Designing Transformative Multicultural Initiatives Sherry K. Watt, 2023-07-03 Higher education is facing a perfect storm as it contends with changing demographics shrinking budgets and concerns about access and cost while underrepresented groups both in faculty ranks and students are voicing dissatisfaction with campus climate and demanding changes to structural inequities This book argues that to address the inexorable changes ahead colleges and universities need both to centralize the value of diversity and inclusion and employ a set of strategies that are enacted at all levels of their institutions It argues that individual and institutional change efforts can only be achieved by implementing diversity as a value that is embracing social change efforts as central and additive rather than episodic and required and provides the research and theoretical frameworks to support this approach as well as tools and examples of practice that accomplish change The contributors to this book identify the elements that drive successful multicultural initiatives and that strengthen the effectiveness of campus efforts to dismantle systemic oppression as well as the individual and organization skills needed to manage difference effectively Among these is developing the capacity of administrators faculty and student affairs professionals as conscious scholar practitioners to sensitively manage conflicts on campus deconstruct challenging structures and reconstruct the environment intentionally to include in respectful ways experiences of historically marginalized groups and non dominant ways of being in the world The books focus on developing capacities for multicultural competence aligns with higher education s increasing emphasis on civic engagement and institutional goals promote skills to interact in meaningful and responsible ways around difference whether of people ideas or identities *Designing Transformative Multicultural Initiatives* provides guiding principles and practical strategies to successfully transform higher education to become fully inclusive and advance the success of all constituents and stakeholders

Plato's Caves Rebecca Lemoine, 2020. From student protests over the teaching of canonical texts such as Plato's Republic to the use of images of classical Greek statues in white supremacist propaganda, the world of the ancient Greeks is deeply implicated in a heated contemporary debate about identity and diversity. In Plato's Caves, Rebecca LeMoine defends the bold thesis that Plato was a friend of cultural diversity, contrary to many contemporary perceptions. Through close readings of four Platonic dialogues, Republic, Menexenus, Laws, and Phaedrus, LeMoine shows that across Plato's dialogues, foreigners play a role similar to that of Socrates liberating citizens from intellectual bondage.
