Britain from the Rails Benedict Le Vay,2014-12-01 Including the nation s best kept secret railways Cover Crossing the Border Great Britain: Parliament: House of Commons: Welsh Affairs Committee,2013-03-06 Problems with key M4 transport route continue to risk damage to Welsh economy The route has suffered from under investment and congestion for too long The UK and Welsh Governments must work together to find attainable funded solutions to these problems The Committee also says the high toll on the Severn Crossing is still hampering the development of businesses in Wales and deterring inward investment to Wales and the UK Government should bring forward proposals for reducing it The Committee also welcomes the new investment in cross border rail links into Wales but the exclusion of South Wales from the HS2 proposals means businesses and people may relocate eastwards across the border The development of a high speed rail link from Wales to England would be an important boost to the Welsh economy and help to achieve the aim of successive Governments of rebalancing the UK economy There are good examples of joint working between the two governments to secure improvements to strategic cross border routes and especially welcome is the almost 2 billion of rail investment on the electrification of the Great Western Main Line and a proposed new rail link to Heathrow Airport But the Committee says it is unclear why the Welsh Government should be entitled to a Barnett consequential payment in respect of the Crossrail project but not HS2 It also notes that rail connectivity between North and Mid Wales and England has been overlooked for too long and calls for more frequent rail connections from Mid Wales to England **Spirit of Northern Rails** David

Goodyear,2024-04-30 This book endeavours to capture the very essence of the railways in the northern UK exploring in photographs their imprint upon the landscape Railways are illustrated as they traverse the bleak fells pass by traditional cotton mills and industrial heritage stride over iconic viaducts crossing vast windswept valleys and coastal estuaries and as they share the grandeur of iconic cathedrals of both religious and railway station designs while not forgetting the intricate network of canals intertwining with the rails that eventually carried the very traffic that kept these waterways in use Here is a personal selection which I trust helps explore all that characterises and reveals the moods and atmosphere which conjure the heart and Spirit of railways traversing our northern climes Locomotives train designs and liveries past and present will help recall the rails of the 1980 s and 90 s and offer an interesting contrast to the more modern images of the present millennium With a mix of traction and train fleets both in use on passenger and freight consists this selection of images reveals their participation in capturing the heart of railways in the north Readers are invited to share this fascinating adventure and indeed the inherent Northern Spirit which permeates throughout such a journey *Industrial Clusters* John F. Wilson,Chris Corker,Joe Lane,2022-07-01 *Industrial Clusters* shows the latest state of knowledge on the topic of industrial clusters with a particular focus on clustering in the UK bringing together a chronological coverage of the phenomenon This

set of original essays by a group of leading business and industrial historians offers fresh perspectives about clusters and clustering A primary emphasis of the collection is how knowledge is generated and disseminated across a cluster and whether these processes stimulated innovation and consequently longer term sustainability This analysis also prompts questions about which unit of analysis to examine from the entrepreneurs and firms they created through to the industry as a whole and district in which they are located or whether one should look outside the region for explanatory factors Covering regions as diverse as North Wales the Scottish Highlands the City of London the Potteries Sheffield and Lancashire the essays have been channelled to provide a detailed understanding of these issues The editors have also provided a challenging Conclusion that suggests a new research agenda that could well unravel some of the mysteries associated with clustering This edited collection will be of interest to international researchers academics and students in the fields of business and management history innovation industrialisation and clusters [A Pictorial and Descriptive Guide to North Wales](#) ,1899
