Political Bargaining Theory Practice And Process:

Political Bargaining Gideon Doron, Itai Sened, 2001-03-28 This book brings an exciting and innovative new approach to the study of politics today It introduces political bargaining a process at the heart of all political and economic exchanges in contemporary society and the very essence of politics itself to provide a new framework and fresh insights to modern political science The authors trace the prevalence of bargaining processes in politics from the abstract level of individual human interaction and the state of nature to the more concrete political or institutionalized level They introduce students to theory the basic models of game theory rational choice theory and positivist approaches practice the practical manifestations of political b

Political Bargaining Gideon Doron, Itai Sened, 2001-03-27 This book brings an exciting and innovative new approach to the study of politics today It introduces political bargaining a process at the heart of all political and economic exchanges in contemporary society and the very essence of politics itself to provide a new framework and fresh insights to modern political science The authors trace the prevalence of bargaining processes in politics from the abstract level of individual human interaction and the state of nature to the more concrete political or institutionalized level They introduce students to theory the basic models of game theory rational choice theory and positivist approaches practice the practical manifestations of political bargaining in everyday national and international political life and process its setting the interests of the players involved the conditions and properties that affect their calculations and consequently their ability to obtain desired outcomes Political Bargaining provides students with the basic tools for learning about and participating in politics today by richly illustrating how the authoritative allocation of scarce resources is arrived at through a complex bargaining process between competing interests in society It will be essential reading for student and lecturer alike across political science and the social sciences more widely

Federalism and the Tug of War Within Professor Erin Ryan, 2011-11-25 Federalism and the Tug of War Within explores how constitutional interpreters reconcile the competing values that underpin American federalism with real consequences for governance that require local and national collaboration Drawing examples from Hurricane Katrina climate governance health care reform and other problems of local and national authority author Erin Ryan demonstrates how the Supreme Court's federalism jurisprudence can inhibit effective inter jurisdictional governance by failing to navigate the tensions within federalism itself The Constitution's dual sovereignty directive fosters an ideal set of good governance values including checks and balances accountability local autonomy and local and national synergy that are nevertheless in constant competition This inherent tug of war is responsible for the epic instability in the Court's federalism jurisprudence but it is poorly understood With new conceptual vocabulary to wrestle with old dilemmas Ryan traces the development of federalism's tug of war and proposes innovations to manage judicial legislative and executive efforts with more focus Her analysis clarifies how the tug of war is already mediated through balancing compromise and negotiation She proposes a Balanced Federalism model that mediates tensions on three separate planes fostering balance

among competing federalism values leveraging the functional capacities of the three branches in interpreting federalism and maximizing the wisdom of both state and federal actors in so doing The new framework better harmonizes values that though in tension have made the American system of government so effective and enduring

Political Transformations and Political Entrepreneurs A. Meydani, 2009-11-23 This book presents a theoretical framework based on the empirical context of the Israeli political system to evaluate under what conditions and in what ways can fundamental institutional changes occur in a democratic political system

Lyndon B. Johnson and the Politics of Arms Sales to Israel Abraham Ben-Zvi, 2004 This book seeks to reconstruct and elucidate the processes behind the decisions made by the Johnson Administration during the years 1965-68 to sell Israel M 48 tanks A 4 Skyhawk planes and F 4 Phantom planes

'Civilizing' Resource Investments and Extractivism Wolfram Laube, Aline R. B. Pereira, 2021-11-15 Attempts to civilize the exploitation of natural and mineral resources are globally promoted The body of rules and regulations often the outcome of prolonged socio environmental and political struggles is impressive However the outcomes of their implementation are much less convincing The chapters in this book show how international law is curtailing national and local regulation while existing legislation is often watered down circumvented or reinterpreted with severe environmental health and socio economic impacts particularly in the global south

The Changing Policy-Making Process in Greater China Bennis Wai Yip So, Yuang-kuang Kao, 2014-04-24 This book explores how the policy making process is changing in the very volatile conditions of present day mainland China Taiwan and Hong Kong It considers the overall background conditions the need to rebalance in mainland China after years of hectic economic growth governance transition and democratic consolidation in Taiwan and governance crisis in Hong Kong under a regime of uncertain legitimacy It examines the various actors in the policy making process the civic engagement of ordinary people and the roles of legislators mass media and bureaucracy and discusses how these actors interact in a range of different policy cases Throughout the book contrasts the different approaches in the three different jurisdictions and assesses how the policy making process is changing and how it is likely to change further

The Encyclopedia of Public Choice Charles Rowley, Friedrich Schneider, 2008-01-25 The Encyclopedia provides a detailed and comprehensive account of the subject known as public choice However the title would not convey sufficiently the breadth of the Encyclopedia's contents which can be summarized better as the fruitful interchange of economics political science and moral philosophy on the basis of an image of man as a purposive and responsible actor who pursues his own objectives as efficiently as possible This fruitful interchange between the fields outlined above existed during the late eighteenth century during the brief period of the Scottish Enlightenment when such great scholars as David Hume Adam Ferguson and Adam Smith contributed to all these fields and more However as intellectual specialization gradually replaced broad based scholarship from the nineteenth century onwards it became increasingly rare to find a scholar making major contributions to more than one Once Alfred Marshall defined economics in neoclassical terms as a

row positive discipline the link between economics political science and moral philosophy was all but severed and economists redefined their role into that of the humble dentist providing technical economic information as inputs to improve the performance of impartial benevolent and omniscient governments in their attempts to promote the public interest This indeed was the dominant view within an economics profession that had become besotted by the economics of John Maynard Keynes and Paul Samuelson immediately following the end of the Second World War **Institutions, Property Rights, and Economic Growth** Sebastian Galiani, Itai Sened, 2014-04-17 This volume showcases the impact of the work of Douglass North father of the field of new institutional economics *Patterns of Parliamentary Behavior* Herbert Döring, 2017-03-02 This volume begins where the first D ring book of 1995 finished by considering what effects the rules had on legislative output during the same period It addresses four distinct yet complementary research topics the connection between a number of veto players and law production in West European parliamentary democracies the impact of closed versus open rules the effects of committee structure and organization on the degree of conflict or consensus on the procedure of passing legislation the importance of agenda setting and agenda control for the prevention of cycling across issues and the distribution of particular benefits of shifting and transient majorities Fundamental to this volume is the ability of the project group to fashion an original data set As a consequence this volume is able to ascertain the extent to which parliamentary procedures contributed to shaping policy output in this field during the 1980s
