## **Political Ideologies A Comparative Approach:**

**Political Ideologies** Mostafa Rejai, 2020 This book develops a framework for the comparative analysis of political ideologies The author uses the framework to examine the major political ideologies of our time nationalism fascism Marxism Leninism guerilla communism and democracy including democratic socialism democratic capitalism liberalism and conservatism A chapter is devoted to each ideology The book concludes with a discussion of the differences between political ideology theory and philosophy and of the question of the decline of ideology Throughout the book assumes no prior knowledge of political ideologies *The Ashgate Research Companion to the Politics of Democratization in Europe* Tuija Pulkkinen, 2016-03-23 Democratization is a concept often used in academic book titles yet not many of them deal with the initial breakthrough of democratization This research companion presents an alternative view to the widespread assumption that Western democracies should be the normative reference for the study of democratization elsewhere Rather it questions the universal validity of such an assumption by searching the history of European politics and by paying specific attention to the struggles of democratization accomplished outside Western Europe The authors apply a comparative approach to analyzing debates in the primary sources in a number of countries and languages and situate the results into a broader European context Focusing on European democratization from different historical and analytical perspectives they discuss the politics concepts and histories involved in democratization as a complex of changes that has altered the conditions of political action and debate in the continent for the past two centuries *The Ashgate Research Companion to the Politics of Democratization in Europe* José María Rosales, Professor Tuija Pulkkinen, Professor Kari Palonen, 2013-03-28 Democratization is a concept often used in academic book titles yet not many of them deal with the initial breakthrough of democratization This research companion applies a comparative approach to analyzing debates in a number of countries It discusses the politics concepts and histories involved in European democratization as a complex of changes that has altered the conditions of political action and debate in the continent for the past two centuries **The Darkest Sides of Politics, I** Jeffrey M. Bale, 2017-09-04 This book examines a wide array of phenomena that arguably constitute the most noxious extreme terrifying murderous secretive authoritarian and or anti democratic aspects of national and international politics Scholars should not ignore these dark sides of politics however unpleasant they may be since they influence the world in a multitude of harmful ways The first volume in this two volume collection focuses on the history of underground neo fascist networks in the post World War II era neo fascist paramilitary and terrorist groups operating in Europe and Latin America in the 1960s and 1970s and the manipulation of those and other terrorist organizations by the security forces of various states both authoritarian and democratic A range of global case studies are included all of which focus on the lesser known activities of certain secular extremist milieus This collection should prove to be essential reading for students and researchers interested in understanding seemingly arcane but nonetheless important dimensions of recent historical and contemporary politics

Party Ideology, Public Discourse, and Reform Governance in China Yayoi Kato, 2021-02-23 This book analyzes the operational dimension of the Chinese communist party's ideology and reveals the complex relationship between ideology, language, governance, and political power in the broader context of China's economic reforms. The book questions state-centric legitimacy and focused and content-based approaches to party ideology and analyzes its practice. Conceptualizing public discourse as a language game played by the rules set by the party, the book examines how party ideology is operationalized by multiple state and non-state actors as political rhetoric for persuasion in contentious reform discourses. Through the case studies of the policy discourses over state-owned enterprise reforms under Deng Xiaoping, Jiang Zemin, and Xi Jinping, the book highlights ideology's double-edged operational functions: consensus-inducing and conflict-inducing, and claims that ideology can be a double-edged sword for rulers. It is a vital resource to legitimize and sustain their rule, yet it potentially destabilizes their rule as well. The book proposes new angles to study ideology, legitimacy, and governance and is aimed at political scientists who study authoritarian governance, policy process, and political communication. Its multi-disciplinary approach also appeals to sociologists, media communication scholars, and linguists who work on rhetoric, political language, and media discourses.

**Modern Political Ideologies** Andrew Vincent, 2023-12-26 MODERN POLITICAL IDEOLOGIES Modern Political Ideologies provides a broad overview of the origins, development, and core principles of the major political ideologies of the past two centuries. With an accessible, student-friendly format, this bestselling textbook helps students understand the values, beliefs, and social forces that shape today's political messaging, public discourse, and legislative agendas. Concise and approachable chapters describe ideologies such as liberalism, conservatism, socialism, fascism, fundamentalism, and nationalism. Retaining the student-friendly format of previous editions, the fourth edition of Modern Political Ideologies is fully revised to reflect the social changes that inform today's political views. An entirely new chapter offers insights into the growth of populism and its effects on contemporary political dialogue, while expanded material addresses anarchism, feminism, neoliberalism, environmentalism, and green ideologies, identity politics, and other topics of current relevance. Containing a useful glossary of key terms and extensive end notes for each chapter, Modern Political Ideologies Fourth Edition is the ideal textbook for advanced undergraduate courses in political science, political ideology, political theory, comparative politics, and international relations. It is also an excellent supplement for courses in the social sciences and humanities that investigate the history of political ideas.

*Fighting the Last War* Jeffrey M. Bale, Tamir Bar-On, 2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day. That the ongoing lack of conceptual and definitional clarity with respect to terms like fascism, the radical right, the alt right, white supremacy, populism, racism, etc. has enabled ill-informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents, and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat.

posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations

**Social Science Methodology** John Gerring,2001-09-10 This book offers a one volume introduction to social science methodology relevant to the disciplines of anthropology economics history political science psychology and sociology It is written for beginning students long time practitioners and methodologists and applies to work conducted in qualitative and quantitative styles It synthesizes the vast and diverse field of methodology in a way that is clear concise and comprehensive While offering a handy overview of the subject the book is also an argument about how we should conceptualize methodological problems Tasks and criteria the author argues not fixed rules of procedure best describe the search for methodological adequacy Thinking about methodology through this lens provides a new framework for understanding work in the social sciences

*Research Handbook on Interdisciplinary Approaches to Law and Religion* Russell Sandberg,Norman Doe,Bronach Kane,Caroline Roberts,2019 Following 9 11 increased attention has been given to the place of religion in the public sphere Across the world Law and Religion has developed as a sub discipline and scholars have grappled with the meaning and effect of legal texts upon religion The questions they ask however cannot be answered by reference to Law alone therefore their work has increasingly drawn upon work from other disciplines This Research Handbook assists by providing introductory but provocative essays from experts on a range of concepts perspectives and theories from other disciplines which can be used to further Law and Religion scholarship

**The Life and Work of Ernesto De Martino** Flavio A. Geisshuesler,2021-08-09 In The Life and Work of Ernesto de Martino Italian Perspectives on Apocalypse and Rebirth in the Modern Study of Religion Flavio A Geisshuesler offers a comprehensive study of one of Italy s most colorful historians of religions The book inserts de Martino s dramatic life trajectory within the intellectual climate and the socio political context of his age in order to offer a fresh perspective on the evolution of the discipline of religious studies during the 20th century Demonstrating that scholarship on religion was animated by moments of fear of the apocalypse it brings de Martino s perspective into conversation with Mircea Eliade Claude L vi Strauss and Clifford Geertz in order to recover an Italian approach that promises to redeem religious studies as a relevant and revitalizing field of research in the contemporary climate of crisis
