## **Resilience Of Conservative Religion:**

*The Resilience of Conservative Religion* Joseph B. Tamney, 2002-02-11 The recent growth and popularity of conservative churches contradicts the idea that late modern societies have outgrown the need for such relics of the past as traditionalist religions In this book Joseph Tamney offers an explanation for this this apparent incongruity by looking at the case of growing popular conservative Protestant congregations in the United States His findings represent a synthesis of ideas from supporters of secularization theory and from those who stress the competitive market of churches in America as a factor in church growth

**The New Blackwell Companion to the Sociology of Religion** Bryan S. Turner, 2016-10-03 THE NEW BLACKWELL COMPANION TO THE Sociology of Religion I enjoyed reading this book for its in depth examination of the complexities of the social forces that are shaping and are being shaped by religious groups around the world I certainly see this being of theoretical value for researchers engaging the new religious realities of our world Sociology of Religion A Quarterly Review The new companion is a timely and valuable work validly updating the original companion and a good addition to the reference shelves of any academic or specialist library Reference Reviews Reflecting recent developments in the field this companion provides a comprehensive introduction to the sociology of religion with a clear emphasis on comparative and historical approaches Covering all the areas relevant to undergraduate courses in this area the Companion begins by laying down the anthropological and sociological foundations of the study of religion and their contemporary developments It continues with an analysis of both traditional and contemporary forms of organization such as church sect typologies as well as megachurches and modern forms of spirituality The secularization and post secular society debates are considered in depth along with the globalization process fundamentalism charismatic movements and revivalism It also discusses the sociology of Buddhism Christianity Hinduism Islam Judaism and religions of China as well as the areas of American exceptionalism from de Tocqueville onwards religious nationalism women and piety movements and the spirituality of Native American communities Considering new developments in social theory and religion the collection concludes with a discussion of recent work that attempts to understand the future of religion blending the sociology of modern societies anthropological ethnography and philosophical inquiry

**Sacro-Egoism** John S. Knox, 2016-05-10 Sacro Egoism The Rise of Religious Individualism in the West discusses the relationship between secularization participation in religious practices and belief and the emergence of radical individualized expressions of faith in the West Using McMinnville Oregon as a case study it presents the data collected and analyzed from several churches denominations and spiritual settings in that unassuming town and compares it to the results of Heelas and Woodhead's Spiritual Revolution project arriving at a provocative conclusion Rather than abandoning Christianity for alternative spirituality practices McMinnville citizens still feel strongly about their Christian faith taking their spiritual walk to a more personal level than ever before in church history Utilizing both quantitative and qualitative research along with personal stories of faith and exploration from McMinnville residents

themselves Sacro Egoism The Rise of Religious Individualism in the West tells a story of radical individualists who have become the highest religious authority in their lives even over the church the Bible and traditional Christian society **The Transformation of American Religion** Alan Wolfe,2005-04 In this astounding account a leading sociologist demonstrates that religion in America has become so tamed and softened that it hardly serves any of its original functions *The Assemblies of God at the Crossroads* Margaret M. Poloma,1989 **Secularization and Its Discontents** Rob Warner,2010-12-23 Authoritative guide to contemporary debates and issues in the sociology of religion providing a clear examination of classical secularization And The post secularization paradigm **The Legacy of Pierre Bourdieu** Simon Susen,Bryan S. Turner,2011-04-15 These critical essays bring together prominent scholars in the social sciences to consider the diverse nature of the legacy of Pierre Bourdieu in contemporary social theory In offering a range of perspectives on the continuing relevance of Bourdieu s sociology the essays of this volume examine Bourdieu s relationship to both classical and contemporary social theory This collection constructs an intellectual bridge between French speaking and English speaking accounts of Bourdieu s work *America's Religions* Peter W. Williams,2008 A panoramic introduction to religion in America newly revised and updated **Religion and the Individual** Dr Abby Day,2013-05-28 What does religion mean to the individual How are people religious and what do their beliefs practices and identities mean to them The individual s place within studies of religion has tended to be overlooked recently in favour of macro analyses Religion and the Individual draws together authors from around the world to explore belief practice and identity Using original case studies and other work firmly placed in the empirical contributors discuss what religious belief means to the individual They examine how people embody what religion means to them through practice considering the different meanings that people attach to religion and the social expressions of their personal understandings and the ways in which religion shapes how people see themselves in relation to others This work is cross cultural with contributions from Asia Europe and North America *Understanding Indigenous Gender Relations and Violence* Catherine E. McKinley,2023-01-09 This book focuses on the inequities that are persistently and disproportionately severe for Indigenous peoples Gender and racial based inequities span from the home life to Indigenous women s wellness including physical mental and social health The conundrum of how and why Indigenous women many of whom historically held respected and even held sacred status in many matrilineal and female centered communities now experience the highest rates of gendered based violence is focal to this work Unlike Western European and colonial contexts Indigenous societies tended to be organized in fundamentally distinct ways that were woman centered and where gender roles and values were reportedly more egalitarian fluid flexible inclusive complementary and harmonious Understanding how Indigenous gender relations were targeted as a tool of patriarchal settler colonization and how this relates to women more broadly can be a key to unlocking gender liberation a catalyst for readers to become gender AWake Living gender AWake encompasses living in alignment with agility AWA with clear awareness of how gender and other

