences on popular culture and the film industry in particular she examines the era's spectatorship theories in chapter 1 and then the formal characteristics of the early feature film including the use of prologues, multiple diegesis, and oversight in chapter 2 In chapter 3 Luckett explores the period's cinema in the light of its celebrity culture while she examines exhibition in chapter 4 She also looks at the formation of Chicago's censorship board in November 1907 in the context of efforts by city government, social reformers, and the local press to establish community standards for cinema in chapter 5 She completes the volume by exploring race and cinema in chapter 6 and national identity and community this time in relation to World War I in chapter 7 As well as offering a history of an underexplored area of film history Luckett provides a conceptual framework to help navigate some of the period's key issues Film scholars interested in the early years of American cinema will appreciate this insightful study
