Privatizing Poland Elizabeth Cullen Dunn,2015-09-25 The transition from socialism in Eastern Europe is not an isolated event but part of a larger shift in world capitalism the transition from Fordism to flexible or neoliberal capitalism Using a blend of ethnography and economic geography Elizabeth C Dunn shows how management technologies like niche marketing accounting audit and standardization make up flexible capitalism s unique form of labor discipline This new form of management constitutes some workers as self auditing self regulating actors who are disembedded from a social context while defining others as too entwined in social relations and unable to self manage Privatizing Poland examines the effects privatization has on workers self concepts how changes in personhood relate to economic and political transitions and how globalization and foreign capital investment affect Eastern Europe s integration into the world economy Dunn investigates these topics through a study of workers and changing management techniques at the Alima Gerber factory in Rzesz w Poland formerly a state owned enterprise which was privatized by the Gerber Products Company of Fremont Michigan Alima Gerber instituted rigid quality control job evaluation and training methods and developed sophisticated distribution techniques The core principle underlying these goals and strategies the author finds is the belief that in order to produce goods for a capitalist market workers for a capitalist enterprise must also be produced Working side by side with Alima Gerber employees Dunn saw firsthand how the new techniques attempted to change not only the organization of production but also the workers identities Her seamless engaging narrative shows how the employees resisted redefined and negotiated work processes for themselves

How Governments Privatize Mark Cassell,2003-08-01 Governments throughout the world confront enormous challenges when divesting Whether it is poor performing bank loans in Japan and

Korea military bases in the United States or real estate in eastern Europe the challenge of public divestment is more than just a question of how to map a path to economic efficiency Conventional wisdom in public management and privatization literature says that the execution of such enormous tasks as divestment is typically done poorly and that the government strategy is likely to be inefficient Mark Cassell argues that privatization must be understood as a political and administrative puzzle rather than simply an exercise in economic efficiency This study of two successful divestment agencies the U S Resolution Trust Corporation and the German Treuhandanstalt presents a complex understanding of the two agencies performance in privatizing hundreds of billions of dollars of assets following two very different crises the savings and loan debacle in the United States and unification in Germany In the U S the worst economic problem since the Great Depression forced the government to recreate and reshape private property on an immense scale In Germany melding East and West Germany involved converting an entire national economy that employed more than four million people In each case unassuming public agencies handled two of the largest public sales of assets in this century Cassell identifies the importance and effects of managerial structures and of national institutions legislatures and executives on the outcomes of the reform efforts This book will be of interest to those interested in alternatives to traditional public sector structures electoral connections to bureaucracies comparative political economy and the historic events of the aftermath of the savings and loan crisis and German unification It is crucial reading for policy and public administration practitioners and scholars alike

Learning, Policy Making, and Market Reforms Covadonga Meseguer Yebra,2009-03-30 In the 1980s and 1990s market reforms swept the world It is widely believed that the reformist wave can be partly explained in terms of the lessons learned from policy failures of the past Whereas this interpretation of events is well established it has never been empirically proved Learning and Market Reforms is the first study that tests the impact of policy learning on economic policy choices across time and space The study supports the popular explanation that on average governments around the world adopted privatization and trade liberalization and sustained open capital accounts as a result of learning from the experience of others

Management for Privatization International Labour Office,1995 This work traces the impact of privatization of state owned enterprises on management practices and strategies It covers methods of privatization and the barriers faced by managers includes case studies of industry and public services in industrialized developing and former socialist countries and identifies training needs It aims to build management development capacity and to prepare managers for the challenges of privatization and a new competitive environment The book is divided into four parts Part One covers the reasons for and main methods of privatization the environmental The Politics of Telecommunications In Mexico J. Clifton,2015-12-22 This

text argues that instead of leading toward greater democratization Mexico's policies of privatization in the 1980s were used for personal benefit and to lubricate the existing state labour relationship. It builds its case around the privatization of Mexico's telecommunications. *Review Essays in Israel Studies* Laura Zittrain Eisenberg, Neil Caplan, 2000-01-06 Introduces the cutting edge issues and current scholarship in the interdisciplinary field of Israel Studies
