Abstract

The *International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families* (ICMW) was adopted in 1990 by the United Nations, but has been ratified by 51 States only, and by no major Western migration-receiving State. This article outlines two interpretations of this low ratification record. On the one hand, it can be understood as puzzling because Western liberal democracies support human rights and because the ICMW does not call for new rights that would not already exist in domestic law or in other international human rights instruments. On the other hand, it can be understood as logical because, from a cost-benefit perspective, the rights of migrants are difficult to reconcile with market logics in destination countries and because there are structural economic forces that make it difficult to reach multilateral agreements on migrant workers' rights. This article further argues that these legal and socio-economic arguments do not exhaust the issue and that the current situation of the ICMW is to a large extent the product of political factors, particularly of the lack of political support for migrants' rights at the international and national levels.

I. Introduction

Adopted in 1990 by the United Nations (UN) General Assembly, the *International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families* (ICMW)¹ remains one of the most neglected treaties in international human rights law. It is presented, by the Office of the UN High Commissioner for Human Rights, as one of the 'core international human rights treaties', which include better-known conventions, such as the 1966 Covenants,² the 1989 *Convention on the Rights of the Child*³ and the 1979 *Convention on the Elimination of All Forms of Discrimination against Women*.⁴ Yet, compared to these treaties, the ICMW is under-ratified: at the time of writing (June 2017) only 51 States have ratified it and, most notably, no important Western destination country has done so. Therefore, it is arguable that the ICMW has so far struggled to achieve what it was meant to do, namely increase the protection of migrant workers' rights by establishing widely-accepted standards in this subfield of human rights law.

This article argues that this situation can be interpreted as both puzzling and logical. It is puzzling because Western liberal democracies traditionally support human
