

# RADIANCE

A NOVEL

CARTER SCHOLZ

"A tour de force of observation, microcosm, realism and a vibrantly satirical pharmacopoeia in prose. It gives a terrifying glimpse of a war at the junction of science and politics, one never fully fought or abandoned, only covered in denial and foggy. It reads like a declassified document of the human mind."

—JONATHAN LETHBRIDGE, author of *Mockingbird*

"Carter Scholz's heart-beats prove to be combustibly upon contact, so stimulating that—as you take it in—you can actually feel your synapses overloading with halogen-clear brilliance. *Radiance* is provocative, riveting, funny, but above all else, it is startlingly unique."

—DAVID GRAND, author of *The Disappearing Body*

"I doubt there's another writer in the country who can match Scholz as a stylist. *Radiance* is a splendid evocation of time and place. Deceitful, funny, and scary, too, it's every bit as brilliant as the name implies."

—KAREN JOY FOWLER, author of *Steve Nouri*

"This beautiful and disturbing novel is a superb rendering of our strategic defense weapons programs and of the America that supports them. It's fiction about science in service to fiction, a coherent beast that illuminates our world in a new way. Scholz's ear for American speech, and the precision of his language, remind me of Gaddis, DeLugue, or Pynchon, but here the high modernist brilliance is put to urgent political use."

—KIM STANLEY ROBINSON,  
author of *Antarctica*

Valente, 2015-10-20 *Radiance* is a decopunk pulp SF alt history space opera mystery set in a Hollywood and solar system very different from our own from Catherynne M Valente the phenomenal talent behind the New York Times bestselling *The Girl Who Circumnavigated Fairyland in a Ship of Her Own Making* Severin Unck's father is a famous director of Gothic romances in an alternate 1986 in which talking movies are still a daring innovation due to the patent hoarding Edison family. Rebellious against her father's films of passion intrigue and spirits from beyond Severin starts making documentaries traveling through space and investigating the levitator cults of Neptune and the lawless saloons of Mars. For this is not our solar system but one drawn from classic science fiction in which all the planets are inhabited and we travel through space on beautiful rockets. Severin is a realist in a fantastic universe. But her latest film which investigates the disappearance of a diving colony on a watery Venus populated by island sized alien creatures will be her last. Though her crew limps home to earth and her story is preserved by the colony's last survivor Severin will never return. Told using techniques from reality TV classic film gossip magazines and meta fictional narrative *Radiance* is a solar system spanning story of love exploration family loss quantum physics and silent film. Radiance Louis B. Jones, 2011-05-01 Mark Perdue has so many problems that when he starts feeling chest pains on the tarmac at LAX it dawns on him that a heart attack might be an efficient way out. Once an eminent physicist he hasn't published or had a new idea in a decade. The younger professors at UC Berkeley pity him and he's taken to using the back staircases to avoid their looks. At home his wife has been inconsolable since the recent late term abortion of their afflicted fetus. And he can't deny it any longer he is decidedly losing his mental faculties to chronic Lyme disease. Now Mark is visiting Los Angeles with his ambitious daughter Carlotta so she can attend a Celebrity Fantasy Vacation in which she is promised three days and two nights of the rock star lifestyle. On stage Carlotta sings her way to a new self confidence giving Mark a glimmer of joy in her sense of victory. But then she disappears with her newly acquired paraplegic boyfriend to take an excursion to the Hollywood sign and gets them all arrested. Mark included. Mark now faces a night in jail and maybe a hint of what he really needs to be happy

**The Ancient World in Alternative History and Counterfactual Fictions** Alberto J. Quiroga Puertas, Leire Olabarria, 2024-08-22 Focusing in turn on history powerful individuals under represented voices and the arts the essays in this collection cover a wide variety of modern and contemporary narrative fiction from Jo Walton and L Sprague De Camp to T S Chaudhry and Catherynne M Valente Chapters look into the question of chance versus determinism in the unfolding of historical events the role individuals play in shaping a society or occasion and the way art and literature symbolise important messages in counterfactual histories They also show how uchronic narratives can take advantage of modern literary techniques to reveal new and relevant aspects of the past giving voices to marginalised minorities and suppressed individuals of the ancient world Counterfactual fiction and uchronic narratives have been largely up until now the domain of literary critics However these modes of literature are here analysed by scholars of Ancient History Egyptology and Classics shedding important new light on how cultures of the ancient world have been and still are perceived and to what extent our conceptions of the past are used to explore alternate presents and futures Alternate history entices the imagination of the public by suggesting hypothetical scenarios that never occurred underlining a latent tension between reality and imagination and between determinism and contingency This interest has resulted in a growing number of publications that gauge the impact of what if narratives and this one is the first to give scholars of the ancient world centre stage