sociostructural factors affect daily life as well as how to navigate such factors To live in alignment is to live from one's center and in accordance with one's authentic self with agility by nimbly responding to life's constantly shifting situations This empirically grounded work extends and deepens the Indigenist framework of historical oppression resilience and transcendence FHORT by delving deep into the resilience transcendence and wellness components of FHORT while centering gender Understanding the changing gender roles for Indigenous peoples over time fosters decolonization more broadly by enabling greater understanding of how sexism and misogyny hurt people across personal and political spheres This understanding can foster the process of becoming gender AWake by identifying and dismantling of sexism and by becoming decolonized from prescriptive gender roles that inhibit living in alignment with one's true or authentic self Readers will gain a research based approach linking historical oppression gender based inequities and violence against Indigenous women understanding of how patriarchal colonialism undermines all genders a tool to dismantle sexism more broadly pathways to become Gender AWake through the understanding of Indigenous women's resilience and transcendence

**Resilient Faith** Gerald L. Sittser, 2019-10-15 In our Western post Christendom society much of Christianity's cultural power privilege and influence has eroded But all is not lost says bestselling author Gerald Sittser Although the church is concerned and sobered by this cultural shift it is also curious and teachable Sittser shows how the early church offers wisdom for responding creatively to the West's increasing secularization The early Christian movement was surprisingly influential and successful in the Roman world and so different from its two main rivals traditional religion and Judaism that Rome identified it as a third way Early Christians immersed themselves in the empire without significant accommodation to or isolation from the culture They confessed Jesus as Lord and formed disciples accordingly which helped the church grow in numbers and influence Sittser explores how Christians today can learn from this third way and respond faithfully creatively and winsomely to a world that sees Christianity as largely obsolete Each chapter introduces historical figures ancient texts practices and institutions to explain and explore the third way of the Jesus movement which surprising everyone changed the world

*From a Ministry for Youth to a Ministry of Youth* Ruth Lukabyo, 2020-09-30 At a time of unprecedented secularization and declining church attendance youth ministry in the twenty first century should be doomed So why is Protestant youth ministry in Sydney vibrant and in many places growing This book sets out to answer this question which is of such importance for the future of the Australian church A pioneering model of youth ministry evolved in the 1930s and was already flourishing in churches schools and university by the 1950s Its early high point was the Billy Graham Crusade of 1959 which may legitimately be seen as an Australian youth revival The new model broke with past practice by cultivating ministry leadership by young people by promoting peer groups to nurture and share faith and by fostering ministry collaboration between young men and women The model used by theological conservatives and liberals alike and has proved both enduring and fruitful This book will engage with the model of youth ministry and the religious experiences of young

