The Philosopher's Voice Andrew Fiala, 2012-02-01 This analysis of the relationship between philosophy and politics recognizes that political philosophers must continually struggle to distinguish their voices from others that clamor within political life Author Andrew Fiala asks whether it is possible to maintain a distinction between philosophical speech and other political and poetic language His answer is that philosophy's methodological self-consciousness is what distinguishes its voice from the voice of politics By focusing on the different ways in which this methodological norm was enacted in the lives and work of Kant Fichte Hegel and Marx the author puts the problem in a larger context and considers the roles that these thinkers played in the political history of the nineteenth century

Politics and the Ends of Identity Kathryn Dean, 2018-08-13 First published in 1997 this volume responds to the issue that identity can no longer be taken for granted and features contributions from experts in politics history and social theory on the concepts of identity politics and selfhood in cultures around the world Stemming from the work of Erik Erikson on the concept of identity these articles expand to include Islam Japan India and America along with a contemplation of international ideas of national sovereignty They argue as a whole against notions of a growing global

homogeneity of identity and against an end to history

Identities, Politics, and Rights Austin Sarat, Thomas R.

Kearns, 2010-05-06 The subject of rights occupies a central place in liberal political thought. This tradition posits that rights are entitlements of individuals by virtue of their personhood and that rights stand apart from politics; that rights in fact hold at bay intrusions of state policy. The essays in *Identities, Politics, and Rights* question these assumptions and examine how rights constitute us as subjects and are at the same time implicated in political struggles. In contrast to the liberal notion of rights universality, these essays emphasize the context-specific nature of rights as well as their constitutive effects. Recognizing that political disputes throughout the world have increasingly been cast as arguments about rights, the essays in this volume examine the varied roles that rights play in political movements and contests. They argue that rights talk is used by many different groups primarily because of its fluidity. Certainly rights can empower individuals and protect them from their societies, but they also constrain them in other areas. Frequently empowerment for one group means disabling rights for another group. Moreover, focusing on rights can both liberate and limit the imagination of the possible. By alerting us to this paradox of rights empowerment and limitation, *Identities, Politics, and Rights* illuminates ongoing challenges to rights and reminds us that rights can both energize political engagement and provide a resource for defenders of the status quo. Contributors are Richard Abel, Bruce Ackerman, Wendy Brown, John Comaroff, Drucilla Cornell, Jane Gaines, Thomas R. Kearns, Elizabeth Kiss, Kirstie McClure, Sally Merry, Martha Minow, Austin Sarat, and Steven Shiffrin. Austin Sarat is William Nelson Cromwell Professor of Jurisprudence and Political Science, Amherst College. Thomas R. Kearns is William H. Hastie Professor of Philosophy, Amherst College.

From Marxism to Post-Marxism? Gøran Therborn, 2018-04-17 A comprehensive history of the development of Marxist theory and the parameters of 21st-century politics. In this pithy and panoramic work, both stimulating for the specialist and accessible to the general reader, one of the world's leading social theorists, Gøran Therborn, traces the trajectory of Marxism in the twentieth century and anticipates its legacy for radical thought in the twenty-first.

Metaracial Rei Terada, 2023-05-12 A formidable critical project on the limits of antiracist philosophy. Exploring anxieties raised by Atlantic slavery in radical enlightenment literature concerned about political unfreedom in Europe, *Metaracial* argues that Hegel's philosophy assuages these anxieties for the left. Interpreting Hegel beside Rousseau, Kant, Mary Shelley, and Marx, Terada traces Hegel's transposition of racial hierarchy into a hierarchy of stances toward reality. By doing so, she argues, Hegel is simultaneously antiracist and antiblack. In dialogue with Black Studies

psychoanalysis and critical theory Metaracial offers a genealogy of the limits of antiracism
