Sustainable Development in Third World Countries Valentine U. James, 1996-02-13 Sustainable development has been approached from many viewpoints over the past 15 years without a concise or precise definition of what sustainable development really stands for James has solicited contributions from an international group of experts who write about aspects of sustainable development from many different disciplines Their consensus is that sustainability depends upon concerted development across the spectrum of socioeconomic factors that affect the environment natural resources health education and welfare of the populations in the emerging nations The necessity of incorporating indigenous knowledge with technological and international expertise has become crucial

Decentralization and Economic Development in Nigeria Nwafejoku Okolie Uwadibie, 2000 This is the only book of its kind to address the effect of agricultural decentralization on the Nigerian national economy In his effort to demonstrate how decentralization promotes development that can economically empower individuals Uwadibie thoroughly analyzes three key aspects of Nigeria's decentralization policy These are the Local Government Reform Act of 1976 the creation of new states and the implementation of the Structural Adjustment Program SAP Together these policies reduced the overall role of the federal government in the national economy by diverting revenue to states and dissolving the federal government's direct ownership of agricultural enterprises Based on his extensive research Uwadibie concludes by making a number of additional policy recommendations that he believes are essential for Nigeria to become self-sufficient in food production Those with an interest in African studies economic development or agricultural production will find much to their liking in this work

Africa After the Cold War Adebayo Oyeade, Abiodun Alao, 1998 Although it is widely recognised that Africa's security problems are acute it has never been a subject of much intellectual inquiry This lack of scholarly discourse on the many dimensions of the problems of African security is the major consideration of this book The approach to the questions of security differ markedly from the traditional approach that gives primacy to the threat of military aggression as sole factor in state security A departure must be made from this dominant preoccupation in a new global order that has seen profound changes

**Africa's Ecology** Valentine Udoh James, 1993 Rising population in Africa has resulted in a growing demand for consumer goods and basic necessities food shelter clothing and energy causing a dramatic decline in the environment Documented through case studies and photographs are five basic ecological issues facing Africa the destruction of wildlife the decline of natural habitats pollution land degradation and human shelter International agencies roles in reversing the negative trends are examined

**International Bibliography of Economics** British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

*Response to Land Degradation* E M Bridges, 2019-04-24 This work is intended for advanced readers interested in methods of sustainable land management the prevention and control of land degradation It offers a coherent view of the situation concerning land degradation and the human response to the problem It is generally recognized that technological solutions alone cannot solve the problems of land degradation This book discusses the role of land use and land management policies programmes institutional innovations and economic incentives for the control and prevention of land degradation Special attention is given to legal issues at the international level and in individual countries

African Studies Review, 1994

*The Environment and Development in Africa* Moses K. Tesi, 2000-01-01 The premise of *The Environment and Development in Africa* is that current environmental problems in sub Saharan Africa are an outcome of the continent's development activities Whether these activities have generated economic growth and raised living standards or have led to growth without overall increases in living standards or have even contributed to a decline in people's well being developments in that region have produced effects that have degraded Africa's environment in many ways This book presents a comprehensive and systematic analysis of the context of the environmental issues facing sub Saharan African states Contributors discuss the problems associated with generating the capacity to manage Africa's environmental concerns assess the impact of economic development efforts on the region's environment and examine various societal and policy responses to environmental problems and to development problems linked to ecological decay This is an important book for scholars and policy advisors concerned with African studies and global environmental issues

**Economic Justice in Africa** George W. Shepherd, Karamo

Sonko,1994-09-30 Combines theory with empirical evidence and economic with political analysis to provide the most comprehensive multi disciplinary coverage to date on IMF and World Bank adjustment programs in Africa □□□□□□□□□□,1992     **Abstracts on Rural Development in the Tropics** ,1992     **Conservation Policies in West Africa** Valentine Udoh James,1996 A study of the creation and implementation of development planning policies in the face of the overall decline in the quality of the environment in West Africa Discusses the problems with conversion of the forest lands and savannahs due to the haphazard development process of agriculture and urbanization the importance of the conservation of biodiversity in this region and some intriguing environmental ecological and political solutions Annotation copyrighted by Book News Inc Portland OR     **Africa's Development in the Twenty-first Century** Kwadwo Konadu-Agyemang,Martin Kwamina Panford,2006 Having been under colonial rule for the first half of the century by 1965 all but a handful of African countries had regained their independence and were poised to take off into an era of development However Africa now suffers from the most acute form of underdevelopment anywhere in the world Bringing together a broad selection of case studies covering a wide range of key issues this volume provides a multidisciplinary exploration of Africa s development opportunities and challenges into the twenty first century     **Insights into Policies and Practices on the Right to Development** Carol Chi Ngang,Serges Djoyou Kamga,2020-10-06 As the world continues to grapple with a range of practical development challenges that are directly linked to livelihood concerns about human well being and declining living standards often overlooked is the human right to development which remains largely unfulfilled In the face of successive global initiatives seeking to remedy these challenges it has become urgent to ask what the universal recognition of the right to development implies if it cannot be translated into improved well being for impoverished peoples around the world The contributors in this timely volume argue that setbacks to development are deeply rooted in the failure to implement the right to development which by nature guarantees equality of opportunities and equitable redistribution of the resources that contribute to better living standards Assessing policy and practical measures or the lack thereof they offer practical suggestions for implementation that will make the right to development a reality for everyone     **Handbook of Research on Resource Management and the Struggle for Water Sustainability in Africa** Nojiyeza, Innocent Simphiwe,Mtapuri, Oliver,Bazaanah, Prosper,Netshiozwi, Edzisani Ellen,2022-01-28 Access to water and sanitation remains a critical challenge in various countries in Africa The crisis remains the crisis of governance rather than the physical and economic scarcity In most countries water is realized as a human right and subsidies are provided for the indigent households The tricky issue in rural areas remains an issue of access that is often linked to willingness and ability to pay for the installation and daily consumption The Handbook of Research on Resource Management and the Struggle for Water Sustainability in Africa presents practical examples of integrated water resources management IWRM implementation in African countries It further addresses the contemporary issues of alternative energy as part of climate change mitigation and utilizes case studies to

examine how communities adapt to climate change Covering topics such as climate justice ecological governance and political ecology this major reference work is a dynamic resource for government officials sociologists climate scientists activists students and educators of higher education academicians and researchers in the fields of social sciences government developmental studies international relations and political science
