Walker, 1991-08-26 The new edition of this textbook provides an overview of design principles and techniques for using plants aesthetically and functionally in landscaping Unique to this book are discussions on using a microcomputer for selecting plants preparing cost estimates and writing specifications More than 200 photographs drawings and sketches highlight numerous graphic techniques for planting plans *Plan Graphics for the Landscape Designer* Tony Bertauski, 2018-01-03

Many landscape architects and designers embrace an artistic approach to design. Maintaining that loose aesthetic appeal requires landscape design students to not only master the essentials of design but also fundamental drawing skills. Tony Bertauski introduces aspiring designers to the techniques of drawing leading them from no knowledge of the craft to a final plan drawing of professional quality. Throughout he emphasizes that a drawn landscape plan has not only aesthetic value but also communicates effectively with clients. With step by step illustrations readers will learn to use drafting tools to set up drawings, letter professionally, draw symbols and textures to illustrate plants and hardscapes, label plan drawings accurately, and draw to scale. Develop section drawings to communicate vertical design elements, enhance drawings using design software.

Shaped by the West Wind Claire Elizabeth Campbell, 2005

Claire Campbell draws from recent work in cultural history, landscape studies in geography and art history and environmental history to explore what happens when external agendas confront local realities, a story central to the Canadian experience. Explorers, fishers, artists and park planners all were forced to respond to the unique contours of this inland sea. Their encounters defined a regional identity even as they constructed a popular image for the Bay in the national imagination.
