

Political Campaigning

David A. Jones

Political Campaigning:

Political Campaigning in the U.S. David A. Jones, 2020-02-17 Political Campaigning in the U S Managing the Chaos provides students with the latest insights into modern election campaign practices It is premised on the idea that all Americans should understand how campaigns operate how they collect information about voters how they attempt to change what voters think about the candidates and how they encourage voters to act in certain ways An electoral campaign is a chaotic short term operation that must adapt to a complicated political landscape as well as deep seeded psychological forces outside of its control The ads they air the media they manage the data they gather the doors on which they knock the phone calls they make the posts they share all of these efforts can make small but measurable differences Jones introduces students to the strategies and tools that campaigns employ in their attempt to win elections It also uses academic research to assess which efforts are most promising for managing the chaos that is a modern campaign operation Praeger Handbook of Political Campaigning in the United States William L. Benoit, 2016-02-22 This work peels back the curtain on how political campaigns influence America covering everything from social media to getting to the Oval Office This comprehensive handbook reveals essentially everything the American public wants to know about political campaigns The two volume set begins with a historical overview then goes on to investigate campaigns from a variety of perspectives that shed light on how they work and why Readers will discover how campaigns are run how they re covered by the media how they influence government and how various interest groups and demographics play a part in the system The contributors who include academics elected officials journalists and campaign professionals offer new data interviews and analysis in a style that will prove fresh accessible and engaging for everyone from college students to political junkies They offer the inside scoop on types of campaign media for example TV spots debates and social media and on message variables such as language humor and evidence Groups of voters like women and youth are examined and the work also discusses theories of campaigning such as agenda setting issue ownership the Elaboration Likelihood Model and the Theory of Reasoned Action Scandal in American political campaigns always a subject of interest is addressed as well Political Campaigning, Elections and the Internet Darren Lilleker, Nigel Jackson, 2013-03 This book offers an in depth comparative analysis of how interactive Web 2 0 online tools including weblogs social networking sites and file sharing sites are utilised by candidates and parties during three recent election campaigns in France Belgium the US and the UK Political Campaigning in Digital India Anil M. Varughese, Holli A. Semetko, 2024-06-28 This book provides a conceptual toolkit to understand the changing technologies and dynamics of political campaigning in India Examining political campaigning and party strategies across many Indian states with special attention to regional politics histories cultures social and technological contexts the book discusses the potential impacts of campaign strategies on electoral outcomes Political campaigning reached a tipping point with millions of social media users engaging online with family and friends political issues parties and candidates in India s 2019 parliamentary

election Although India's political parties had been working with consultants and professional advertising agencies for decades by 2019 millions of first time voters as well as older voters were microtargeted with campaign messaging by parties and their affiliates including frequent misinformation from unknown sources supporting one party or another Filling a key gap in political communication research on election campaigns in digital India the chapters in this book capture how political campaigning is important for the electoral fortunes of political parties in India's diverse regions and states This book will appeal to students scholars and practitioners in political communication public administration and political consulting as well as anyone interested in data driven political campaigning It will also be an invaluable reading for those interested in South Asian studies This book was originally published as a special issue of South Asian History and Culture Political Campaigning on the Web Sigrid Baringhorst, Veronika Kneip, Johanna Niesyto, 2017-11-15 Drawing upon a common conceptual framework of political webcampaigning the book offers theoretical reflections on Internet based campaign politics It provides a comparative overview on the use of the Internet as a campaigning instrument by diverse intermediary political actors Taking the empirical findings of Internet appropriations into consideration the book discusses the impact of political webcampaigning on transnational democracy and the transformation of public spheres Thirty Years of Political Campaigning in Central and Eastern Europe Otto Eibl, Miloš Gregor, 2019-10-15 This edited volume maps the development of the use of political campaigning and marketing techniques in countries of the former Communist Bloc over the last thirty years Focusing on the shift from propaganda to political marketing and from manipulation to persuasion the book consists of a series of case studies of countries in Central Europe Eastern Europe the Baltics and the Balkans that outline the history development and current state of political marketing in each country The authors explore political parties and their behaviour ahead of elections and show the changes in political culture and practices that parties have undergone in order to create more or less successful campaigns *Political Campaigns in the United States* Richard K. Scher, 2016-02-19 A Choice Highly Recommended Title January 2017 This book is an interpretive analysis of political campaigns in America instead of focusing on how campaigns are designed and run it investigates the role campaigns play in our American politics and the close symbiosis between campaigns and those politics The text examines how campaigns are an important manifestation of how we do politics in this country Hallmarks of this text include showing how campaigns can undermine our democracy and asking how democratic they are and by extension our politics really are demonstrating that the ability of the media to accurately fairly and deeply report on campaigns has been severely compromised both because of the growing distance between campaigns and media outlets and because of the structure of Big Media corporate ownership and its tight relationship to Big Money It asks important questions about the media including How do the media reporters in particular cover campaigns What pressures and forces shape what and how they present campaigns What is the impact of the ever increasing chasm separating campaigns and the media How does the close tie between corporate mainstream media and Super PAC money

affect campaign coverage How does the ability of campaigns and media to segment voters into ever smaller slices influence how campaigns are covered tracking the continuing growth of unregulated private unaccountable dark money in campaigns as a threat to our democratic elections and politics Democracy rests fundamentally on transparency and accountability sunlight and our campaign laws and norms now allow and encourage exactly the opposite largely because of decisions by the United States Supreme Court

Inside Political Campaigns Gary A. Copeland, Karen S. Johnson-Cartee, 1997-04-22 As Dan Nimmo notes in his introduction *Inside Political Campaigns* endeavors to trace the sources of professional campaign wizardry by encapsulating the theories and concepts that practitioners and scholars alike claim to guide and rationalize consultants magical weaving of strategies tactics and techniques into a winning tapestry of political communication This study presents the theoretical areas political communication consultants draw upon in making strategic and tactical decisions in political campaigns And it provides an understanding of what motivates political consultants to choose a particular campaign strategy by explaining how various strategies work with the voting public While the book is research driven its academic findings are tempered and expanded by the authors personal political consulting experiences The text will be of interest to scholars students and practitioners alike in political communication advertising public opinion political science political rhetoric and campaigns and elections

Campaigning in America Robert J. Dinkin, 1989-06-30 Discusses the changing nature of vote getting techniques during the past 250 years Covers state and local elections and national campaigns and the different practices common to each type of election

Political Campaigning in Referendums Holli A. Semetko, Claes H. de Vreese, 2004-08-02 This book reviews the research on campaigns and elections and investigates the effects of campaigning in referendums drawing on panel survey data media content data focus groups and interviews with journalists and campaign managers The authors argue that the media coverage not only influences public perceptions of the campaign the referendum issue and the party leaders but that in a close race it also shapes the voting and the political future of the incumbent party The first study to investigate the dynamics and effects of a referendum campaign on politicians media and citizens this innovative volume will be of interest to students and researchers of political communication
