Ehrlich, 2011-04-15 As World War II drew to a close and radio news was popularized through overseas broadcasting journalists and dramatists began to build upon the unprecedented success of war reporting on the radio by creating audio documentaries Focusing particularly on the work of radio luminaries such as Edward R. Murrow, Fred Friendly, Norman Corwin and Erik Barnouw *Radio Utopia: Postwar Audio Documentary in the Public Interest* traces this crucial phase in American radio history significant not only for its timing immediately before television but also because it bridges the gap between the end of the World Wars and the beginning of the Cold War Matthew C. Ehrlich closely examines the production of audio documentaries disseminated by major American commercial broadcast networks CBS, NBC and ABC from 1945 to 1951 Audio documentary programs educated Americans about juvenile delinquency, slums, race relations, venereal disease, atomic energy, arms control and other issues of public interest but they typically stopped short of calling for radical change Drawing on rare recordings and scripts Ehrlich traces a crucial phase in the evolution of news documentary as docudramas featuring actors were supplanted by reality based programs that took advantage of new recording technology Paralleling that shift from drama to realism was a shift in liberal thought from dreams of world peace to uneasy adjustments to a cold war mentality Influenced by corporate competition and government regulations radio programming reflected shifts in a range of political thought that included pacifism, liberalism and McCarthyism In showing how programming highlighted contradictions within journalism and documentary *Radio Utopia* reveals radio's response to the political, economic and cultural upheaval of the post war era     **Short Takes** Elizabeth Penfield, 1996     Linguistic Justice Jacqueline Mowbray, 2012-10-25 An investigation into international law and language policy this book uses critical analysis to conduct an examination of the aspects of international law which affect language use It uncovers the conceptual framework which underpins international law on language addressing the constitution of a just language policy from a legal perspective
