Policy Design And Price Reform In Developing Countries Guidelines With Special Reference To Industry:

Policy Design and Price Reform in Developing Countries John Cody, Richard L. Kitchen, John Weiss, 1990-01-01

Handbook of Public Policy B Guy Peters, Jon Pierre, 2006-07-20 The new handbook by Peters and Pierre provides an invaluable addition to the literature. It offers new scholars and practitioners a means to navigate many of the complex theoretical and practical issues in contemporary policy analysis. Mark Considine, University of Melbourne. The public policies of governments affect the lives and livelihoods of citizens every day in every country around the world. This handbook provides a comprehensive review and guide to the study, theory and practice of public policy today. Section One, Making Policy, introduces the policy making process, the means by which public policies are formulated, adopted and implemented, and serves to review the many competing conceptualizations within the field. Section Two, Substantive Policy Areas, focuses on a number of substantive policy areas to consider both diversity and commonalities across different sectoral policy areas. Section Three, Evaluating Public Policy, addresses issues of policy analysis more directly and assesses successes and failures in public policy in an attempt to answer the question, what is good policy? The concluding chapter considers the different disciplinary contributions to the research and study of public policy, both retrospectively and prospectively. Drawing contributions from leading academics and policy analysts from around the world, the handbook illustrates the changing role of governments vis-à-vis the public and private sector and the different policy actors, national and international, governmental and non-governmental, involved in the policy making process. It will be an essential companion for all advanced undergraduates, graduates, academics and practitioners across public policy and public administration, public management, government and political science.

The Industrial Experience of Tanzania A. Szirmai, P. Lapperre, 2001-08-14 The central aim of *The Industrial Experience of Tanzania* is to explain why the Tanzanian manufacturing sector experienced a long period of stagnation after an initial phase of rapid industrial growth. Tanzania has been an extreme case with a high level of state intervention, but the contributors show that there are lessons to be learnt here for African economies in general. The analysis includes previously unpublished data and presents important conceptual and methodological advances.

DAC Guidelines and Reference Series: Environmental Fiscal Reform for Poverty Reduction OECD, 2005-06-09 This DAC Reference Paper outlines key issues faced when designing Environmental Fiscal Reform (EFR). EFR refers to a range of taxation and pricing measures which can raise fiscal revenues while furthering environmental goals.
