Robert J. Ballon, 1992 *Resolute Japan* Jusuke J Ikegami, Harbir Singh, Michael Useem, 2024-09-17 Discover how Japan's new leadership model has transformed its top companies and created a new paradigm for business success In *Resolute Japan* Waseda University's Jusuke J Ikegami and the Wharton School's Harbir Singh and Michael Useem reveal a new leadership

model that has led Japan's corporations to make a stunning comeback. In the process they share what they have learned from interviews with more than 100 CEOs and top executives of Japan's largest and most influential companies including Hitachi, Honda, Mitsubishi, Nissan, NTT and Panasonic. In this book you will discover how Japan's new leadership model has led to superior performance in the stock market and beyond. The core principles and practices that characterize Japan's new leadership model and how they differ from the old models. How Japan's new leadership model enables companies to balance multiple and often conflicting objectives such as shareholder value and social responsibility, short-term results and long-term growth and agility and stability. How Japan's new leadership model fosters innovation, resilience and competitiveness in a rapidly changing global environment. Why even in an environment of macroeconomic stagnation due to economic policies at the national level, individual companies can achieve sustainable development through this new leadership model and how Japan's new leadership model can inspire and inform business leaders in the West and elsewhere who are facing similar challenges and opportunities. **Resolute Japan** offers a rare and insightful perspective on the new corporate fabric of Japan, one that is sure to both challenge and enlighten leaders around the world. **Japanese Management in the Low Growth Era** Daniel Dirks, Jean-Francois Huchet, Thierry Ribault, 2012-10-11 Japanese firms are in the midst of the most protracted economic crisis in their post-war history. The end of the bubble economy has led to a long era of low growth. This change in the general business environment has profound consequences for the management and the organization of corporate Japan as well as for the theory of the Japanese firm. The contributions to this book cover a broad range of subjects from the strategies and organizational structures to the management of human resources and innovation processes in the 1990s. These changes are systematically commented on by field specialists from abroad, especially Europe, relating the situation in Japan to comparable developments in other countries. **Choose and Focus** Ulrike Schaede, 2008 Examines how choose and focus strategies whereby corporations concentrate on core areas and spin off unrelated businesses have completely altered the strategic logic of Japan's previous industrial architecture.
