rich two brothers escape an abusive father and set out on a treacherous journey to Alaska during the Klondike Gold Rush. Desperate to get away from their drunkard of a father, eleven-year-old Jasper and his older brother Melvin often talk of running away or heading north to Alaska to chase riches beyond their wildest dreams. The Klondike Gold Rush is calling, and Melvin has finally decided the time to go is now, even if that means leaving Jasper behind. But Jasper has other plans and follows his brother aboard a steamer as a stowaway. Onboard the ship, Jasper overhears a rumor about One Eyed Riley, an old coot who's long since gone but is said to have left clues to the location of his stake, which still has plenty of gold left. The first person to unravel the clues and find the mine can stake the claim and become filthy rich. Jasper is quick to catch gold fever and knows he and Melvin can find the mine; all they have to do is survive the rough Alaskan terrain along with the steep competition from the unscrupulous and dangerous people they encounter along the way. In an endearing, funny, pitch-perfect middle-grade voice, Caroline Starr Rose tells another stellar historical adventure young readers will long remember.

The Riddle of the Pacific John Macmillan Brown, 1997. The video companion to Childress's book *Extraterrestrial Archeology*. De Vil's Riddle Brian Fray, 2005. Think you've got it tough? Mother Nature has to manage Earth, fight evil, and go on a quest with no one but her bumbling helpers and you, the reader.

Turning the Page Fiona M. Collins, Jeremy Ridgman, 2006. Since the nineteenth century, children's literature has been adapted for both the stage and the screen. As the twentieth century progressed, children's books provided the material for an increasing range of new media, from radio to computer games, from television to cinema blockbuster. Although such adaptations are now recognised as a significant part of the culture of childhood and popular culture in general, little has been written about the range of products and experiences that they generate. This book brings together writers whose work offers contrasting perspectives on the process of adaptation and the varying transformations, social, historical, and ideological, that take place when a text moves from the page to another medium. Linking all these contributions is an interest in the changing definition of children's literature and its target audience within an increasingly media-rich society.
