Old-Time Music Makers of New York State Simon J. Bronner,1988-01-01 Ask an old timer what life was like in rural upstate New York during the nineteenth and early twentieth centuries and you will hear about the dances and bees that brought villagers and farmers together You will hear of favorite fiddlers who held center stage with dance tunes taken from early British and American sources You will hear of old time music and its significance to a people making the transition

from a rural agricultural life to an urban industrial one Old Time Music Makers of New York State is the first book published on this rich legacy of traditional Anglo American music and dance It traces the development of old time music beginning with its movement into New York State from New England in the early nineteenth century and to its combination with commercial country music in the twentieth century Exploring the regional character of the music and its meaning to the people who enjoy it Bronner introduces memorable figures from the major periods in the development of old time music and he places their stories their lives and their music in the context of the region's cultural and historical changes This is much more than a regional study however Bronner brings to the fore issues of national scope and interest He discusses the relationship of old time music to the commercial country music with which it has been closely aligned and he challenges the prevailing wisdom that the origins of country music are in the South Musician fan folklorist and historian alike will benefit from and enjoy this book The many musical transcriptions annotations photographs and appendixes provide a valuable reference to be used again and again

Singing in Zion Robert Cochran,1999-01-01 This book is a lyrical scholarly exploration of the connection between one family's musical traditions and its rural community of Zion Arkansas In 1959 three Gilbert sisters Alma Helen and Phydella began compiling songs they remembered as their own and sending them to one another in letters Their tendency to center memory in sound rather than sight reveals an unusual musical birthright Robert Cochran has constructed a composite portrait of this family for whom music is the center of life He examines their lived experience as they anchor their history through song singing and the playing of musical instruments The Gilberts are wonderful exemplars of the mediation of oral tradition and when approached through their music they reveal themselves as remarkable individuals with an elaborate and firmly held sense of their unique identities A decade in the making Singing in Zion is written with a memoirist's sense of family history and an ethnographer's sense of the rich encounter of worlds This narrative has a seductive simplicity that conveys much of the Gilbert family's charm while at the same time establishing a broader framework that is firmly academic It will be enjoyed by all readers

Sounding the Color Line Erich Nunn, 2015 *Sounding the Color Line* explores how competing understandings of the U S South in the first decades of the twentieth century have led us to experience musical forms sounds and genres in racialized contexts Yet though we may speak of white or black music rock or rap sounds constantly leak through such barriers A critical disjuncture exists then between actual interracial musical and cultural forms on the one hand and racialized structures of feeling on the other This is nowhere more apparent than in the South Like Jim Crow segregation the separation of musical forms along racial lines has required enormous energy to maintain How asks Nunn did the protocols structuring listeners racial associations arise How have they evolved and been maintained in the face of repeated transgressions of the musical color line Considering the South as the imagined ground where conflicts of racial and national identities are staged this book looks at developing ideas concerning folk song and racial and cultural nationalism alongside the competing and sometimes contradictory workings of an emerging culture industry Drawing on a diverse archive of musical recordings critical artifacts and literary texts Nunn reveals how the musical color line has not only been established and maintained but also repeatedly crossed fractured and reformed This push and pull between segregationist cultural logics and music's disrespect of racially defined boundaries is an animating force in twentieth century American popular culture
