Reshaping Palestine From Muhammad Ali To The British Mandate 1831 19:

Reshaping Palestine Martin Sicker, 1999-09-30 Sicker examines the early stages of the process by which Palestine an obscure and relatively miniscule backwater of the Ottoman Empire became a critical factor in the history and convoluted politics of the modern Middle East In doing this he describes relevant aspects of the history of Palestine in the little known and poorly understood period from the Napoleonic intrusion in the Middle East to the end of the Ottoman Empire and the beginnings of British rule Developments in this period are analyzed within the geopolitical context of the rivalries among the great European powers that were decisive factors in the modern history of the entire Middle East During this period the emergence of a Jewish nationalist movement abroad served as a catalyst for the social and economic transformation of Palestine prior to the British entry into the area during World War I It involved the unique attempt to reify the national aspirations of a people who for the most part lived outside the territory toward which those aspirations were directed It also represented the previously unprecedented involvement of representatives of nongovernmental organizations in serious international political negotiations How Palestine was reshaped by the various forces acting upon it during the period discussed is a key to understanding the subsequent history of the area An important guide for students scholars and general readers interested in the Middle East generally and Palestine in particular

The Threat of Race David Theo Goldberg, 2011-09-09 Written by a renowned scholar of critical race theory The Threat of Race explores how the concept of race has been historically produced and how it continues to be articulated if often denied in today s world A major new study of race and racism by a renowned scholar of critical race theory Explores how the concept of race has been historically produced and how it continues to be articulated if often denied in today s world Argues that it is the neoliberal society that fuels new forms of racism Surveys race dynamics throughout various regions of the world from Western and Northern Europe South Africa and Latin America and from Israel and Palestine to the United States

Land of Progress Jacob Norris, 2013-04-11 A study of Palestine in the early twentieth century that takes a step back from the intricacies of the Arab Zionist conflict focusing instead on the country s position within the broader history of empire and anti colonial resistance

History Below the Global Lorenzo Kamel, 2024-04-02 History Below the Global aims to foster an entangled knowledge of global history and to place others at the centre stage to better understand the fluid world which we inhabit Relying on primary sources in seven languages and books written by hundreds of African Asian Middle Eastern and South American scholars Lorenzo Kamel examines the colonality of power in historical research and sheds light on the largely neglected roles of the others and their modernities in history The book provides three elements combined Firstly a thorough analysis of the process of accumulation knowledge piece by piece which underpins some of the major achievements in human history Secondly a view on pre colonial perspectives and the process through which the latter have been swallowed up by Eurocentric and solipsistic perceptions Lastly a study of the roots and outcomes of colonialisms and their echoes in our

present These three elements are addressed by combining multiple methodologies and approaches in the awareness that the history analysed as well as the historiographical trajectories that underlie it are ultimately inter penetrable as well as themselves the result of a process of accumulation History Below the Global challenges the view that first and foremost the West for bad and for good is and was the centre the proactive actor which did and undid This volume will be of value to all those interested in global history the history of colonialism post colonial studies modern and contemporary history **The Muslim World Book Review** ,1999 **American Book Publishing Record** ,2000 **Index Islamicus** ,1999 **The British Mandate for Palestine and Its Significance** E.
