## **Resistance To Theory:**

The Resistance to Theory Paul De Man, 1986      Literary Theory and Criticism Patricia Waugh, 2006 This volume offers a comprehensive account of modern literary criticism presenting the field as part of an ongoing historical and intellectual tradition Featuring thirty nine specially commissioned chapters from an international team of esteemed contributors it fills a large gap in the market by combining the accessibility of single authored selections with a wide range of critical perspectives The volume is divided into four parts Part One covers the key philosophical and aesthetic origins of literary theory while Part Two discusses the foundational movements and thinkers in the first half of the twentieth century Part Three offers introductory overviews of the most important movements and thinkers in modern literary theory and Part Four looks at emergent trends and future directions      *Shakespearean Narrative* R. Rawdon Wilson, 1995 The book also relates Shakespeare's understanding of the narrative in the plays to the brilliant narrative poems that he wrote in the early 1590s It also examines the narrative conventions that are used in the embedded or inset narratives in the plays Particular attention is paid to the way Shakespeare creates fictional entities such as worlds and characters in the plays A great deal of emphasis is placed on Shakespeare's innovative transformations of traditional narrative conventions      **Literature: An Introduction to Theory and Analysis** Mads Rosendahl Thomsen, Lasse Horne Kjøeldgaard, Lis Møller, Lilian Munk Røsing, Peter Simonsen, Dan Ringgaard, 2017-03-09 How does literature work And what does it mean How does it relate to the world to politics to history to the environment How do we analyse and interpret a literary text paying attention to its specific poetic and fictitious qualities This wide ranging introduction helps students to explore these and many other essential questions in the study of literature criticism and theory In a series of introductory chapters leading international scholars present the fundamental topics of literary studies through conceptual definitions as well as interpretative readings of works familiar from a range of world literary traditions In an easy to navigate format *Literature An Introduction to Theory and Analysis* covers such topics as Key definitions from plot character and style to genre trope and author Literature's relationship to the surrounding world ethics politics gender and nature Modes of literature and criticism from books to performance from creative to critical writing With annotated reading guides throughout and a glossary of major critical schools to help students when studying revising and writing essays this is an essential introduction and reference guide to the study of literature at all levels The companion website to the book [litt.hau.dk](http://litt.hau.dk) focuses on digital humanities and literary studies For each topic in the book you will find an introduction to computational aspects of the topic approaches for both newcomers and advanced users and references to tools scripts and articles The website also has a comprehensive and well structured reference page      Theory at Yale Marc Redfield, 2015-11-02 This book examines the affinity between theory and deconstruction that developed in the American academy in the 1970s by way of the Yale Critics Harold Bloom Paul de Man Geoffrey Hartman and J Hillis Miller sometimes joined by the French philosopher Jacques Derrida With this semi fictional collective theory became a

media event first in the academy and then in the wider print media in and through its phantasmatic link with deconstruction and with Yale. The important role played by aesthetic humanism in American pedagogical discourse provides a context for understanding theory as an aesthetic scandal and an examination of the ways in which de Man's work challenges aesthetic pieties helps us understand why by the 1980s he above all had come to personify theory. Combining a broad account of the Yale Critics phenomenon with a series of careful reexaminations of the event of theory, Redfield traces the threat posed by language's unreliability and inhumanity in chapters on lyric, on Hartman's representation of the Wordsworthian imagination, on Bloom's early theory of influence in the 1970s together with his later media reinvention as the genius of the Western Canon and on John Guillory's influential attempt to interpret de Manian theory as a symptom of literature's increasing marginality. A final chapter examines Mark Tansey's paintings, Derrida, Querey, de Man, and Constructing the Grand Canyon, paintings that offer subtle complex reflections on the peculiar event of theory as deconstruction in America. *Rhetoric and Hermeneutics in Our Time* Walter Jost, Michael J. Hyde, 1997-01-01. This thought provoking book initiates a dialogue among scholars in rhetoric and hermeneutics in many areas of the humanities. Twenty leading thinkers explore the ways these two powerful disciplines inform each other and influence a wide variety of intellectual fields. Walter Jost and Michael J. Hyde organize pivotal topics in rhetoric and hermeneutics with originality and coherence, dividing their book into four sections: Locating the Disciplines, Inventions and Applications, Arguments and Narratives, and Civic Discourse and Critical Theory. Contributors to this volume include Hans Georg Gadamer, one of whose pieces is here translated into English for the first time; Paul Ricoeur, Gerald L. Bruns, Charles Altieri, Richard E. Palmer, Calvin O. Schrag, Victoria Kahn, Eugene Garver, Michael Leff, Nancy S. Streuver, Wendy Olmsted, David Tracy, Donald G. Marshall, Allen Scult, Rita Copeland, William Rehg, and Steven Mailloux. For readers across the humanities, the book demonstrates the usefulness of rhetorical and hermeneutic approaches in literary, philosophical, legal, religious, and political thinking. With its stimulating new perspectives on the revival and interrelation of both rhetoric and hermeneutics, this collection is sure to serve as a benchmark for years to come.

