## Resources For An Uncertain Future:

Resources for an Uncertain Future Charles Johnston Hitch,1978      *Energy, an Uncertain Future* Herman T. Franssen,United States. Congress. Senate. Committee on Energy and Natural Resources,1978 Pp 1      **Resources for an Uncertain Future** ,1978      **An Uncertain Future - Anticipating Oil in Uganda** Annika Witte,2018 The discovery of oil in Uganda in 2006 ushered in an oil age era with new prospects of unforeseen riches However after an initial exploration boom developments stalled Unlike other countries with major oil discoveries Uganda has been slow in developing its oil In fact over ten years after the first discoveries there is still no oil During the time of the research for this book between 2012 and 2015 Uganda s oil had not yet fully materialised but was becoming The overarching characteristic of this research project was waiting for the big changes to come a waiting characterised by indeterminacy There is a timeline but every year it gets expanded and in 2018 having oil still seems to belong to an uncertain future This book looks at the waiting period as a time of not yet ness and describes the practices of future and resource making in Uganda How did Ugandans handle the new resource wealth and how did they imagine their future with oil to be This ethnography is concerned with Uganda s oil and the way Ugandans anticipated different futures with it promising futures of wealth and development and disturbing futures of destruction and suffering The book works out how uncertainty was an underlying feature of these anticipations and how risks and risk discourses shaped the imaginations of possible futures Much of the talk around the oil involved the dichotomy of blessing or curse and it was not clear which one the oil would be Rather than adding another assessment of what the future with oil will be like this book describes the predictions and prophesies as an essential part of how resources are being made This ethnography shows how various actors in Uganda from the state the oil industry the civil society and the extractive communities have tried to negotiate their position in the oil arena Annika Witte argues in this book that by establishing their risks and using them as power resources actors can influence the becoming of oil as a resource and their own place in a petro future The book offers one of the first ethnographic accounts of Uganda s oil and the negotiations that took place in an oil state to be      **Energy Abstracts for Policy Analysis** ,1984      **Non-Renewable Resources Extraction Programs and Markets** J. Hartwick,2013-10-08 Considers the role of economics in discussions about the depletion of finite stocks of natural resources including oil      **Resources for an Uncertain Future** Charles Johnston Hitch,Lewis M. Branscomb,1978      Managing Water Resources in the West Under Conditions of Climate Uncertainty National Research Council,Division on Earth and Life Studies,Commission on Geosciences, Environment and Resources,Committee on Climate Uncertainty and Water Resources Management,1991-02-01 The question of whether the earth s climate is changing in some significant human induced way remains a matter of much debate But the fact that climate is variable over time is well known These two elements of climatic uncertainty affect water resources planning and management in the American West Managing Water Resources in the West Under Conditions of Climate Uncertainty

examines the scientific basis for predictions of climate change the implications of climate uncertainty for water resources management and the management options available for responding to climate variability and potential climate change

**Environmental Flows in an Uncertain Future** Avril C. Horne, Rebecca Elizabeth Tharme, Jonathan Tonkin, Eric D. Stein, 2022-12-05 *Economics of Coastal and Water Resources: Valuing Environmental Functions* R.K. Turner, I. J. Bateman, W.N. Adger, 2013-04-18 Most of the chapters in this volume are authored by staff or associates of the Centre for Social and Economic Research on the Global Environment CSERGE CSERGE is a research centre sponsored by the UK Economic and Social Research Council ESRC which specialises in interdisciplinary work focussed on environmental management issues We are grateful for the long term support that we have received from the ESRC We would also like to acknowledge the efforts of Ann Dixon and Shin Pearce in the preparation of this volume vii INTRODUCTION CHAPTER 1 ECOLOGICAL ECONOMICS AND COASTAL ZONE ECOSYSTEMS VALUES AN OVERVIEW Turner R K Bateman I J and Adger W N 1 1 Coastal zone pressure and sustainable management challenges Given the continued intensification of the process of globalisation involving population growth population density changes via urbanisation industrial development increased trade and capital flows liberalisation of transnational corporation activity and lifestyle and attitudinal changes coastal zones and their hydrologically linked catchment areas have come under heavy environmental pressure The scale and extent of socio economic activities have profound implications for the now coevolving natural and human systems and their complex interrelationships Turner Perrings and Folke 1997 The consequences of this process of change manifest themselves across a range of spatial and temporal scales Indeed the juxtaposition of different spatial functional and temporal scales that is inherent in the catchment coastal ecosystems seas oceans continuum poses particularly difficult challenges for both science and resource management governance *The Future of Helium as a Natural Resource* William Nuttall, Richard Clarke, Bartek Glowacki, 2012-06-25 The book reveals the changing dynamics of the helium industry on both the supply side and the demand side The helium industry has a long term future and this important gas will have a role to play for many decades to come Major new users of helium are expected to enter the market especially in nuclear energy both fission and fusion Prices and volumes supplied and expected to rise and this will prompt greater efforts towards the development of new helium sources and helium conservation and recycling *Water Resources Management VI* C. A. Brebbia, Viktor Popov, 2011 The biennial Water Resources Management conference is one of the most important of several water related conferences organised by the Wessex Institute of Technology As water becomes an increasingly precious resource communities all over the world Are under extreme pressure to ensure its continued adequate supply to their populations It is therefore essential

