## **Resolving Regional Conflicts:**

*Resolving Regional Conflicts* Roger E. Kanet, 1998 The end of the cold war has not meant an end to conflict around the world Disagreements still exist and discord continues to erupt into battles In *Resolving Regional Conflicts* twelve scholars present a broad introduction to the issue of discord within and between nations exploring models by which emerging security problems can be analyzed and looking at specific conflicts and the ways they are being handled **Regional Conflicts**, 1990 *Handbook of Regional Conflict Resolution Initiatives in the Global South* Jeronimo Delgado-Caicedo, 2022-07-28 During the first half of the twentieth century the international system was largely dominated by the USA and the colonial powers of western Europe After the two world wars the political and economic dominance of these states guaranteed them and their allies an almost complete control of world politics However as it is the norm in the international system power structures are not immutable After the end of the Cold War rapid changes to the existing international hierarchies took place as new countries from the so called developing world began to emerge as crucial actors capable of questioning and altering the power dynamics of the world It is therefore unthinkable to ignore emerging countries such as Russia the People s Republic of China India Brazil or South Africa in the decision making process in today s world order In addition there is a group of smaller yet increasingly important countries that while acknowledging their inability radically to change the rules of the international system are still eager to shift power relations and enhance their influence in the world Argentina Colombia Egypt Indonesia Iran South Korea Mexico Nigeria Pakistan Saudi Arabia Turkey and Vietnam are generally recognised as part of this grouping of emerging powers from the Global South While there is a consensus amongst academics that emerging powers from the Global South must have a stabilising role within their own regions previous analyses have focused primarily on the impact that emerging powers have had in their own regions conflict resolution initiatives This volume instead aims to go beyond these analyses and provide new insights regarding the effect that this stabilising role has on the continental and global positioning of emerging powers In other words this book explores the relation between a country s involvement in conflict resolution initiatives and its positioning in the international system The volume will contribute to this approach using the perspective of academics and practitioners from countries of the Global South particularly from states that have strengthened or sometimes weakened their position in the international hierarchy of power through a leading role in regional conflict resolution initiatives *EYES OF A TYPHOON: FROM REGIONAL CONFLICTS TO GLPBAL SECURITY CRISIS* JAYSON PARK, 2023-05-24 This book has highlighted the potential of regional conflicts to escalate and cause a crisis to global security The cases of conflict in the Middle East Africa and Asia demonstrate that regional conflicts can have devastating consequences including displacement of people economic devastation and political instability It is therefore critical to address regional conflicts and establish preventative measures and effective conflict resolution strategies to prevent them from escalating Preventative measures can include investment in regional stability and development and the

establishment of diplomatic channels for resolving conflicts Effective conflict resolution strategies such as mediation and negotiation can be used to resolve regional conflicts before they become a crisis      **Regional Conflict Management** Paul Francis Diehl, Joseph Lepgold, 2003 This collection of original essays is one of the first to examine the implications and efficacy of regional conflict management in the new world order      The EU, Promoting Regional Integration, and Conflict Resolution Thomas Diez, Nathalie Tocci, 2017-02-16 This book provides a comprehensive study into the promotion of regional integration as a central pillar of European Union EU relations with the rest of the world It is a strategy to deal with a core security challenge the transformation of conflicts and in particular regional conflicts Yet to what extent has the promotion of regional integration been successful in transforming conflicts What can we regard as the core mechanisms of such an impact This volume offers a comprehensive assessment of the nexus between promoting integration and conflict transformation The authors systematically compare the consequences of EU involvement in eight conflicts in four world regions within a common framework In doing so they focus on the promotion of integration as a preventative strategy to avoid conflicts turning violent and as a long term strategy to transform violent conflicts by placing them in a broader institutional context The book will be of use to students and scholars interested in European foreign policy comparative regionalism and conflict resolution

**Soviet-American Conflict Resolution in the Third World** Mark N. Katz, 1991      *Conflict Resolution* S. I. Keethaponcalan, 2017-07-21 This book introduces the subject of third party intervention one of the core subject matters of the fields of conflict resolution and peace studies It provides a comprehensive introduction to the dimensions issues and methods of third party intervention and approaches the subject from an interdisciplinary perspective It delves into third party definitions typologies actors rationale motives decision dimensions and roles This book provides in depth analysis of such third party methods as mediation arbitration hybrid procedures problem solving workshops and peacekeeping uniquely bringing all major topics of third party intervention into one text The last two chapters deal with timing of intervention and ripe moments and ethics Students of conflict resolution and peace studies will benefit from this book      The Resolution of African Conflicts Alfred G. Nhema, Paul Tiyambe Zeleza, 2008 These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots routes regimes and resolution of African conflicts and how to re build post conflict societies They offer sober and serious analyses eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories From the introduction by Paul Tiyambe Zeleza This book offers analyses of a range of African conflicts and demonstrates that peace is too important to be left to outsiders      **Understanding Conflict Resolution** Peter Wallensteen, 2007 This thoroughly revised edition of Peter Wallensteen s text provides a comprehensive guide to understanding conflict resolution in the contemporary global environment Understanding Conflict Resolution draws on recent and classic research from around the world linking the theory of conflict resolution to in depth case studies

