Cultural Marxism in Postwar Britain Dennis L. Dworkin,1997 A history of British cultural Marxism This book traces its development from beginnings in postwar Britain through transformations in the 1960s and 1970s to the emergence of British cultural studies at Birmingham up to the advent of Thatcherism to reflect a tradition that represents an effort to resolve the crisis of the postwar British Left [Reading Into Cultural Studies](#) Martin Barker,Anne Beezer,2003-09-02

Reading Into Cultural Studies revisits a selection of key texts central to the formation of cultural studies as a discipline and as a project. These texts address questions of power, ideology and the possibilities and limits of resistance. Each of the eleven essays in the collection renews an early study in one area of cultural investigation, bringing such seminal texts as *Subculture* by Dick Hebdige, *Loving With a Vengeance* by Tania Modleski and *Bond and Beyond* by Tony Bennett back to the centre of attention. However, the essays are not purely celebratory. Each study is critically examined in a number of ways for its research strategy, its implicit theories of power and ideology, for the empirical evidence it draws on and its conceptual framework. Together, the essays provide an introduction to some of the central debates and issues in cultural studies.

Selected Writings on Marxism Stuart Hall, 2021-03-22 Throughout his career, Stuart Hall engaged with Marxism in varying ways, actively rethinking it to address the political and cultural exigencies of the moment. This collection of Hall's key writings on Marxism surveys the questions central to his interpretations of and investments in Marxist theory and practice. It includes Hall's readings of canonical texts by Marx and Engels, Gramsci and Althusser, his exchanges with other prominent thinkers about Marxism, his use of Marxist frameworks to theorize specific cultural phenomena and discourses, and some of his later work in which he distanced himself from his earlier attachments to Marxism. In addition, editor Gregor McLennan's introduction and commentary offer in-depth context and fresh interpretations of Hall's thought. *Selected Writings on Marxism* demonstrates that grasping Hall's complex relationship to Marxism is central to understanding the corpus of his work.

Frank Zappa and the And Paul Carr, 2016-04-15 This collection of essays, documented by an international and interdisciplinary array of scholars, represents the first academically focused volume exploring the creative idiolect of Frank Zappa. Several of the authors are known for contributing significantly to areas such as popular music, cultural and translation studies, with expertise and interests ranging from musicology to poetics. The publication presents the reader with an understanding of the ontological depth of Zappa's legacy by relating the artist and his texts to a range of cultural, social, technological and musicological factors as encapsulated in the book's title. *Frank Zappa and the And* Zappa's interface with religion, horror, death movies, modernism, satire, freaks, technology, resistance, censorship and the avant-garde are brought together analytically for the first time and approached non-chronologically, something that strongly complies with the non-linear perspective of time. Zappa highlights in both his autobiography and recordings. The book employs a variety of analytical approaches ranging from literary and performance theory, horror and musicology to post-modern and textually determined readings and serves as a unique and invaluable guide to Zappa's legacy and creative force. *Death Metal and Music Criticism*

Michelle Phillipov, 2012-01-01 In this book, author Michelle Phillipov combines original analyses of death metal with accessible overviews of popular music studies as a field. By doing so, Phillipov demonstrates how the premium placed on political engagement in popular music studies serves to circumscribe our understanding of the complexity and specificity of death metal. **The Subcultural Imagination** Shane Blackman, Michelle Kempson, 2016-06-17 *The Subcultural Imagination*

Cultural Populism Jim McGuigan, Dr Jim McGuigan, 2002-11-01 First Published in 2004 This book provides a novel understanding of current thought and enquiry in the study of popular culture and communications media The populist sentiments and impulses underlying cultural studies and its postmodernist variants are explored and criticized sympathetically An exclusively consumptionist trend of analysis is identified and shown to be an unsatisfactory means of accounting for the complex material conditions and mediations that shape ordinary people s pleasures and opportunities for personal and political expression Through detailed consideration of the work of Raymond Williams Stuart Hall and the Birmingham School John Fiske youth subcultural analysis popular television study and issues generally concerned with public communication including advertising arts and broadcasting policies children s television tabloid journalism feminism and pornography the Rushdie affair and the collapse of communism Jim McGuigan sets out a distinctive case for recovering critical analysis of popular culture in a rapidly changing conflict ridden world The book is an accessible introduction to past and present debates for undergraduate students and it poses some challenging theses for postgraduate students researchers and lecturers

Subcultures Ken Gelder, 2007-01-24 This book presents a cultural history of subcultures covering a remarkable range of subcultural forms and practices It begins with London's Elizabethan underworld taking the rogue and vagabond as subcultural prototypes the basis for Marx's later view of subcultures as the lumpenproletariat and Henry Mayhew's view of subcultures as those that will not work Subcultures are always in some way non conforming or dissenting They are social with their own shared conventions values rituals and so on but they can also seem immersed or self absorbed This book identifies six key ways in which subcultures have generally been understood through their often negative relation to work idle parasitical hedonistic criminal their negative or ambivalent relation to class their association with territory the street the hood the club rather than property their movement away from home into non domestic forms of belonging their ties to excess and exaggeration as opposed to restraint and moderation their refusal of the banalities of ordinary life and in particular of massification Subcultures looks at the way these features find expression across many different subcultural groups from the Ranters to the riot grrrls from taxi dancers to drag queens and kings from bebop to hip hop from dandies to punk from hobos to leatherfolk and from hippies and bohemians to digital pirates and virtual communities It argues that subcultural identity is primarily a matter of narrative and narration which means that its focus is literary as well as sociological It also argues for the idea of a subcultural geography that subcultures inhabit places in particular ways their investment in them being as much imaginary as real and in some cases strikingly utopian
