**Resilience in Children, Families, and Communities** Ray D. Peters, Bonnie Leadbeater, Robert J. McMahon, 2004-12-16

Despite the numerous benefits derived from major technological and medical innovations of the past century we continue to live in a world rife with significant social problems and challenges Children continue to be born into lives of poverty others must confront daily their parent s mental illness or substance abuse still others live amid chronic family discord or child abuse For some of these children life s difficulties become overwhelming Their enduring trauma can lead to a downward spiral until their behavioral and emotional problems become lifelong barriers to success and wellbeing Almost no one today would deny that the world is sometimes an inhospitable even dangerous place for our youth Yet most children even those living in high risk environments appear to persevere Some even flourish And this begs the question why in the face of such great odds do these children become survivors rather than casualties of their environments For many decades scholars have pursued answers to the mysteries of resilience Now having culled several decades of research findings the editors of this volume offer an in depth leading edge description and analysis of Resilience in Children Families and Communities Linking Context to Practice and Policy The book is divided into three readily accessible sections that both define the scope and limits of resilience as well as provide hands on programs that families neighborhoods and communities can implement In addition several chapters provide real life intervention strategies and social policies that can be readily put into practice The goal to enable children to develop more effective problem solving skills to help each child to improve his or her self image and to define ways in which role models can affect positive outcomes throughout each child s lifetime For researchers clinicians and students Resilience in Children Families and Communities Linking Context to Practice and Policy is an essential addition to their library It provides practical information to inform greater success in the effort to encourage resilience in all children and to achieve positive youth development