throughout The first part reviews the development of conflict resolution since the Cold War and demonstrates the various approaches to conflict analysis The core of the book explores the settlement of three major types of international conflict inter state internal and those arising from state formation In the final part regional and international approaches are examined and questions posed regarding the future of conflict resolution This new edition has been brought fully up to date with coverage of the ongoing war on terror as well as events in Sudan Lebanon Sri Lanka and Zimbabwe Part Three considers the developments in UN reform and the increasing importance of civil society organizations Understanding Conflict Resolution remains an essential text for all students lecturers and researchers of peace and conflict resolution in

international relations global politics and political science **Regional Security in Southeast Asia** Mely Caballero Anthony, 2005 The book examines ASEAN's mechanisms in managing challenges and threats to regional security Its extensive analyses of the ASEAN story of managing regional security cover the different phases of ASEAN's development as a regional organization and explore the perceptible changes that have occurred in regional mechanisms of conflict management The book also examines the roles of relevant actors beyond the states of ASEAN and the key interactions that have evolved over time which have been instrumental in moving regional mechanisms beyond the ASEAN way The book argues that the ASEAN way has not been impervious to change As the association finds its way through periods of crises and continues to confront the many challenges ahead ASEAN and its mechanisms are already being transformed beyond the narrow confines of the modalities associated with the ASEAN way The changes in the political and security landscape of the region as well as the democratic transitions taking place in some member states have set the stage for a much more dynamic set of regional actors and processes that bring into question the kind of regionalism that is now taking place in the region the way regionalism is changing in Southeast Asia **Gorbachev's New Thinking and Third World Conflicts** Jiří Valenta, Frank Cibulka,

Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev's New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the

Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce Weinrod Jiri Valenta      *The End Of Superpower Conflict In The Third World* Melvin A Goodman, 2019-07-11 This book describes the efforts of the United States and the former Soviet Union to resolve regional confrontations It examines Gorbachev's inheritance in Latin America regarding Soviet U S cooperation and conflict and prospects for future Russian U S cooperation      Conflict Resolution and Global Justice Nikola Tomić, Ben Tonra, 2021-07-08 This book examines how the different normative foundations of conflict resolution held by various global actors their understandings of justice and the differences between types of conflict influence the varying means by which conflicts can be prevented managed and ultimately resolved By combining insights from political theory conflict studies and European Union EU foreign policy studies the book identifies the EU as the key case of a conflict manager that is both a product and a defender of a global liberal order It focuses on three aspects of conflict resolution that pose their own sets of both normative and empirical dilemmas resolving border disputes strengthening the resilience of weak or divided states and societies after regime change and intervention in humanitarian crises Furthermore it offers a comparative analysis between a potentially distinctive European approach and that of other global actors and reflects critically on situations where policy practice may not always reflect a concern for justice asking what countervailing forces prevail and why This book will be of key interest to scholars and students in European and EU Studies Area studies Conflict Resolution War Studies EU Foreign Policy Political Theory International relations as well as policymakers      Third World Conflict Resolution--a New Role for the United Nations? , 1991      International Negotiation and Mediation in Violent Conflict Chester A. Crocker, Fen Osler Hampson, Pamela Aall, 2018-02-06 This collection of essays situates the study and practice of international mediation and peaceful settlement of disputes within a changing global context The book is organized around issues of concern to practitioners including the broader regional global and institutional context of mediation and how this broader environment shapes the opportunities and prospects for successful mediation A major theme is complexity and how the complex contemporary context presents serious challenges to mediation This environment describes a world where great power rivalries and politics are coming back into play and international and regional organizations are playing different roles and facing different kinds of constraints in the peaceful settlement of disputes The first section discusses the changing international environment for conflict management and reflects on some of the challenges that this changing environment raises for addressing conflict Part II focuses on the consequences of bringing new actors into third party engagement and

examines what may be harbingers for how we will attempt to resolve conflict in the future The third section turns to the world of practice and discusses mediation statecraft and how to employ it in this current international environment The volume aims to situate the practice and study of mediation within this wider social and political context to better understand the opportunities and constraints of mediation in today s world The value of the book lies in its focus on complex and serious issues that challenge both mediators and scholars This volume will be of much interest to students practitioners and policymakers in the area of international negotiation mediation conflict resolution and international relations Moscow And The Third World Under Gorbachev W. Raymond Duncan, 2019-04-02 This book explores the scope of Moscow s new thinking in its Third World context highlighted by the USSR s surprising withdrawal from Afghanistan in 1988 It reviews the foreign policy record Gorbachev inherited and assesses his economic and strategic priorities in the diplomatic arena

**Encyclopedia of Violence, Peace, and Conflict** Lester R. Kurtz, Jennifer E. Turpin, 1999-08-10 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world **Gorbachev and Southeast Asia (Routledge Revivals)** Leszek

Buszynski, 2014-04-11 First published in 1992 this book examines Soviet foreign policy towards Southeast Asia in the context of the transformation of the perestroika era in the Soviet Union The discussion begins in 1985 and ends in 1989 with the Soviet partial withdrawal from Cam Ranh Bay Buszynski considers Gorbachev s effort to disengage from the Cambodian problem the weakening of the Soviet alliance with Vietnam and the real effort to overcome old hostilities with growth areas in ASEAN such as Thailand and Singapore This is a fascinating and relevant title of particular value to students with an interest in Russia and the history of international relations in Southeast Asia **Biennial Report of the United States Institute of Peace** United States Institute of Peace, 1992 This document is the third in a series of biennial reports on the United States Institute of Peace The Institute devotes itself to matters of international peace based on freedom and justice
