sociopolitical tensions of contemporary yoga Because so many yogic spaces reflect the oppressive nature of many other public spheres the essays in this collection also examine what needs to change in order for yoga to truly live up to its liberatory potential from the blogosphere around Black women s health to the creation of queer and trans yoga classes to the healing potential of yoga for people living with chronic illness or trauma While many of these conversations are emerging in the broader public sphere few have made their way into academic scholarship This book changes all that The essays in this anthology interrogate yoga as it is portrayed in the media yoga spaces and yoga as it is integrated in education the law and concepts of health to examine who is included and who is excluded from yoga in the West The result is a thoughtful analysis of the possibilities and the limitations of yoga for feminist social transformation Aspects of Education ,1971 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1965 **Shaping the New Man** Alessio Ponzio,2015-09-29 Despite their undeniable importance the leaders of the Fascist and Nazi youth organizations have received little attention from historians In *Shaping the New Man* Alessio Ponzio uncovers the largely untold story of the training and education of these crucial protagonists of the Fascist and Nazi regimes and he examines more broadly the structures ideologies rhetoric and aspirations of youth organizations in Fascist Italy and Nazi Germany Ponzio shows how the Italian Fascists pedagogical practices influenced the origin and evolution of the Hitler Youth He dissects similarities and differences in the training processes of the youth leaders of the Opera Nazionale Balilla Giovent Italiana del Littorio and Hitlerjugend And he explores the transnational institutional interactions and mutual cooperation that flourished between Mussolini s and Hitler s youth organizations in the 1930s and 1940s **Current Catalog** National Library of Medicine (U.S.),1970 First multi year cumulation covers six years 1965 70 **Gymnasion** ,1969 **Re-Shaping Learning: A Critical Reader** Anne Boddington,Jos Boys,2012-01-01 Learning Spaces is an emerging field fuelled by a growing interest in the relationships between learning and spaces in which it takes place whether conceptual personal social physical and or virtual It is concerned with making learning spaces that can better meet the needs of 21st century learners academics and other related publics In post compulsory education this has opened up many interesting and important issues There remains a lack of any theoretical understanding as to how such spaces should be conceived or designed and hardly any critical discussion about effective frameworks for either the development of contemporary learning spaces or for assessing their impact on learning teaching and research At the same time there is much debate about what the purposes of post compulsory education should be as well as concerns about where and by whom it should be provided We therefore need to urgently improve our understanding of the interactions between learning and space It is essential that we not only share perspectives theories and methodologies but also critically reflect on our own different assumptions and work together to build better models for post compulsory education in the future To help in this process this book is designed as a critical reader that can enable researchers academics students and managers involved in Learning Spaces to share and engage with some key ideas

issues and texts A central aim is to bring together some of the best research from across the many different disciplines concerned with learning spaces including education architecture anthropology human computer interaction estate planning and museum studies Reshaping Learning is thus intended for anyone interested in and wanting to think more about learning spaces whether as users clients or managers or who are want to better understand interactions between the social and the spatial