people in Sydney By reading it you will not only learn from the significant achievements of young people in the past but be better equipped to creatively consider new methods of ministry for the twenty first century     Evangelicals and the End of Christendom Hugh Chilton,2019-12-09 Exploring the response of evangelicals to the collapse of Greater Christian Britain in Australia in the long 1960s this book provides a new religious perspective to the end of empire and a fresh national perspective to the end of Christendom In the turbulent 1960s two foundations of the Western world rapidly and unexpectedly collapsed Christendom marked by the dominance of discursive Christianity in public culture and Greater Britain the powerful sentimental and strategic union of Britain and its settler societies disappeared from the collective mental map with startling speed To illuminate these contemporaneous global shifts this book takes as a case study the response of Australian evangelical Christian leaders to the cultural and religious crises encountered between 1959 and 1979 Far from being a narrow national study this book places its case studies in the context of the latest North American and European scholarship on secularisation imperialism and evangelicalism Drawing on a wide range of archival sources it examines critical figures such as Billy Graham Fred Nile and Hans Mol as well as issues of empire counter cultural movements and racial and national identity This study will be of particular interest to any scholar of Evangelicalism in the twentieth century It will also be a useful resource for academics looking into the wider impacts of the decline of Christianity and the British Empire in Western civilisation     *The Psychology of Religion, Fourth Edition* Ralph W. Hood, Jr.,Peter C. Hill,Bernard Spilka,2009-07-15 Scholarly and comprehensive yet accessible this state of the science work is widely regarded as the definitive graduate level psychology of religion text The authors synthesize classic and contemporary empirical research on numerous different religious groups Coverage includes religious thought belief and behavior across the lifespan links between religion and biology the forms and meaning of religious experience the social psychology of religious organizations and connections to morality coping mental health and psychopathology Every chapter features thought provoking quotations and examples that bring key concepts to life New to This Edition Revised and updated with the latest theories methods and empirical findings Many new research examples Restructured with fewer chapters for better fit with a typical semester More attention to the differences between religion and spirituality Covers emerging topics genetics and neurobiology positive psychology atheism and more     **The American Family** David Peterson del Mar,2011-11-07 Traces the movement from mutualism to individualism in the context of American family life Families survived or even flourished during colonization Revolution slavery immigration and economic upheaval In the past century prosperity created a culture devoted to pleasure and individual fulfilment     Confucianism and Spiritual Traditions in Modern China and Beyond Fenggang Yang,Joseph Tamney,2011-11-11 Confucianism is reviving in China and spreading in America The past and present interactions between the revived Confucianism and Daoism Buddhism Islam and Christianity will likely shape the cultural and political developments in Chinese societies of mainland China Taiwan Hong Kong Singapore etc and will have global implications in

the globalizing world In addition to the philosophical and theological articulations of Confucianism and other spiritual traditions this volume includes empirical studies of and analytical reflections on the spiritual traditions in Chinese societies by historians sociologists and anthropologists It is a collection of articles by the best minds in China and the West and the top experts in multiple disciplines Collectively the volume provides an assessment of the present situation and points to the possibilities of future development of Confucianism and other spiritual traditions in modern China and beyond **The**

Kalaycioglu,2021-04-06 Ersin Kalayci o lu and Ali arko lu who conducted surveys comparable to the American National Election Survey for the 2002 and 2015 national elections in Turkey chart the dynamics that brought the pro Islamist conservative Justice and Development Party Adalet ve Kalk nma Partisi AKP to power in 2002 and that continue to influence electoral politics The authors trace the uneven course of democratization in Turkey as revealed through elections since the first competitive multi party elections in 1950 Since the market liberalization reforms of 1980 Turkey has been rapidly evolving from a closed agricultural comparatively underdeveloped polity into an open and industrial state primarily

integrated with the global economy Kalaycıoğlu and Arkoğlu analyze different dimensions of five elections surveys in 2002-2015 period to show how the consequent socio-economic changes and traditional socio-cultural divisions have affected elections, political parties and individual voters. The authors conclude that the historical cultural divide between rural peripheral conservative groups and more urban centrist and modernized groups not only persists but shapes elections more than ever. This book not only provides an original comprehensive and critical evaluation of the Turkish electoral and party politics, it also offers a case study of voting behavior in a state undergoing both democratization and market liberalization in a rapidly changing and volatile international environment.
