Political And Social Life In The Great Age Of Athens:

Political and Social Life in the Great Age of Athens John Ferguson, Kitty Chisholm, 1978-01-01 *Political and Social Life in the Great Age of Athens* Kitty Chisholm, 1987 **Daily Life of the Ancient Greeks** Robert Garland, 1998-08-27 Ancient Greece comes alive in this recreation of the daily lives of ordinary people men and women children and the elderly slaves and foreigners rich and poor Taking account of the most up to date discoveries the author provides a wealth of information on such varied facets of Greek life as food and drink dress housing literacy juvenile delinquency the plight of the elderly the treatment of slaves and much more Readers can gain an in depth understanding of what it was like to live in one of the greatest eras of human history Garland provides answers to such questions as What were the Ancient Greeks attitudes toward foreigners What was their life expectancy How were women treated Passages from ancient authors enhance the text of this indispensable reference work **Edinburgh Companion to Ancient Greece and Rome** Edward Bispham, 2006-07-24 The Edinburgh Companion newly available in paperback is a gateway to the fascinating worlds of ancient Greece and Rome Wide ranging in its approach it demonstrates the multifaceted nature of classical civilisation and enables readers to gain guidance in drawing together the perspectives and methods of different disciplines from philosophy to history from poetry to archaeology from art history to numismatics and many more **A History of the Laws of War: Volume 2** Alexander Gillespie, 2011-10-07 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and ascribing rules to them protecting civilians who are either inadvertently or intentionally caught up between them and controlling the use of particular classes of weapons that may be used in times of conflict Thus it is that this work is divided into three substantial parts Volume 1 on the laws affecting combatants and captives Volume 2 on civilians and Volume 3 on the law of arms control This second book on civilians examines four different topics The first topic deals with the targetting of civilians in times of war This discussion is one which has been largely governed by the developments of technologies which have allowed projectiles to be discharged over ever greater areas and attempts to prevent their indiscriminate utilisation have struggled to keep pace The second topic concerns the destruction of the natural environment with particular regard to the utilisation of starvation as a method of warfare and unlike the first topic this one has rarely changed over thousands of years although contemporary practices are beginning to represent a clear break from tradition The third topic is concerned with the long standing problems of civilians under the occupation of opposing military forces where the practices of genocide collective punishments and or reprisals and rape have occurred The final topic in this volume is about the theft or destruction of the property of the enemy in terms of either pillage

or the intentional devastation of the cultural property of the opposition As a work of reference this set of three books is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

The Market and the Oikos, Vol. II Hans Derks, 2022-03-21 Both Karl Marx and Max Weber inspired the writing of the two volumes of *The Market and the Oikos* Weber coined a market versus oikos contradiction in which oikos not only means house household or family but later also the state while Marx saw a town versus country antagonism Both scholars however explained insufficiently these most complicated concepts let alone some mutual relationships This second volume *The Market and the Oikos Vol II The Peasant and the Nomad in History* continues the analysis of their antagonisms in their mutual relationships by providing the main practical characteristics in different historical economic and sociological contexts based on the writing of Max Weber as explained in Vol I While the first volume tried to characterize the relationships from economic and historical points of view this second volume takes a historical sociological angle In both volumes Hans Derks argument proceeds from early world historical examples to the present context of contemporary China stressing the highly neglected role of nomads in history

Ancient Greece and Rome Keith Hopwood, 1995 Sir Thomas Fairfax not Oliver Cromwell was creator and commander of Parliament's New Model Army from 1645 to 1650 Although Fairfax emerged as England's most successful commander of the 1640s this book challenges the orthodoxy that he was purely a military figure showing how he was not apolitical or disinterested in politics The book combines narrative and thematic approaches to explore the wider issues of popular allegiance puritan religion concepts of honour image reputation memory gender literature and Fairfax's relationship with Cromwell *Black Tom* delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading yet most neglected participants It is the first modern academic study of Fairfax making it essential reading for university students as well as historians of the seventeenth century Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally

The Causes of War Alexander Gillespie, 2013-10-16 This is the first volume of a projected four volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slayed each other In departing from the various theories put forward by historians anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications for the first four thousand years of human civilisation for which written records exist

The Classical Greeks Michael Grant, 2011-12-30 The story of the Athenian Golden Age by one of the world's pre eminent classical historians The Golden Age of ancient Greek city state civilization lasted from 490 to 336 BC the period

between the first wars against Persia and Carthage and the accession of Alexander the Great Never has there been such a multiplication of talents and genius within so limited a period and Michael Grant captures this astonishing civilization at the height of its powers **Clash of Democracies and Autocracies Can Democracies Be Saved?** Ben

Zechariyah,2024-08-13 This is a short history of evolution of governance focused on the American and Swiss democracies Plato in his dialogues argued that by investigating what is behind the idea of democracy we may find its true form and function And thus by discovering its true form and function we could know how best democracy could become a well functioning reality By such inquiry the author tries to discover what was the vision of American forefathers for the American democracy when the American people were incorporated as one indivisible nation under God defined by the United States Constitution in 1787 Today the clash of democracies and autocracies is being played out in Ukraine as its bloodbath being watched daily around the world This must be stopped by every means available and by every person who prefers democracy The pen after all was victorious against the most powerful empire of its day Why would it not work again in twenty first century s lightning speed of the enlightening Digital Age
