K. TINBERGEN, **Reshaping the International Order** Jan Tinbergen, Jan van Ettinger, Club of Rome, 1976 Under the able direction of Nobel Laureate Jan Tinbergen this Report to the club of Rome calls for a new international order as a first step toward the solution of mankind's most pressing problems It is the joint work of experts in the field of food production monetary systems international trade arms control natural resources and the human environment Mankind's progress with the economies of the industrialized West the centrally planned and Third World countries are examined with a view toward the development of a new strategy to ensure the satisfaction of the individual and collective needs of people and the creation of international and national systems in which opportunities and the means to use these opportunities are more equitably distributed than at present Publisher **The History of Development** Gilbert Rist, 2002-10 With all its hopes of a more just and materially prosperous world development has fascinated societies in both North and South Looking at this collective fancy in retrospect Gilbert Rist shows the underlying similarities of its various theories and strategies and their shared inability to transform the world He argues persuasively that development has always been a kind of collective delusion which in reality has simply promoted a widening of market relations despite the good intentions of its advocates Reshaping the international order Jan Van Ettinger, Club van Rome, Roma, 1976 *Reshaping the international order , From Malthus to the Club of Rome and Back* Paul Neurath, 1994 A collection of papers written by the author over the course of a decade and a half covering issues of population Some topics include demographics before Malthus the limits of growth debate contradiction within the Bariloche Model the price and availability of oil and the food situation of the third world population policies in Japan China and India and the great migrations of the 19th and 20th centuries Annotation copyright by Book News Inc Portland OR International Relations Dictionary United States. Hans Köchler,2000      UNICEF (United Nations Children's Fund) Richard Jolly,2014-04-03 This book provides an in depth analysis of UNICEF s development and operations whilst exploring the significance of UNICEF s achievements and the reasons behind them UNICEF is one of the best known organizations of the United Nations system and the oldest of the UN s development funds It is also the part of the UN which consistently receives support from all countries round the world including the United States This book brings out the wider reasons for UNICEF s success and popularity setting them in the context of UNICEF s evolution since 1946 and drawing lessons for other international organizations The book argues that despite its problems international action for children built substantially on non economic foundations is not only possible but can be highly successful in mobilizing support producing results and making a difference to the lives of millions of children This will be of great interest to all scholars of international organisations development human rights and the United Nations system      Conflict Resolution Through Non-violence: Development without destruction K. D. Gangrade,Rameshwar Prasad Misra,1990      Development Issues of Our Time Rameshwar Prasad Misra,1985      Fifty Years of Change Charles L. Robertson,2016-12-05 The past half century has seen many hopes raised and some dashed a succession of fears and false alarms and both triumphs and calamities that were almost entirely unexpected This work offers a short but sweeping history of world politics since 1945 America s postwar pre eminence and the hopes that attended the creation of the United Nations the Cold War and the emergence of a volatile Third World economic transformations and the twin threat of nuclear and ecological disaster the crumbling of the Soviet system and the short lived promise of a peaceful prosperous and democratic new world The author describes these momentous changes concisely in an effort to show how we got here from there and what we might have learned along the way      The Pursuit of Human Well-Being Richard J. Estes,M. Joseph Sirgy,2017-01-09 This handbook informs the reader about how much progress we the human race have made in enhancing the quality of life on this planet Many skeptics focus on how the quality of life has deteriorated over the course of human history particularly given World War II and its aftermath This handbook provides a positive perspective on the history of well being Quality of life as documented by scientists worldwide has significantly improved Nevertheless one sees more improvements in well being in some regions of the world than in others Why This handbook documents the progress of well being in the various world regions as well as the differences in those regions The broad questions that the handbook addresses include What does well being mean How do different philosophical and religious traditions interpret the concept of well being within their own context Has well being remained the same over different historical epochs and for different regions and subregions of the world In which areas of human development have we been most successful in advancing individual and collective well being In which sectors has the attainment of well being proven most difficult How does well being differ within and between

different populations groups that for a variety of socially created reasons have been the most disadvantaged e g children the aged women the poor racial ethnic and sexual minorities

*UNESCOs Utopia of Lifelong Learning* Maren Elfert,2017-09-05 With a focus on lifelong learning this book examines the shifts that UNESCO s educational concepts have undergone in reaction to historical pressures and dilemmas since the founding of the organization in 1945 The tensions between UNESCO s humanistic worldview and the pressures placed on the organization have forced UNESCO to depart from its utopian vision of lifelong learning while still claiming continuity Elfert interprets the history of lifelong learning in UNESCO as part of a much bigger story of a struggle of ideologies between a humanistic emancipatory and an economistic technocratic worldview With a close study of UNESCO s two education flagship reports the Faure and Delors reports Elfert sheds light on the global impact of UNESCO s professed humanistic goals and its shifting influence on lifelong learning around the world
