Horowitz , 1971      **Radical Sociology** David Joel Sternberg, 1977      *The Lost Promise* Ellen Schrecker, 2021-12-17 The Lost Promise is a magisterial examination of the turmoil that rocked American universities in the 1960s with a unique focus on the complex roles played by professors as well as students The 1950s through the early 1970s are widely seen as American academia's golden age when universities well funded and viewed as essential for national security economic growth and social mobility embraced an egalitarian mission Swelling in size schools attracted new types of students and professors including radicals who challenged their institutions calcified traditions But that halcyon moment soon came to a painful and confusing end with consequences that still afflict the halls of ivy In *The Lost Promise* Ellen Schrecker our foremost historian of both the McCarthy era and the modern American university delivers a far reaching examination of how and why it happened Schrecker illuminates how US universities explosive growth intersected with the turmoil of the 1960s fomenting an unprecedented crisis where dissent over racial inequality and the Vietnam War erupted into direct action Torn by internal power struggles and demonized by conservative voices higher education never fully recovered resulting in decades of underfunding and today's woefully inequitable system As Schrecker's magisterial history makes blazingly clear the complex blend of troubles that disrupted the university in that pivotal period haunts the ivory tower to this day      **Radical Sociologists and the Movement** Martin J. *Introduction to African American Studies* Talmadge Anderson, James Benjamin Stewart, 2007 There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field Some scholars assert that African American Studies use a well defined common approach in examining history politics and the family in the same way as scholars in the disciplines of economics sociology and political science Other scholars consider African American Studies multidisciplinary a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses be they anthropological psychological historical etc to study the African world experience In this model the boundaries between traditional disciplines are accepted and researches in African American Studies simply conduct discipline based analysis of particular topics Finally another group of scholars insists that African American Studies is interdisciplinary an enterprise that generates distinctive analyses by combining perspectives from
