The Battle of London Frédéric Bastien, 2014-10-01 A bestseller in Quebec that describes the horse trading intrigue and unrest behind Trudeau's quest to repatriate the Constitution After the referendum in 1980 Pierre Elliott Trudeau turned his sights on repatriating the Constitution in an effort to make Canada fully independent from Britain What should have been a simple process snowballed into a complicated intrigue Quebec which thought its prerogatives would be threatened if the Constitution were repatriated mounted a charm offensive replete with fine dining and expensive wines in order to influence key British MPs Not to be outdone Canada's native leaders who felt betrayed by the British Crown decided to enter the fray determined to ensure that their cause would triumph The English Labour Party had a view on the matter as well which chiefly involved embarrassing Prime Minister Thatcher as thoroughly as possible Historian Frédéric Bastien describes with great flair how the maverick Trudeau and the uncompromising Thatcher entered into one of history's most unlikely marriages of convenience in order to repatriate the Canadian Constitution

Crime and Punishment in Twentieth Century Ireland Seamus Breathnach, 2005 This book was written as part of a much wider criminological enterprise designed at creating a real and critical basis for criminological enquiry in Ireland Properly understood the Criminal Justice System CJS is every bit as important to society as the circular flow of money No government would dream of conducting its business without the advice of an economist or indeed providing an econometric model of the economy Yet when it comes to the CJS governments take the opposite view and legislate in the dark hardly reconnoitering for a moment to see what effect proposed legislation will have on the several institutions it invariably affects Maybe this was okay when those effects could not be calculated But such is no longer the case In 1967 a President's Commission on Law Enforcement and the Administration of Justice featured a model of criminal justice entitled The Challenge of Crime in a Free Society Incredibly misunderstood and widely neglected this model marked a breakthrough the first step as it were in coming to terms with the multiple agencies that go to make up what has come to be called the Criminal Justice System CJS In Volumes 2 and 3 of the present series Seamus Breathnach traces the initial steps necessary to complete the revolution begun by the President's Commission In doing this he reveals the systematized neglect of the CJS in the Republic of Ireland for years 1950-80 In eight

lectures he delineates the Republic's inability to get its act together or to engage the terms or significance of the 67 landmark inability that is anchored both in a deep religious resistance to the secular social sciences as well as an exaggerated estimation of the criminal lawyer as social commentator From this study it appears that the first step for criminologists is to see the CJS as a totality to see it as a social process clamoring to be rescued from the spokesmen of the discrete agencies that comprise it

Social Work Colin Pritchard, Richard Taylor, 2024-03-08 First published in 1978 Social Work is concerned with relating social methods and objectives to political ideology Social work grew out of the fertile tradition of mainstream Liberal radicalism in the nineteenth century and to appreciate its largely implicit contemporary value framework it is essential to analyse the ideologies of Conservatism and social democracy which have dominated Britain in the twentieth century The links between social work methods and aspirations and political ideology are thus explored in some detail A key argument which closely involves social work relates to the potential for social change within the existing institutional structures The question of Legitimation is thoroughly examined in this context from all viewpoints and the conclusions for social work development are discussed This book will be of interest to students of social work sociology and political science

The National Council for Civil Liberties and the policing of interwar politics Janet Clark, 2017-10-03 Issues around the policing of public order and political expression are as topical today as in the past and are likely to remain so in the future Janet Clark explores the origins of the National Council for Civil Liberties the precursor to Liberty that emerged in 1934 in protest at the policing of political extremes The book deals with police attempts to discredit the NCCL and the use of intelligence to perpetuate a view of the organisation as a front for the Communist Party It also examines the state and police responses to this organised criticism of police powers This book is essential reading for students and lecturers studying British social history the development of civil liberties and of policing in Britain as well as anyone interested in this enduring topic Included is a foreword by Clive Emsley Emeritus Professor in History at the Open University and widely regarded as the doyen of police history

Criminal Records T.