**Reaganism in Literary Theory** Jeremiah Bowen, 2020-07-15. Reaganism is a discourse of devotion and disqualification combining a neoliberal negative theology of the market with a neoconservative demonization of opponents. Reagan's personality cult shelters the aggressivity of a war of all against all by representing the market as a moralistic standard of perfection, a representation of goodness and freedom. In literary theory and criticism, a homologous valuative system centered itself on the canon, representing culture as a study of perfection. Paul de Man argued for the displacement of this positive moralistic reference but his proposals ultimately replace it with a negative moralistic reference to literariness. De Man's premises have been perpetuated in subsequent theory by persistent misrecognitions of dialectic as suspicious hermeneutics of materialism as reference to materiality and of demands for democratic equity as identity politics. Tracing this motivated reasoning through misreadings of Eve Sedgwick's critique of conspiracy theory and Edward Said's secular criticism, we are

led back to the unexamined premises of Paul de Man's negative moralism and the opportunistic competition of academic careerism

**Style in Theory** Ivan Callus, James Corby, Gloria Lauri-Lucente, 2012-12-06 What in theory is style How has style been rethought in literary theory Drawing together leading academics working within and across the disciplines of English philosophy literary theory and comparative literature *Style in Theory Between Philosophy and Literature* sets out to rethink the important but all too often overlooked issue of style exploring in particular how the theoretical humanities open conceptual spaces that afford and encourage reflection on the nature of style the ways in which style is experienced and how style allows disciplinary boundaries to be both drawn and transgressed Offering incisive reflections on style from a diverse and contemporary range of theoretical and methodological perspectives the essays contained in this volume critically revisit and challenge accepted accounts of style and provide fresh and compelling readings of the relevance in any rethinking of style of specific works by the likes of Shakespeare Petrarch Kant Nietzsche Heidegger Deleuze Blanchot Derrida Nancy Cixous and Meillassoux

**The Sleep of Reason** Martha C. Nussbaum, Juha Sihvola, 2013-08-02 Sex is beyond reason and yet we constantly reason about it So too did the peoples of ancient Greece and Rome But until recently there has been little discussion of their views on erotic experience and sexual ethics *The Sleep of Reason* brings together an international group of philosophers philologists literary critics and historians to consider two questions normally kept separate how is erotic experience understood in classical texts of various kinds and what ethical judgments and philosophical arguments are made about sex From same sex desire to conjugal love and from Plato and Aristotle to the Roman Stoic Musonius Rufus the contributors demonstrate the complexity and diversity of classical sexuality They also show that the ethics of eros in both Greece and Rome shared a number of commonalities a focus not only on self mastery but also on reciprocity a concern among men not just for penetration and display of their power but also for being gentle and kind and for being loved for themselves and that women and even younger men felt not only gratitude and acceptance but also joy and sexual desire Contributors Eva Cantarella Kenneth Dover Chris Faraone Simon Goldhill Stephen Halliwell David M Halperin J Samuel Houser Maarit Kaimio David Konstan David Leitaos Martha C Nussbaum A W Price Juha Sihvola

*Theory Now and Then* Joseph Hillis Miller, 1991 This publication brings together the more overtly theoretical essays by J Hillis Miller published between 1966 and 1989 Dust jacket

**Theory's Autoimmunity** Zahi Zalloua, 2018-10-15 Engaging scholars from across humanistic fields grappling with the role and value of theory in our times *Theory's Autoimmunity* argues for reclaiming theory's skepticism as a value To cultivate theory's skeptical impulses is to embrace what Jacques Derrida has termed autoimmunity a condition of openness to the outside openness of the self the community democracy or other ideals that allows for change Openness to change comes with risks and the self protective temptation to immunize oneself or one's community against these risks is strong Yet without such risks without openness to otherness no encounter with the new with difference can ever take place Without autoimmunity theory becomes stagnant and programmatic unable to receive and

respond to the other or the event to address revise and produce new meanings Taking up the challenge of thinking theory as skepticism with and against philosophy this study turns to literature as an interlocutor investigating the ways theory like the literary works of Montaigne Baudelaire Stendhal Morrison or Duras declines to put on the interpretive brakes to stop reading at a point of understanding Undoing and remaking itself theory those critical interpretive practices that revel in the creation and proliferation of meaning becomes autoimmune **(Un)Learning to Be Human?** Stefan Herbrechter,2024-09-23

Critical posthumanism is a theory paradigm that has become hugely influential across the humanities and social sciences in the last twenty years This volume collects essays written over the last decade by one of the founders and leading figures of this movement Originally a reaction to accelerated technological and media change that challenges traditional notions of what it means to be human posthumanism as opposed to transhumanism has developed into a general critique and reappraisal of life after humanism and anthropocentrism The essays collected here are dealing with aspects of education technology politics media and art and share a focus on how to critique and unlearn traditional understandings of humanness and re learn what it means to be human differently *The Return of Theory in Early Modern English Studies* E. Aston,B. Reynolds,Paul Cefalu,2016-04-30 This collection looks at the growing rapprochement between contemporary theory and early modern English literary cultural studies With sections on posthumanism and cognitive science political theology and rematerialism and performance the essays incorporate recent theoretical inquiries into new readings of early modern texts

