Political Cognition The 19th Annual Carnegie Mellon Symposium On Cognition:

Political Cognition Richard R. Lau, David O. Sears, 1986 *The Oxford Handbook of Political Psychology* Leonie Huddy, David O. Sears, Jack S. Levy, Jennifer Jerit, 2023 This updated third edition gathers together an international group of distinguished scholars to provide an up to date account of key topics and areas of research in political psychology Focusing first on political psychology at the individual level attitudes values decision making ideology personality and then moving to the collective group identity mass mobilization political violence this fully interdisciplinary volume covers models of the mass public and political elites and addresses both domestic issues and foreign policy Now with new chapters on authoritarianism nationalism status hierarchies and minority political identities along with updated material this is an essential reference for scholars and students interested in the intersection of the two fields *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **Bonding, Bridging, and Bypassing** Colm A. Fox, 2024 Societal divisions and even violence can occur when electoral candidates appeal to race religion or tribe Why do candidates make these ethnic appeals More specifically why do some candidates appeal to their own ethnic group while others reach out to other ethnic groups or abandon ethnic appeals altogether To answer this question Colm A Fox adopted a ground breaking novel approach to study campaign appeals made by thousands of candidates He collected and systematically analyzed photographs of over 25 000 election posters from campaigns across Indonesia along with newspaper reports and interview data The book shows how electoral rules political party ideology ethnic demographics and social norms shape candidates decisions to bond with co ethnics bridge across other ethnic groups or bypass ethnicity entirely Its findings yield not only insights as to which ethnic identities are likely to become politicized but also prescriptions on how to curb divisive ethnic politics *Current Catalog* National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Everyday Thinking** Stanley Woll, 2001-07-01 Appropriate as a textbook for courses in cognitive psychology or social cognition Everyday Thinking reviews the rapidly growing literature on cognition in naturalistic settings It differs from other textbooks in that where possible it focuses on thinking in real world settings rather than in controlled laboratory settings and provides detailed treatments of each of the following topics how we form impressions of and represent persons in memory how we recognize and represent faces how we reason in our day to day lives and go about solving everyday problems how we make judgments and decisions how we encode memories of events both for future action and for our own life histories and what are some of the implications of everyday knowledge and cognition for education and instruction This book presents the theoretical positions and research evidence on each of these topics and examines the generally unexplored connections among them As a result this book presents the study of cognition in a more relevant form and in a context that readers can more readily apply to their own lives **Index of Conference Proceedings Received** British Library. Document Supply Centre, 1986 *Eliminating Racism* Phyllis A. Katz, Dalmás A. Taylor, 2013-06-29 The chapters presented here provide the reader with an awareness of

the divergent views of what constitutes racism and frameworks for reducing it This book points out that the dialogue and research on this subject since the mid 1970s have yielded increased controversy over the theories foundation and continued existence of racism Ironically what we viewed in the 1954 Brown decision and the Civil Rights Act of 1964 as the beginning of the end of racism turned out to be the beginning of confusion over the course of action to ensure societal acceptance of political mandates Hence the title of this book captures the essence of the emotional core of any forum for examining racism past and present One of the most controversial forums has been that of education beginning with the U S Supreme Court s 1954 ruling in Brown v Board of Education Behind every event that has spawned controversy is a profile in courage It was not a simple decision for the players in the scenario of the Brown v Board of Education case to step forward and present themselves as evidence of discrimination Black parents supported by black organizations viewed this legal action as a chance for equal opportunity Yet the 1950s were a time when black communities were pained by the thought that bigotry and institutional racism would forever stand in the way of their achieving equality Annual Review of Political Science ,1987

Gender Consciousness and Politics Sue Tolleson Rinehart, 2013-10-31 This book examines the emergence of gender consciousness among women as a significant force in American politics The author bases her argument on an in depth empirical analysis of data derived from the U S biennial National Election studies of 1974 to 1984 the year of the emergence of the so called gender gap The author discusses the fact that while feminism is central to women s political orientation the simple awareness of gender differences and group consciousness is a powerful force of change
