Resocialization An American Experiment:

Resocialization: an American Experiment Daniel B. Kennedy, August Kerber, 1973 **Resocialization: an American Experiment** Daniel B. Kennedy, August Kerber, 1973 On Loss and Losing Melvyn L. Fein, 2017-09-08 All people suffer instances of personal loss that cause distress All too often their discomfort is treated as a medical issue requiring treatment usually through medication Melvyn L. Fein argues for a broader understanding of loss and losing that offers another approach which he characterizes as resocialization Indeed how a person thinks feels and acts may all need to be reorganized if personal distress is to be overcome Fein urges that we distinguish between the loss of something we once possessed and losing something that never came to fruition Thus it is possible never to achieve vital social roles social statuses and or personal bonds despite our individual efforts While some of these losses are not necessarily problematic others are extremely painful Unfortunately rather than investigate the source of this discomfort distraught individuals frequently seek refuge in simplistic solutions As a consequence one of the reasons the medical model remains dominant is that the alternative is imperfectly understood Fein presents a compelling case for a sociological interpretation of personal distress Although he acknowledges that some personal suffering derives from biological sources and that mental illnesses can spill over to cause social dysfunctions he argues that it is important to recognize the social causes of human suffering In thereby recognizing the limitations of the human condition most of us can do better than blindly accept an inherited dedication to the medical model On Loss and Losing offers a legitimate option without denying the reality of human suffering Document Retrieval Index , 1974 *Library Book Catalog* United States. Subcommittee on Crime, 1978 **Library Book Catalog** United States. Department of Justice, 1976 **Library Book Catalog** National Institute of Law Enforcement and Criminal Justice. Office of Technology Transfer, 1975 *Why Innovation Fails* A. Levine, 1980-06-30 We know a lot about innovation in education when it occurs what forms it takes or what steps it involves But we don't know why it fails or succeeds Arthur Levine's goal in writing this book was to understand how change can be accomplished successfully His focus is on what happens after a change has been adopted Levine first offers a theory about change in organizations based on the personality of the organization He then examines his theory of change in a detailed study of fourteen structurally similar innovations in the experimental colleges at the State University of New York at Buffalo He concludes with a review of other studies of universities as organizations in general integrating his theory with other research on innovation in organizations Resources in Education , 1976 **Research in Education** , 1974 **Retribution and Reparation in the Transition to Democracy** Jon Elster, 2006-05-08 The contributions in this volume offer a comprehensive analysis of transitional justice from 1945 to the present They focus on retribution against the leaders and agents of the autocratic regime preceding the democratic transition and on reparation to its victims Part I contains general theoretical discussions of retribution and

reparation The essays in Part II survey transitional justice in the wake of World War II covering Austria Belgium Denmark France Germany Hungary the Netherlands and Norway In Part III the contributors discuss more recent transitions in Argentina Chile Eastern Europe the former German Democratic Republic and South Africa including a chapter on the reparation of injustice in some of these transitions The editor provides a general introduction brief introductions to each part and a conclusion that looks beyond regime transitions to broader issues of rectifying historical injustice **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 *Vocational Rehabilitation of the Drug Abuser: Gainfully employed* ,1973 **Current Catalog** National Library of Medicine (U.S.),1973 First multi year cumulation covers six years 1965 70 *Library Book Catalog* United States. Law Enforcement Assistance Administration. Library, *Living in Prison* Stephen Stanko,Wayne Gillespie,Gordon A. Crews,2004-04-30 Can the morality of a nation really be judged by how it treats its prisoners The United States has more people in prison than any other nation and the nature of the American correctional system continues to be the subject of passionate debate This unique combination of historical overview and personal testimony provides an unprecedented look at the U S correctional system The first section of the book places the notion of corrections within an historical context The second examines contemporary correctional issues In the third and final section Stephen Stanko an inmate in the South Carolina correctional system provides a detailed look at prison life from the inside Stanko offers his perspective in a voice that is blunt but never preachy on the harsh realities of prison life making this a rigorous exploration of our correctional system in both theory and practice Occupational Health Nursing ,1973 **Social Psychology** Ralph Turner,2017-09-29 A valuable compendium broad In scope rich In detail It should be a most useful reference for students and teachers This is how Alex Inkeles of Stanford University described this text It is made more so in this paperback edition aimed to reach a broad student population in sociology and psychology The new Introduction written by Rosenberg and Turner brings the story of social psychology up to date by a rich and detailed examination of trends and tendencies of the 1980s Although social psychology is a major area of specialization in sociology and psychology this text Is the first comprehensive and authoritative work that looks at the subject from a sociological perspective Edited by two of the foremost social psychologists in the United States this book presents a synthesis of the major theoretical and empirical contributions of social psychology They treat both traditional topics such as symbolic interaction social exchange theory small groups social roles and intergroup relations and newer approaches such as socialization processes over the life cycle sociology of the self talk and social control and the sociology of sentiments and emotions The result is an absolutely Indispensable text for students and teachers who need a complete and ready reference to this burgeoning field *Alabama Social Welfare* ,1973 Annual report of the Dept included in one of the monthly issues 1949
