Banking Systems in the Crisis Suzanne J. Konzelmann,Marc Fovargue-Davies,2013 The 2008 financial crisis has severely shaken confidence in liberal economic theory and policy However the sharply divergent experiences of the six Anglo Saxon liberal market economies LMEs suggest that the reality is not so simple This book traces the evolution of liberal capitalism from its rebirth amidst the challenges of the 1970s to its role in the genesis of the 2008 crisis and debates the assumptions underpinning the liberal capitalist paradigm Close examination reveals variety within liberal capitalism Not only was there the familiar hands off libertarian approach adopted by the US UK and Ireland but more bounded better regulated and apparently more stable varieties of economic liberalism also emerged through the more pragmatic approach taken by Canada Australia and New Zealand The evidence is compelling Whereas the American British and Irish financial systems were severely damaged by the crisis those of Canada Australia and New Zealand proved more robust This volume explores the degree to which these divergent experiences were a result of better and more intensive supervision differences in business or political culture broader commitment to social norms and the pace of liberalisation Detailed comparative case studies reveal fundamental differences in the economic and political environments in which economic liberalisation took place in approaches to finance

and in the degree to which it was seen to be an engine for growth The book concludes that this had a major influence on the evolving economic and financial systems and consequently their relative resilience when confronted with the challenges of the 2008 crisis Creativity and Innovation in Business and Beyond Leon Mann, Janet Chan, 2011-02-01 In many modern economies creativity the essential prerequisite for innovation tends to be assumed or neglected while the catchphrase innovation dominates the field of business as the key to national performance and competitiveness Creativity and Innovation in Business and Beyond illustrates the ways in which creativity spurs innovation and innovation enables creativity not only in the realms of business and management where the innovation is regularly acknowledged and discussed but throughout the social sciences With contributions from experts in fields as far flung as policy history economics economic geography sociology law psychology social psychology and education in addition to business and management this volume explores the manifold avenues for creativity and innovation at many levels including nation region city institution organisation and team across a multitude of sectors and settings **Community and Local Governance in Australia** Paul Smyth, Tim Reddel, Andrew Jones, 2005 This book examines the resurgence in Australia of locality based social policy concerned with the spatial dimensions of disadvantage after the political failures of the market oriented approach to regional reform The book proposes that these trends are leading to a new post competition policy regime in Australia that mirrors global policy trends
