Eric Louw, 2005-05-20 The Media and Political Process examines the increasingly topical subject of the political process and assesses The nature of the relationship between mass media and the political process The impact of media ization on existing political frameworks The implications of media ized politics Eric Louw uses a number of case studies including political celebrity war and terrorism to provide a media studies perspective on how media workers journalists public affairs officers spin doctors impact upon the political process The book also considers the media's role in promoting a range of twentieth century ideologies and emerging dominant discourses The Oxford Handbook of Politics and Performance Shirin M. Rai, Milija Gluhovic, Silvija Jestrovic, Michael Saward, 2021-02-19 Political scientists and political theorists have long been interested in social and political performance Theatre and performance researchers have often focused on the political dimensions of the live arts Yet the interdisciplinary nature of this labor has typically been assumed rather than rigorously explored Further it is crucial to bring the concepts of theatre and performance deployed by other disciplines such as psychology law political anthropology sociology among others into a wider as well as deeper interdisciplinary engagement Embodying and fostering that engagement is at the heart of this new handbook The Handbook brings together leading scholars in the fields of Politics and Performance to map out the evolving interdisciplinary engagement The authors drawn from a wide range of disciplines investigate the relationship between politics and performance to show that certain features of political transactions shared by performances are fundamental to both disciplines and that they also share to a large extent a common communicational base and language The volume is organized into seven thematic sections the interdisciplinary theory of politics and performance performativity and theatricality protest regulation resistance change authority identities race gender sexuality class citizenship indigeneity sites states borders markets law religion scripts accountability authority and legitimacy security

ceremony sustainability body voice and gesture representation leadership participation rhetoric disruption and affect media care love empathy comedy populism memory **How Political Actors Use the Media** Peter Van Aelst,Stefaan

Walgrave,2017-10-04 This book investigates how individual politicians and political parties strategically make use of the media to reach their political goals Looking beyond a purely Americentric viewpoint the chapters present data from more than ten Western democracies to argue that the media are both a source of information and an arena for political communication This double functional role of the media is examined from both a theoretical and an empirical perspective including chapters dealing with different aspects of politics from campaigning to law making and within different political contexts The role of the news media is discussed from the perspective of the political actor focusing on both the opportunities and the constraints the news media provide resulting in a multidisciplinary text that will appeal to students and scholars of both communication and political science **Performance: A Critical Introduction** Marvin Carlson,2013-12-16 This book

provides an overview of the modern concept of performance and its development in various related fields including the development of performance art since the 1960s the relationship between performance postmodernism the politics of identity and current cultural studies and the recent theoretical developments in the study of performance in the fields of anthropology psychoanalysis linguistics and technology Stage for Action Chrystyna Dail,2016-11-09 Drawing on

underexplored and only recently available archives author Chrystyna Dail examines the influence of Stage for Action a theatre group founded in 1943 on social activist theatre in the 1940s early 1950s and beyond The group embraced subjects not taken up by earlier activist theatre companies advocating for the rights of Puerto Ricans calling attention to the lack of child care for working mothers and demanding the cessation of all nuclear warfare Exploring the intersection between performance and politics and the direct impact of the arts on social activism Dail argues Stage for Action is a theatrical reflection of progressivism and the pro working class theatrical aesthetic of the 1940s The theatre group which used performance to encourage direct action and personal responsibility for change eventually would function as the theatrical voice of the United States Progressive Party in the failed presidential campaign of former vice president Henry A Wallace Calling into question the widely held belief that U S theatre in the early years of the Cold War was indifferent to activism Stage for Action offers historians a new interpretation of social activist performance at midcentury *Non-State Violent*

Actors and Social Movement Organizations Julie M. Mazzei,2017-04-26 This volume focusses on non state actors and political conflicts but also attends to the broader themes of the series The research emphasizes the roles and motivations of non state actors in conflicts or post conflict situations in the post Cold War era as well outlining the dynamics of social movements conflicts or change Performance, [performance] and Performers Bruce Barber,2007 Performance Performance

Performers consists of two volumes Volume 2 contains nine essays on performance art written over a thirty year period from 1976 to 2006 while Volume 1 contains fourteen interviews with leading performance artists in Canada and the U S

conducted over the same period and is generously illustrated with photographs of many now landmark art performances

Perception of Grass Root Democracy and Political Performance G. Palanithurai, 1998 Grass root democracy is a fascinating concept at present and is very often used nowadays The functioning of the grassroot democracy largely depends on the congruence of the perception of policy makers at the top of the system and the beneficiaries at the bottom of the subject matter If the leaders at the grass root level understand the spirit of the decentralisation of power in the backdrop of the context the realization of the objectives of the devolution of power will be easier
