Hollywood Melodrama and the New Deal

Anna Siomopoulos, 2012 While many critics have analyzed the influence of the FDR administration on Hollywood films of the era most of these studies have focused either on New Deal imagery or on studio interactions with the federal government Neither type of study explores the relationship between film and the ideological principles underlying the New Deal This book argues that the most important connections between the New Deal and Hollywood melodrama lie neither in the New Deal iconography of these films nor in the politics of any one studio executive Rather the New Deal figures prominently in Hollywood melodramas of the Depression era because these films engage the political ideas underlying welfare state policies ideas that extended the reach of government into the private realm As the author shows Hollywood melodramas interrogated New Deal principles of liberal empathy consumer citizenship the refeudalization of the state and minimal economic redistribution only to support welfare state ideology in the end The Historiography of Communism Michael E. Brown, 2009 In this fresh appraisal of communism and anti communism with an emphasis on the American case respected scholar Michael E Brown examines the methods controversies and difficulties involved in writing the history of communism Arguing that one important way of understanding communism other than as a concrete political or ideological force is as an expression of an essentially reflexive aspect of society that typically manifests itself in social movements In this regard Brown understands the history of communism as part of the history of society Examining works by E P Thompson Karl Marx and Pierre Clastres Brown develops the idea of history as an immanent feature of human activities Taken together the essays in this book written over a period of 20 years offer a distinctive approach to the connections between social theory criticism and historiography and to what is social about social movements *The Whole Machinery* Benjamin S. **Highlander** John M. Glen, 2014-07-15 and racial justice during a critical era in southern and Appalachian history This volume is the first comprehensive examination of that extraordinary and often controversial institution Founded in 1932 by Myles Horton and Don West near Monteagle Tennessee this adult education center was both a vital resource for southern radicals and a catalyst for several major movements for social change During its thirty year history it served as a community folk school as a training center for southern labor and Farmers Union members and as a meeting place for black and white civil rights activists As a result of the civil rights involvement the state of Tennessee revoked the charter of the original institution in 1962 At the heart of Horton's philosophy and the Highlander program was a belief in the power of education to effect profound changes in society By working with the knowledge the poor of Appalachia and the South had gained from their experiences Horton and his staff expected to enable them to take control of their own lives and to solve their own problems John M Glen's authoritative study is more than the story of a singular school in Tennessee It is a biography of Myles Horton co founder and long time educational director of the school whose social theories shaped its character It is an analysis of the application of a particular idea of adult education to the problems of the South and of Appalachia And it affords valuable insights into the history of the southern labor and the civil rights movements and of the individuals and institutions involved in them over the past five decades

**American Hungers** Gavin Jones, 2009-10-12 Social anxiety about poverty surfaces with startling frequency in American literature Yet as Gavin Jones argues poverty has been denied its due as a critical and ideological framework in its own right despite recent interest in representations of the lower classes and the marginalized

These insights lay the groundwork for *American Hungers* in which Jones uncovers a complex and controversial discourse on the poor that stretches from the antebellum era through the Depression. Reading writers such as Herman Melville, Theodore Dreiser, Edith Wharton, James Agee, and Richard Wright in their historical contexts, Jones explores why they succeeded where literary critics have fallen short. These authors acknowledged a poverty that was as aesthetically and culturally significant as it was socially and materially real. They confronted the ideological dilemmas of approaching poverty while giving language to the marginalized poor: the beggars, tramps, sharecroppers, and factory workers who form a persistent segment of American society. Far from peripheral, poverty emerges at the center of national debates about social justice, citizenship, and minority identity. And literature becomes a crucial tool to understand an economic and cultural condition that is at once urgent and elusive because it cuts across the categories of race, gender, and class by which we conventionally understand social difference. Combining social theory with literary analysis, *American Hungers* masterfully brings poverty into the mainstream critical idiom.

**Hollywood Modernism** Saverio Giovacchini, 2001. Features a history of the Hollywood community and its wartime films. Seeing Hollywood as a forcefield, the author examines the social networks, working relationships, and political activities of artists, intellectuals, and film workers who flocked to Hollywood from Europe and the eastern United States before and during the second world war.

*Rebels Within the Ranks* Katherine Pandora, 2002-08-22. During the 1930s, psychologists Gordon Allport, Gardner Murphy, and Lois Barclay Murphy emerged from the fields of social and personality psychology to challenge the neo-behavioralist status quo in American social science. Willing to experiment with the idea of science itself, these rebels within the ranks contested ascendent conventions that cast the study of human life in the image of classical physics. Drawing on the intellectual, social, and political legacies of William James, radical empiricist philosophy, and radical Social Gospel theology, these three psychologists developed critiques of scientific authority and democratic reality as they worked at the crossroads of the social and the personal in New Deal America. Appropriating models from natural history, they argued for the significance of individuality, contextuality, and diversity as scientific concepts as they explored what they envisioned as the nature of democracy and the democracy of nature.

**The Progressive Era in the USA: 1890-1921** Kristofer Allerfeldt, 2017-05-15. Few periods in American history have been explored as much as the Progressive Era. It is seen as the birthplace of modern American liberalism as well as the time in which America emerged as an imperial power. Historians and other scholars have struggled to explain the contradictions of this period, and this volume explores some of the major controversies this exciting period has inspired. Investigating subjects as diverse as conservation, socialism, or the importance of women in the reform movements, this volume looks at the lasting impact of this productive yet ultimately frustrated generation's legacy on American and world history.

**Robert Redfield and the Development of American Anthropology** Clifford Wilcox, 2006-01-01. Relying upon close readings of virtually all of his published and unpublished writings as well as extensive interviews with former colleagues and students, Robert Redfield and the Development of

American Anthropology traces the development of Robert Redfield's ideas regarding social change and the role of social science in American society Clifford Wilcox's exploration of Redfield's pioneering efforts to develop an empirically based model of the transformation of village societies into towns and cities is intended to recapture the questions that drove early development of modernization theory Reconsideration of these debates will enrich contemporary thinking regarding the history of American anthropology and international development
