Naomi S. Baron,2010-03-03 In Always On Naomi S Baron reveals that online and mobile technologies including instant messaging cell phones multitasking Facebook blogs and wikis are profoundly influencing how we read and write speak and listen but not in the ways we might suppose Baron draws on a decade of research to provide an eye opening look at language in an online and mobile world She reveals for instance that email IM and text messaging have had surprisingly little impact on student writing Electronic media has magnified the laid back whatever attitude toward formal writing that young people everywhere have embraced but it is not a cause of it A more troubling trend according to Baron is the myriad ways in which we block incoming IMs camouflage ourselves on Facebook and use ring tones or caller ID to screen incoming calls on our mobile phones Our ability to decide who to talk to she argues is likely to be among the most lasting influences that information technology has upon the ways we communicate with one another Moreover as more and more people are always on one technology or another whether communicating working or just surfing the web or playing games we have to ask what kind of people do we become as individuals and as family members or friends if the relationships we form must increasingly compete for our attention with digital media Our 300 year old written culture is on the verge of redefinition Baron notes It s up to us to determine how and when we use language technologies and to weigh the personal and social benefits and costs of being always on This engaging and lucidly crafted book gives us the tools for taking on these challenges **Horn Man**

Queer Brown Voices Uriel Quesada,Letitia Gomez,Salvador Vidal-Ortiz,2015-09-01 In the last three decades of the twentieth century LGBT Latinas os faced several forms of discrimination The greater Latino community did not often accept sexual minorities and the mainstream LGBT movement expected everyone regardless of their ethnic and racial background to adhere to a specific set of priorities so as to accommodate a unified agenda To disrupt the cycle of sexism racism and homophobia that they experienced LGBT Latinas os organized themselves on local state and national levels forming communities in which they could fight for equal rights while simultaneously staying true to both their ethnic and sexual identities Yet histories of LGBT activism in the 1970s 1980s and 1990s often reduce the role that Latinas os played resulting in misinformation or ignore their work entirely erasing them from history Queer Brown Voices is the first book published to counter this trend documenting the efforts of some of these LGBT Latina o activists Comprising essays and oral history interviews that present the experiences of fourteen activists across the United States and in Puerto Rico the book offers a new perspective on the history of LGBT mobilization and activism The activists discuss subjects that shed light not only on the organizations they helped to create and operate but also on their broad ranging experiences of being racialized

connected businesses have grown because of the connections TV and singing careers have been launched money has been raised for charity books have been marketed and purchased and so on Q What has been the most challenging part of utilizing social media A I think the learning curve With all of these sites they come with no directions and no LIVE phone number Q What has worked the best and worst thus far A Facebook because of it s broad reach really has worked for me but many would argue that YouTube works the best particularly since it is the search engine of choice with the 11 34 age group Q How can a person searching for a job use social media marketing A So many ways They need to be on LinkedIn with a professional looking profile photo and contact information They could also utilize video to begin sharing their expertise Candidates need to stand out in a crowd of millions so if they say sent in a video introducing themselves and a video follow up email that would wow them Q What is the newest thing since Twitter A I believe companies and individuals are starting to utilize audio for creating their own iTunes channel and also location based social media like FourSquare I personally am not sold on location based services as of yet from a safety point of view but for retailers it can be a good thing I believe video is going to explode in popularity in 2011 for the 35 market as well They just need to get comfortable being on camera
