The Modern Landscapes of Ted Smyth Rod Barnett, Jacqueline Margetts, 2017-01-06 The modern period in landscape architecture is enjoying the fascinated appreciation of scholars and historians in Europe and the Americas and new themes new subjects and new appraisals are appearing This book contributes to the conversation by focusing on the work of a singular designer who spent his entire career in a province of the North Island of New Zealand Ted Smyth practiced an assured landscape modernism without ever seeing the designs of his forebears or his contemporaries working in the UK Europe and the United States Designing in isolation from the mainstream of modernism and a little after its high tide Smyth produced a series of gardens that provoke a revaluation of the diffusionist model of influence The book explains and describes the evolution of Smyth's design vocabulary and relates it to the development of tropical landscape modernism in other Asia Pacific sites It shows how a culture of garden modernism can be generated from within a particular locale and highlights Smyth's engagement with Māori design traditions in search of a specific expression of the high modern essentialism of place

The Natural Step for Communities Sarah James, Torbjörn Lahti, 2004-04-01 Sustainability may seem like one more buzzword and cities and towns like the last places to change but The Natural Step for Communities provides inspiring examples of communities that have made dramatic changes toward sustainability and explains how others can emulate their success Chronicled in the book are towns like Verne whose government operations recently became 100 per cent fossil fuel free demonstrating that unsustainable municipal practices really can be overhauled Arguing that the process of introducing change whether converting to renewable energy or designing compact development is critical to success the authors outline why well intentioned proposals often fail to win community approval and why an integrated approach not single issue initiatives can surmount challenges of conflicting priorities scarce resources and turf battles The book first clarifies the concept of sustainability offering guiding principles the Natural Step framework that help identify sustainable action in any area It then introduces the sixty plus eco municipalities of Sweden that have adopted changes to sustainable practices throughout municipal policies and operations The third section explains how they did it and outlines how other communities in North America and elsewhere can do the same Key to success is a democratic bottom up change process and clear guiding sustainability principles such as the Natural Step framework The book will appeal to both general readers wishing to understand better what sustainability means and practitioners interested in introducing or expanding sustainable development in their communities

Landscape Architecture for Sea Level Rise Galen D. Newman, Zixu Qiao, 2022-05-17 This book assesses and illustrates innovative and practical world wide measures for combating sea level rise from the profession of landscape architecture The work explores how the appropriate mixture of integrated multi scalar flood protection mechanisms can reduce risks associated with flood events including sea

level rise Because sea level rise is a global issue illustrative case studies performed from the United States Korea Australia New Zealand Thailand Japan China and the Netherlands identify the structural engineered non structural nature based and hybrid mechanisms mixed used to combat sea level rise and increase flood resilience The alternative flood risk reduction mechanisms are extracted and analyzed from each case study to develop and explain a set of design based typologies to combat sea level rise which can then be applied to help proctor new and existing communities It is important for those located within the current or future floodplain considering sea level rise and those responsible for land use developmental and population related activities within these areas to strategically implement a series of integrated constructed and green infrastructure based flood risk reduction mechanisms to adequately protect threatened areas As a result this book is beneficial to both academics and practitioners related to multiple design professions such as urban designers urban planners architects real estate developers and landscape architects

The Top Books of the Year Residential Landscape Architecture Pie The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. Residential Landscape Architecture Pie : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and suspenseful novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