*Theory That Matters* Kacper Bartczak,Małgorzata Myk,2014-08-11 Covering an impressive scope of subjects in literary and cultural theory from Freud Heidegger and Barthes to Fish Rorty and Bhabha Theory That Matters offers a welcome up to date assessment of the state of the discipline Such a recapitulation serves as a point of departure for the examinations of the new practices across the arts and media and of the innovative interpretative tools suggested by these practices The contributors take their examples from an amazing variety of contexts and thus prove that the very dynamics of theory is a fascinating phenomenon Succeeding several recent anthologies that have cast doubt on the aims of theory the present volume launches its defence and at the same time demonstrates that this is not to be achieved at the expense of praxis The book clearly shows that theory owes its currency to its multiple functions among others as a procedure of interpretation a vehicle for philosophical reflection and a formulation of an ideological stance Marek Paryz Associate Professor Institute of English Studies University of Warsaw Editor of the Polish Journal for American Studies *Contemporary Fiction and the Uses of Theory* M. Greaney,2006-08-25 This topical study examines the novelizations of radical literary theory in the work of A S Byatt Angela Carter Umberto Eco John Fowles Richard Powers and many other leading novelists It offers a comprehensive analysis of the post theoretical novel and traces an alternative history of the theory revolution in recent literary fiction **Modern North American Criticism and Theory** Julian Wolfreys,2006-04-21 Modern North American Criticism and Theory presents the reader with a comprehensive and critical introduction to the development and

institutionalization of literary and cultural studies throughout the twentieth century and at the beginning of the twenty first Focusing on the growth and expansion of critical trends and methodologies with particular essays addressing key figures in their historical and cultural contexts the book offers a narrative of change transformation and the continuous quest for and affirmation of multiple cultural voices and identities From semiotics and the New Criticism to the identity politics of whiteness studies and the cultural study of masculinity this book provides an overview of literary and cultural study in North America as a history of questioning debate and exploration *Julia Kristeva and Literary Theory* Megan

Becker-Leckrone,2017-09-16 Engaged debate among feminist political and psychoanalytic thinkers has secured Julia Kristeva s status as one of the most formidable figures in twentieth century critical theory Nevertheless her precise relevance to the study of literature the extent to which her theory is specifically a literary theory can be hard for new readers to fathom This approachable volume explores Kristeva s definition of literature her methods for analyzing it and the theoretical ground on which those endeavors are based Megan Becker Leckrone argues that Kristeva s signature concepts such as abjection and intertextuality lose much of their force when readers extract them from the specific complex theoretical context in which Kristeva produces them Early chapters situate her theory in a broader conversation with Roland Barthes Sigmund Freud Jacques Lacan and others around the issues of reading textuality and subjectivity Subsequent chapters look at Kristeva s actual engagements with literary texts specifically her challenging highly performative reading of French novelist Louis Ferdinand Celine in *Powers of Horror An Essay on Abjection* and her career long preoccupation with James Joyce A final chapter of the book looks at the way contemporary literary critics have marshaled her ideas in re reading the poetry of William Wordsworth while a helpful glossary identifies Kristeva s most pertinently literary theoretical concepts by way of synopses of the texts in which she presents them **The States of 'theory'** David Carroll,1990 This book constitutes a

critical investigation and rethinking of the grounds and possibilities of theory and the place and critical function theory can serve within various disciplines notably history and aesthetics *Extraterritorialities in Occupied Worlds* Extraterritory Project,2016 The concept of extraterritoriality designates certain relationships between space law and representation This collection of essays explores contemporary manifestations of extraterritoriality and the diverse ways in which the concept has been put to use in various disciplines Some of the essays were written especially for this volume others are brought here together for the first time The inquiry into extraterritoriality found in these essays is not confined to the established boundaries of political conceptual and representational territories or fields of knowledge rather it is an invitation to navigate the margins of the legal juridical and the political but also the edges of forms of representation and poetics Within its accepted legal and political contexts the concept of extraterritoriality has traditionally been applied to people and to spaces In the first case extraterritorial arrangements could either exclude or exempt an individual or a group of people from the territorial jurisdiction in which they were physically located in the second such arrangements could exempt or exclude a

space from the territorial jurisdiction by which it was surrounded The special status accorded to people and spaces had political economic and juridical implications ranging from immunity and various privileges to extreme disadvantages In both cases a person or a space physically included within a certain territory was removed from the usual system of laws and subjected to another In other words the extraterritorial person or space was held at what could be described as a legal distance In this respect the concept of extraterritoriality presupposes the existence of several competing or overlapping legal systems It is this notion of being held at a legal distance around which the concept of extraterritoriality may be understood as revolving
