Residence on Earth and Other Poems Pablo Neruda, 1976-08

The 20th Century Go-N Frank N. Magill, 2014-03-05

Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

**Translating Neruda** John Felstiner, 1980. What goes into the translating of a poem. Usually that process gets forgotten once the new poem stands intact in translation. Yet a verse translation derives from historical, biographical, and philosophical research; interpretive analysis of the original poem and continuous linguistic and prosodic choices that parallel those the poet made. Taking as a text Pablo Neruda's brilliant prophetic sequence *Alturas de Macchu Picchu* (1945), the author here re-creates the entire process of translation from his first encounter with the poem to the last shaping of a phrase that may never come right in English. This many-faceted book forms an essay on the theory and practice of literary translation, a study of Neruda's career through 1945, and an interpretation of his major poem, all of which lead to a striking new poem in English: *Heights of Macchu Picchu*, printed along with the original Spanish. This genesis of a verse translation also includes little-known biographical data, hitherto untranslated poems and prose from the years 1920 to 1945, and new translations of key poems from Neruda's *Residence on Earth* and *Spain in My Heart*.

*Artists, Writers, and Musicians* Michel-Andre Bossy, Thomas Brothers, John Craig McEnroe, 2001-10-30. Disney's animated trailblazing Dostoyevsky's philosophical neuroses, Hendrix's electric haze, Hitchcock's masterful manipulation, Frida Kahlo's scarifying portraits, Van Gogh's vigorous color, and Virginia Woolf's modern feminism: this multicultural reference tool examines 200 artists, writers, and musicians from around the world. Detailed biographical essays place them in a broad historical context, showing how their luminous achievements influenced and guided contemporary and future generations, shaped the internal and external perceptions of their craft, and met the sensibilities of their audience.

Latin American Poetry Gordon

Brotherston, 1975-11-13. This study considers the ways Spanish American and Brazilian poets differ from their European counterparts by considering Latin American as more than a perfunctory epithet. It sets the orthodox Latin tradition of the subcontinent against others that have survived or grown up after the conquest, then pays attention to those poets who from Independence have striven to express a specifically American moral and geographical identity. Dr. Brotherston focuses on Modernismo or the coming of age of poetry in Spanish America and Brazil, and the importance of the movements associated with it. He considers Cesar Vallejo and Pablo Neruda probably the greatest of the selection, Octavio Paz, and modern poets who have reacted differently to the idea that Latin America might now be thought to have not just a geographical but a nascent

political identity of its own Poems are liberally quoted and treated as entities in their own right      **Residence on Earth**