that those responsible for managing water resources share their expertise in dealing with issues of water quality quantity management and planning as well as other related concerns that help or hinder sustainable management of this vital resource In this volume containing research on recent technological and scientific developments associated with the management of surface and sub surface water presented at the Sixth International Conference on Water Resources Management they do just that The research covers Water management and planning Waste water treatment management and re use Markets policies and contracts The right to water Urban water management Water quality Pollution control Irrigation problems River basin management Hydraulic engineering and Hydrological modelling Flood risk Decision support systems Remediation and renaturalisation Climate change and water resources Governance and monitoring Regional and geo politics of water Economics Water ecology Sanitation Wetlands and Extreme events      Global Biodiversity World Conservation Monitoring Centre,2012-12-06 Global Biodiversity is the most comprehensive compendium of conservation information ever published It provides the first systematic report on the status distribution management and utilisation of the planet s biological wealth      NATIONAL, REGIONAL AND GLOBAL INSTITUTIONS, INFRASTRUCTURES AND GOVERNANCE - Volume II Neil Edward Harrison ,Irene Lyons Murphy,2010-11-11 National Regional and Global Institutions Infrastructures and Governance is a component of Encyclopedia of Institutional and Infrastructural Resources in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias This 2 volume set contains several chapters each of size 5000 30000 words with perspectives issues on National and Regional Institutions and Infrastructures Transparent Governance Empowerment Of Subnational Governments and Local Communities in a Decentralized And Unequal Polity Improving Institutional Support To Promote Sustainable Livelihoods These volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs      **Uncertainty in Climate Change Research** Linda O. Mearns,Chris E. Forest,Haley J. Fowler,Robert Lempert,Robert L. Wilby,2025-07-14 This edited volume with open access discusses all aspects of uncertainty in climate change research with a unique emphasis on decision making under uncertainty and the assessment of various uncertainties in the landscape of decision making By analyzing uncertainty through the lens of decision making the book seeks to understand and assess the various uncertainties inherent in climate change research including uncertainties in economic impacts human health and vulnerability fluctuations in the physical climate system changes in infrastructure and future climate projections Very little published material exists on the uncertainties regarding vulnerability of different populations to climate change and so the book characterizes the uncertainty in vulnerability to better formulate solutions to climate change problems in affected populations The volume will be of interest to students post docs early career scientists and researchers interested in all aspects of climate change After an introduction that addresses the issue of uncertainty in general as it pertains to climate change research the book is divided

into 5 main sections Section 1 focuses on uncertainty in policy and decision making and how climate related policy choices impact risk management impact mitigation and adaptation Section 2 discusses uncertainty in climate change impacts including impacts in agriculture water resources transportation infrastructure and human health and vulnerability Section 3 analyzes physical climate uncertainties such as Earth system projections emissions concentrations and sea level rise projections Section 4 details the methods for quantifying uncertainty from a statistical perspective Section 5 concludes the volume with discussions on special topics and integrated themes on uncertainty including ethics and uncertainty communication the economics of climate change and integrated modeling for decision support
