Political Powerlessness Agricultural Workers In Post War England:

Political Powerlessness Renée Danziger,1988 *William Cobbett and Rural Popular Culture* Ian Dyck,1992-04-02 The first major study of the rural and cultural career of William Cobbett engages Cobbett's own writings and other innovative sources such as popular songs to tie Cobbett's radical politics to rural society *A History of British Trade Unionism* Henry Pelling,2016-07-27 The current debate about industrial relations cannot be understood without a knowledge of trade union history Dr Pelling's book which has for several years been a standard work on the subject has again been revised and updated to take account of recent research and to explain the course of events up to the Thatcher years the miner's strike and the Employment Acts The growth of white collar unionism and the extension of women's rights are dealt with in the concluding chapters **Labour Regime Change in the Twenty-First Century** Tom Brass,2011-09-09 Historical debates about capitalism unfreedom and primitive accumulation suggest Marxism accepts that where class struggle is global capitalists employ unfree workers Labour power as commodity means the free unfree distinction informs the process of becoming being remaining and acting as a proletariat *A Contrived Countryside* Keith Hoggart,2021-03-26 This book shows how governance regimes before the 1970s suppressed rural prospects of housing improvement and created conditions for middle class capture Using original archival sources to reveal the intricacies of local and national policy processes weak rural housing performances are shown to owe more to national governance regimes than local under performance Looking behind the scenes at policy processes highlights neglected principles in national governance and shows how investigating rural housing is fundamental to understanding the national scene With original insights and a new analytical perspective this volume offers evidence and conclusions that challenge mainstream assumptions in public policy housing rural studies and planning *English Farmworkers and Local Patriotism, 1900-1930* Nicholas Mansfield,2017-03-02 This new study looks at the ways in which the years surrounding the First World War shaped the lives of the rural workforce in Britain and how the patriotism unleashed by the war was used by those in power to blur class divisions and build conservative attitudes in rural communities Using the area of Shropshire and the Marches as a focus the book looks at farmworkers and their trade unions the structures of agrarian economy class divisions local loyalties cultural institutions and political organisations From 1917 the growing power of the farmworkers unions and the rural labour movement mounted a challenge to the landed elites and sought a radical change from rural poverty The author shows how the elites met this threat dynamically by creating a range of new village institutions such as ploughing matches Women's Institutes village halls war memorials and the British Legion The extraordinary growth of rural radicalism at the end of the war was diffused by popular conservatism and local patriotism Influenced by wartime experiences the period 1900-1930 saw a change in rural society from parochial concerns to a new sense of loyalty to county and to the English nation **Perceptions of Self, Power, & Gender Among Muslim Women** Sarwar Alam,2018-02-15 This book analyzes perceptions of self power agency and gender of Muslim women in a rural

community of Bangladesh Rural women's limited power and agency has been subsumed within the male dominated Islamic discourses on gender. However many Muslim women have their own alternative discourses surrounding power and agency. Sarwar Alam intertwines an exploration of these power dynamics with reading of the Qur'an and Hadith and analyzes how Muslim women's perception of power and gender are linked to their relationship with religion. **Power** Steven Lukes, 2017-03-16 The second edition of this seminal work includes the original text first published in 1974 alongside two major new chapters. **Power A Radical View** assesses the main debates about how to conceptualize and study power including the influential contributions of Michel Foucault. **Power Revisited** reconsiders Steven Lukes' own views in light of these debates and of criticisms of his original argument. With a new introduction and bibliographical essay this book has consolidated its reputation as a classic work and a major reference point within Social and Political Theory. It can be used on modules across the Social and Political Sciences dealing with the concept of power and its manifestation in the world. It is also essential reading for all undergraduate and postgraduates interested in the history of Social and Political Thought. New to this Edition An additional introduction explaining the context of the first edition of **Power A Radical View**. Two new chapters defending Lukes' original argument and assessing the main debates about power since. A detailed guide to further reading on essential concepts and key thinkers. **Can Class Still Unite?** Guy Van Gyes, Hans De Witte, Patrick Pasture, 2018-10-24 This title was first published in 2001. This detailed study of European trade unions also addresses academic concerns about the continuing relevance of the class concept as an analytical tool. As a social movement the trade union has always used the class principal to unite and defend workers and the diverse contributions to this volume enable the more accurate positioning of class discourse within both the debate about trade unions and wider sociological inquiry. **The Force of Irony** Gabriel Torres, 2020-08-25 Winner of the Casa Chata Award for the Best Book of 1994 Spanish edition. In charting the paradoxical effects of power and knowledge on the everyday life of subordinate people this book offers a major rethinking of domination and the agricultural labor process. Challenging the belief that ethnography is theoretically weak the author provides a fresh perspective on rural workers' responses to the development of transnational production systems and the transformations of agrarian structures brought about by the complex interactions of global and local forces. In questioning ingrained assumptions about worker consciousness the author exposes the naivete of past approaches and the role of power and hegemony in the micro politics of human relations. This book is obligatory reading for anyone interested in current debates about resistance development and the future of rural societies.
